early, quickly and at strong prices. Two loads of heavy fat steers, weighing 1300 to 1400 lbs., topped the market for several weeks at \$9.10. Corbett, Hall and Coughlin handled these and weighed them to the Swift Canadian Co. Other choice lots in smaller quantities sold from \$8.75 to \$9. This does not mean a greatly increased price, but few really choice animals are being shipped in to satisfy the demand, hence the price. Godd butcher steers and heifers are steady. Choice cows firm. The trade was active and the market soon cleaned up, there being few cattle on sale.

Stockers and feeders, milkers and springers were at unchanged values.

WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 12.—Wheat prices were strong today for the most part. The difficulty to fill contracts, owing to the delay in threshing in the south thru bad weather, had a bullish effect, particularly on Americans, for September months. A good demand exists for old wheat of Nos. 1, 2 and 3 grades, but offerings were light.

The party aboard, largely Toronto people, looked over the three claims and morables. over the three claims and marvelled at the gold splashes visible in severa places On these claims 20 veins and good

Several thousand feet of stripping and trenching has been done on these Smith-Labine claims but at no place has it gone below ten feet. Most of the gold is in petzite tellurides. Last Year's Accumulation Was Double That of Previous Year.

John Mandy of New York, in his letter this week says:
Accumulation of capital: That we Sheep and lambs—Receipts, 200 head; active; sheep steady; lambs, \$9 to \$9.75; vearlings, \$4.50 to \$8; wethers, \$6.75 to \$7.25; ewes, \$3 to \$6.75; sheep, mixed, \$1,25; ewes, \$3 to \$6.75; sheep, \$1,25; ewes, \$3 to \$6.75; ewes, \$3 to \$6. iness man does with unused new capital which he has saved out of his earnings is to deposit it in his bank.
On May 1 demand deposits in the national banks of the United States were \$6,661,581,353, as compared with about \$6,111,328,457 a year previous. Here was a gain of \$550,200,000, and this

compares with a yearly average gain in recent times of only \$266,600,000. Otherwise expressed, the accumula-tion of liquid capital in the hands of individuals is so rapid that individual deposits in the banks are growing nearly twice as fast as usual. Other evidences of this accumulation are to be found in the decrease in building operations and in the revival of the speculative mania in stocks. Pessimistic brokers have been telling us for many years that speculation is dead; and no doubt speculation in the kind of stocks which did little else but go down was pretty nearly dead. However, the war stocks are of the kind that show ability to go up; and forthwith the dead speculation rises out of its coffin and makes a rush at the war stocks with a howl of joy that would put an Indian war dance to shame. The readiness to speculate was there, and the capital to do it with was abundantly there-so that all it needed
