

## MANAGERS' REPORT.

---

The Managers, in presenting their Fifteenth Annual Report, have again to congratulate the Congregation upon the prosperous state of their affairs.

No event of importance in the history of the Congregation has occurred during the year 1868, but the year has been one in which our course has been prosperous, and the peace and harmony, which, from the first, characterized the Congregation, have continued.

The addition made to the Membership during the year just closed has been 76, the net gain 32, the removals having been 44; the total number on the Communion Roll, on the 31st December, 1868, being three times the number on the Roll at the date of Mr. King's induction.

The attendance on public worship has, taking the average of the whole year, been equal to, if not above, that of any previous year.

The Bible Classes, conducted by Mr. King, for young men on the Sabbath afternoon, and for young women on the Wednesday evening, still continue to be held, with an average attendance not differing materially from that of former years.
