It was announced in the last Annual Report, that it was intended to relieve the Lord Bishop of the trouble and expense of managing and maintaining the Depository. The stock was taken off the Bishop's hands at a valuation, and fresh supplies of books procured from England, so that the Depot is now belived to possess every requisite usually supplied by such institutions. There has been, necessarily, a large sum of money drawn from the Treasurer's hands for the purpose of assuming the management of the Depository, but your Committee feel sure that such an investment cannot but be approved by the Church Society,—one of whose especial objects is to provide for sale a supply of Bibles, Prayer-Books, School Books, and other Religious Books and Tracts. During the six months ending December 31, 1862, upwards of one hundred pounds worth of books were sold in the Depository in Water Street. It is hoped that all the Clergy will promote the circulation of Society's Publications: everything will be done by the Sub-Committee to make the depot as useful as possible; and any suggestions as to its management, or the supply of books, will be thankfully received, and as far as possible adopted.

A minute was passed by the Committee on October 2, 1862, to the effect that occasional grants of devotional books and tracts, to the value of 25s., should be made to any Clergyman in connection with the Society, who will make application in the usual manner.

Your Committee very gladly and thankfully report

*Paid since the accounts were audited.
