

Corry & Barker Patent
STEAM SET WORKS

For Saw Mill Carriages

Operates the Set Works already on the carriage.
Does the same work by power that is now done
by hand and does it in exactly the same way.
We have included on this machine some pat-
ented improvements, making it the only
reliable and efficient set works at the pres-
ent time on the market.

We are also sole builders in Canada of the
famous **SAMSON TURBINE.**
