Dear Principal Morgan:

As a little souvenir of your hospitality on the occasion of Carl Sandberg's visit to Montreal, I am sending you a copy of my new publication entitled "Northland Songs."

I noticed in a newspaper account of some talk you gave in Toronto that you suggested some new avenue of approach for Canadians into the field of poetry. My own idea of that approach is that it might be through music, and I explained my theory in a talk to the Royal Society at Quebec in 1934, copy of which I enclose.

The author's note in the book and the two inside pages of cover indicate that this theory is getting some support. I attach copy of a letter received from Dr. W. Sherwood Fox this morning, which shows that he is thoroughly interested.

Yours very sincerely,

JMG'P-
