

- (f) "Persons" means individuals, firms, corporations, companies, partnerships, associations and other entities, private or governmental, and their respective agents; and
- (g) "Technology" means technical data that the supplier Party has designated, prior to transfer and after consultation with the recipient Party, as being relevant in terms of non-proliferation and important for the design, production, operation or maintenance of equipment or for the processing of nuclear material or material and (i) includes, but is not limited to, technical drawings, photographic negatives and prints, recordings, design data and technical and operating manuals; but (ii) excludes data available to the public. The consultation referred to above shall take due account of the indigenous technological capability of the recipient Party.

ARTICLE II

The co-operation contemplated under this Agreement relates to the use, development and application of nuclear energy for peaceful purposes and may include, inter alia:

- (a) the supply of information, which includes technology, related to:
- i) research and development,
 - ii) health, nuclear safety, emergency planning and procedures and environmental protection,
 - iii) equipment (including the supply of designs, drawings and specifications),
 - (iv) uses of nuclear material, material and equipment (including manufacturing processes and specifications), and
 - (v) the transfer of patent and other proprietary rights pertaining to that information;
- (b) the supply of nuclear material, material and equipment;
