

A runner named Mustill, entered in last night's three-mile open race at the Jubilee Rink, evidently thought he was in a steeplechase contest. At all events he tried to make the other runners do the hurdle act by knocking over the chairs which were placed at the turns, thereby forcing the other competitors to jump or run around them. The party in question toppled over four chairs and was nearing the fifth one when Manager Trafford put him out of the running, amid a round of applause from the big crowd present.

Here is the cruelest blow of all: In view of the way the Toronto people have gone mad over Tom Longboat's victory in the Boston Marathon, it would be interesting to know what would have happened had a Toronto white man won the Marathon at Greece?—Hamilton Times.

A local lacrosse player remarked last night that the game would go in London if it only received enough support from the newspapers. For two whole weeks a notice of a lacrosse meeting was published in both local papers, and when the affair came off there were not enough enthusiasts lined up to start a young poker game.

Poor old Barracks! They got it in the solar plexus again yesterday. Kick up, sojers, kick up.

Tomorrow afternoon the Soccer League leaders—the McClarys and Y. M. C. A. teams—meet at Carling's Heights. The bout will doubtless prove highly interesting, as both teams are very anxious to win the trophy. Much depends on the result of the coming game. A good crowd is expected.

Owing to the cold weather the Y. M. C. A. lacrosse players will not turn out for practice tonight.

Hamilton, the home of Marathon winners and Rugby stars, is to have no baseball the coming season, according to all accounts. The City League has been disbanded, and Toronto won't consider an inter-city proposition. Now the "bluff dwellers" are talking big league ball.

But five Canadian horses have been entered for the Buffalo Grand Circuit meeting next August. H. H. James, of Hamilton, will have three in the events, Robert Lee, 2:06 1/4, Belgrade and Quinell—while the other entries are furnished by Johnston brothers, of this city, who enter Geary, 2:09 1/4, and Billy Cole.

BERT O'ROURKE.

THREE-MILE OPEN RACE AT JUBILEE

Billy Amos Gave Competitors Good Handicap, But Beat Them All Out.

Last night's three-mile open running race at the Jubilee Rink was one of the best events of its kind pulled off in a long time. While "Billy" Amos won out without much difficulty, the second and third positions were very keenly contested.

Amos gave the other boys, seven in number, a lap and a half of a handicap, and regained the distance after a mile and a half of going.

At the start-off "Crow" Carrothers, the speedy Horton runner, set the pace, and a good one it was, too. Then E. Mustill took the lead, and began to tip over the chairs at the turns. Of course, it is possible that the acts were accidental, but to the spectators they looked deliberate, and Mustill was roundly routed. Manager Trafford took him out of the race amid rounds of applause.

After two miles were reeled off, the runners began to drop out, one by one, and at the wind-up only four were left, the order of finishing being: Amos 1, Jones 2, Carrothers 3, Short 4.

The entries were: A. Kingsmill, J. McKellar, E. Mustill, C. Jones, A. Carrothers, W. Amos, F. Short, and E. Gandier.

New York, April 25.—Jockey Jack Martin had his first mount since his reinstatement at Aqueduct today. He was on Grapple, his employer, Frank Farrell's horse, in the Flushing stakes, at a mile, and although Grapple was made a prohibitive odds-on favorite at 1 to 6, Martin failed to land him a winner. ALTROCK ONE OF HARDEST TO BEAT

Cubs' Twirler Gives Baserunners No Chance Whatever to Steal on Him.

"Nick Altrock is one of the hardest pitchers in the world to beat, because he doesn't give baserunners a chance to steal on him," says Frank Selee, the former manager of the Chicago Cubs. Mr. Selee, who has always been one of the closest observers in baseball and one of the most interesting talkers on the national game, pointed out in conclusive manner the big advantage Altrock has over an opposing team.

"In the first place," says the veteran manager, "Altrock has almost perfect control. That means you have got to hit the ball to get to first. Secondly, you can't steal on him, because he watches first like a hawk and has a wonderful snap throw to the base which does not permit a runner to get more than two steps away from the base without great danger of getting caught."

