Messrs. Mackenzie and Mann Have a Big Strike on Their Hands Out West One Thousand Canadian Northern Railway Employees Walked Out Yesterday

RECOGNITION OF THE UNION REFUSED BY COMPANY RESULTS IN TIE-UP

Disorder Extends Over the Whole System From Port Arthur Westward.

ROAD-BED IN BAD SHAPE FROM RAINS

Engineers and Firemen Expected to Join the Strikers To-day—Supt. Hanna Seen.

Winnipeg, June 30.—About 1000 men employed by the Canadian Northern Railway, and members of the United Brotherhood of Railway Employees, struck this evening, owing to the refusal of the company to receive a committee of the brotherhood and to recognize schedules for revision of wages presented.

Workers Affected.

The classes of workers affected are: Freight clerks, Freight handlers, Tractmen, Stationmen, Stationary engineers, Pattern-makers, Carmen (including every department), Washmen, Engine watchmen, Coalheavers, Wipers, Washout helpers, Bridge and building department men. The engineers and firemen may join the strikers to-morrow. The strike extends over the whole system of the Canadian Northern road, from Port Arthur westward.

Local Tractmen Out.

The local tractmen are also out. They belong to the same order as the others (Brotherhood Railway Employees), and they will stand by their fellow-employees.

Work of 13 Organizers.

Thirteen organizers of the United Brotherhood have been working for upwards of six weeks, and this is the result of their labors.

There are many members of other departments who are members of the United Brotherhood, and many of those will join in the strike.

The roadbed is in a very poor condition, owing to heavy rains and high water. To-night a bad washout is reported from the Portage branch, and there are many soft spots which require watching. Up to 10 o'clock tonight it was reported that men's reports from outside points had been received, although usually they are in such haste.

Superintendent Hanna Seen.

When your correspondent went to see Superintendent Hanna at the office of the Canadian Northern office he found all the buildings in darkness. He was told that he had been called to the scene of the strike, and that he had been unable to get to his office. He was seen at 10 o'clock, and he was in a very bad way.

High-Headed Proceeding.

It was practically dark when the strike broke out. The office was in a very bad way, and the men were in a very bad way. The strike was a high-headed proceeding, and it was a very bad thing.

Men's Side.

The men claim that the trouble has been going on for a considerable time, and that they were not at all surprised at the strike. They claim that the company was not at all fair to them, and that they were not at all surprised at the strike.

It is only recently that the Brotherhood of Railroad Tractmen has commenced to organize their fellow workmen on the Canadian Northern Railway. The organization have rapidly advanced, and they are in a good position to strike.

Tractmen on this road were well organized in this respect, but when the brotherhood was in existence, but when the tractmen on the Canadian Northern Railway went collectively into the American organization, of which John T. Wilson, of St. Louis is Grand President, the Canadian order became defunct. Since then tractmen on the Canadian Northern have been gradually joining the American order.

Mr. Donald Wilkinson, of this city, who is chairman of the C.P.R., which recently waited upon the management at Montreal, had been in the city, and it is expected that those on the Canadian Northern Railway are not further advanced, or even as well organized, as those on the bigger roads.
