

(f) Promoting responsible action by States with a view to preventing the illicit export, import, transit and retransfer of small arms and light weapons.

II. Preventing, combating and eradicating the illicit trade in small arms and light weapons in all its aspects

1. We, the States participating in this Conference, bearing in mind the different situations, capacities and priorities of States and regions, undertake the following measures to prevent, combat and eradicate the illicit trade in small arms and light weapons in all its aspects:

At the national level

2. To put in place, where they do not exist, adequate laws, regulations and administrative procedures to exercise effective control over the production of small arms and light weapons within their areas of jurisdiction and over the export, import, transit or retransfer of such weapons, in order to prevent illegal manufacture of and illicit trafficking in small arms and light weapons, or their diversion to unauthorized recipients.

3. To adopt and implement, in the States that have not already done so, the necessary legislative or other measures to establish as criminal offences under their domestic law the illegal manufacture, possession, stockpiling and trade of small arms and light weapons within their areas of jurisdiction, in order to ensure that those engaged in such activities can be prosecuted under appropriate national penal codes.

4. To establish, or designate as appropriate, national coordination agencies or bodies and institutional infrastructure responsible for policy guidance, research and monitoring of efforts to prevent, combat and eradicate the illicit trade in small arms and light weapons in all its aspects. This should include aspects of the illicit manufacture, control, trafficking, circulation, brokering, trade, as well as tracing, finance, collection, and destruction of small arms and light weapons.

5. To establish or designate, as appropriate, a national point of contact to act as liaison between States on matters relating to the implementation of the Programme of Action.

6. To identify, where applicable, groups and individuals engaged in the illegal manufacture, trade, stockpiling, transfer, possession, as well as financing for acquisition, of illicit small arms and light weapons, and take action under appropriate national law, against such groups and individuals.

7. To ensure that henceforth licensed manufacturers apply an appropriate and reliable marking on each small arm and light weapon as an integral part of the production process. This marking should be unique and should identify the country of manufacture and also provide information that enables the national authorities of that country to identify the manufacturer and serial number, so that the authorities concerned can identify and trace each weapon.

8. To adopt where they do not exist and enforce, all the necessary measures to prevent the manufacture, stockpiling, brokering, transfer and possession of any unmarked or inadequately marked small arms and light weapons.