"There are several pitchers in the game who have more speed and better curves, but Nick makes up for his lack of speed and curves by his great fielding, his accurate control and his attention to men on the bases. It has been the same for years. Good left-handers who kept the runners close to first were always winners."

"Against that habit of pitching a team is at a horrible disadvantage. You can't steal bases and the hit-and-run play is easily broken up. When the runners are kept hugging first force plays at second base occur with greater frequency and the infielders are given more time to pull off double plays."

"When a team can't steal bases it isn't going to win very often, and there are mighty few runners who can pull off second on Altrock. Doc White, of the Sox, is almost as good in watching the bases, although his throw to first is not as good as Nick's. Where White shines is in his deceptive delivery. He delivers the ball to the bat very often in such a puzzling manner that the runner on first is fooled into going back to that base, expecting a throw there from the pitcher."

"Not enough pitchers cultivate that short throw to first. There are several good left-handers who watch first as closely as Altrock, but they don't catch the runners off there, because it takes them too long to throw the ball. If they would shorten up their throw baserunners wouldn't dare take any bigger lead off them than they do off Altrock."

Moore, the former national champion, and Miss Evelyn MacVeigh.

BARRACKS BLANKED

BY THE Y. M. C. A.

The Barracks kickers were handed an over-ripe goose-egg yesterday by the Y. M. C. A. Soccer boys in a fast contest at Carling's Heights. The Y. M. C. A. team was only composed of ten players, but it nevertheless won out by a score of 1 to 0.

Past and exciting plays were frequent, and the spectators present went wild with enthusiasm as the ball passed to and fro—first one side having the advantage, then the other.

Fine team work was shown by both teams, and the class of football shown was the best seen in this city in a long time.

Saturday afternoon at 3 o'clock the Y. M. C. A. and the McClary teams played, and the contest should be well worth witnessing.

J. Martin refereed yesterday's contest in a satisfactory manner.

The victors lined up as follows: Field, goal; Puncher and Greening, full backs; Hammond, Sage and Fielder, half backs; Brock, Hollins, Bishop and Brent, wings.

ATHLETICS.

FAVORS REST CURE.

Appleton, Wis., April 25.—Dr. Plantz, president of Lawrence University, stands with President Elliot, of Harvard, on athletics. Dr. Plantz believes that athletics will be the cause by cutting them out for a time and then reorganizing on a new basis. Speaking on the subject today he said:

"I have a great deal of sympathy

with President Elliot, as I feel that intercollegiate athletics have gone to unwarrentable extremes. I would not do away with those games, but I do feel that it is desirable to put them under very strict regulations.

"The unnatural excitement and enthusiasm that students try to develop in relation to these contests do not tell for refinement nor a right emphasis upon the real purpose of college life. I should like to see intercollegiate athletics dropped for three years and then reorganized upon an entirely different basis."

THE TURE.

JOCKEY MAY DIE.

Lexington, Ky., April 25.—While exercising at the running track here today, the 2-year-old gelding Straw Leaf, owned by Major P. P. Johnston, fell in the stretch and broke its left foreleg. Jockey Willie Coke, colored, fell on his head and shoulders and the horse rolled over him. Coke was badly injured and may die. Straw Leaf was shot.

PAINS, LIKE THE POOR, ARE ALWAYS WITH US.—That portion of man's life which is not made up of pleasure is largely composed of pain, and to be free from pain is a pleasure. Simple remedies are always the best in treating bodily pain, and a safe, sure and simple remedy is Dr. Thomas' Electric Oil. You cannot do wrong in giving it a trial when required.

The two oldest secret trade processes now in existence are said to be the manufacture of Chinese red, or vermilion, and the method of inlaying the hardest steel with gold and silver, which seems to have been practiced at Damascus ages ago, and is only known to the Syrian smiths and their pupils even to this day.
