## Saves Miles of Steps for Tired Feet

You now must carry things from your cupboard and pantry to your table and back again at every meal. This soon means miles of unnecessary steps. The Hoosier saves all these, because it combines everything at your fingers' ends. You can sit down in front of the Hoosier and do nearly all your work. You save energy by saving steps. You have more leisure.

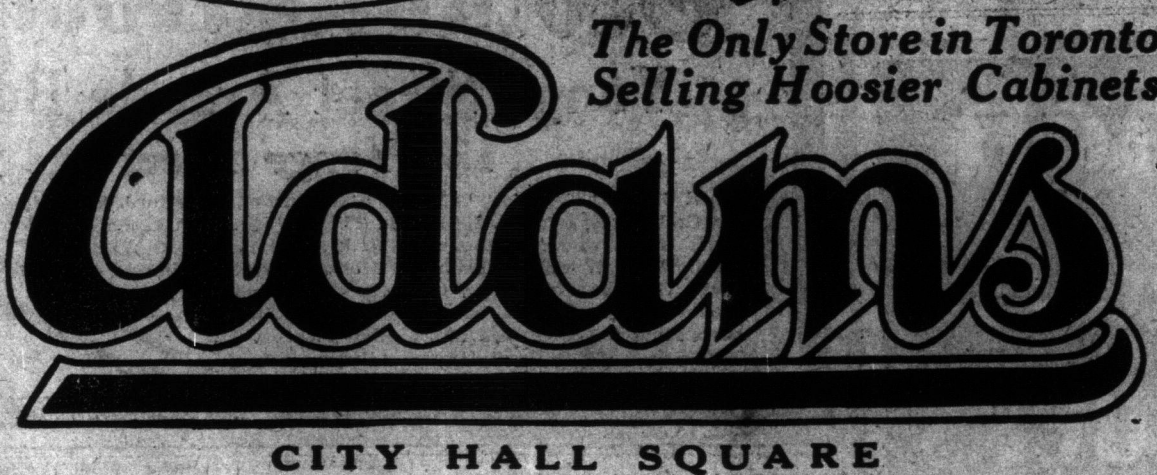

## Has 40 Labor-Saving Features—17 New

This "White Beauty" gives you a real scientific kitchen. You can have 400 articles in this cleverly-planned cabinet, everyone easily within your reach.

The cabinet includes the patented shaker flour sifter—the only sifter made that shakes flour through instead of grinding it. It also has a complete accounting system. A cook book holder that keeps your book always open in front of your eye. Mrs. Christine Frederick's Good Guide that answers the question, "What shall I have for dinner?" The new all-metal bread and cake box has double capacity—due to improved arrangements and the large, spacious work table is of pure aluminum.

## No Housewife Can Be Happy Till She Gets it

The Club Plan makes it too easy to hesitate about it. A mere dollar a week, for a few short weeks and the cabinet is yours forever.

## POLICE HUNTING FOR RONALD MASON

Witness in Gravel Contract Case Has Disappeared From Hamilton

## REWARD TO BE OFFERED

City Will Not Attempt Plan of Municipal Fire Insurance for the Present

statement at the city hall that the writ issued by John Jess had been served. In Ronald Mason's case the police have been active for many weeks, but this had disappeared as completely as if the earth had opened up and swallowed him. He has been located in Smithville, Cleveland and several other United States border cities by zealous police officers of the various places, but he was the wrong one in each case.

Insurance Scheme Dropped.  
Discussing the question of establishing a system of municipal fire insurance, S. H. Kent, city clerk, said this morning that he thought it would be a business to adopt such a scheme without first capitalizing it for about \$75,000.

Without this financial protection there would be trouble, said Mr. Kent. "We might have a big fire, the city hall might burn down or some other civic building within a few hours after the system was adopted and with no initial funds on hand there would be no available source of payment. The idea is a good one, but it should be put into operation without first an initial capitalization fund of at least \$75,000."

Grade Separation Again.  
Controller Thomas S. Morris will bring before the board of control on Monday the question of grade separation on Hunter street. He will likely offer a resolution, in which he will set forth the policy of the city council and will make it plain that the city council is opposed to track elevation, that it is only agreeable to track depression in the event of a separation of grades being necessary, and that before it is committed to spending one cent for track depression the whole matter should be submitted to the ratepayers for a vote. A vote would give the railway commission an idea of the percentage of citizens favoring track depression and willing to assume a portion of the cost.

## WANTS A SERVICE ON GRAND TRUNK

Hamilton Alderman Asks for Two Trains Daily to Burlington

## PERMANENT PAVEMENT

Council Will Be Asked to Do Something on Suburban Road

**By a Staff Reporter.**  
HAMILTON, March 13.—A municipal scheme to induce the Grand Trunk to give a passenger service to the Beach and to have the city and township construct a permanent pavement to the north of the present Beach road, has been launched by Ald. W. J. Dore, representative of ward five. The councillor is in touch with the city solicitor, F. R. Waddell, and claims that the Grand Trunk, under its charter, has to run daily at least two passenger trains each way between Hamilton and the Beach.

Concerning the new roadway the alderman, who has the support of other members of the council, wants the highway to keep to the north of the radial tracks all the way along, so that grade crossings will be eliminated. The owners of land near Ghent's Crossing, the alderman has been informed, are willing to give part of their property for a wider road. Ald. Dore will seek the support of his committee and will ask that a deputation be sent to the township regarding the proposed pavement, and to the solicitor concerning the G.T.R. service to and from the Beach.

## STAFF RECOMMENDED FOR 36TH BATTALION

Lieut.-Col. Ashton of Brantford Will Command and Will Have Good Officers

**Canadian Press Despatch.**  
BRANTFORD, Ont., March 13.—Lieut.-Col. E. C. Ashton stated this morning that he had made recommendations for the staff of the 36th Battalion active service contingent and forwarded them to Ottawa. An answer is expected very shortly. He will command the new battalion. The members of the staff recommended are: Junior Major, Major A. Nelles Ashton; Paymaster, Captain W. Miller; Signalling Officer, Lieut. Genet; Battalion Sergeant Major, Sergt.-Major Oxtoby.

All of the above are members of the Buffs. Lieut. Nontaglion of the 13th Hamilton has been recommended as maxim gun officer and Lieut. Stewart McDonald of the 13th Hamilton as assistant adjutant.

## MUST NOT NEGLECT CHILDREN'S EDUCATION

Deputation Will Protest Against Cut in Board of Education Estimates

**When the board of control meet on Tuesday next an important deputation, composed of representatives of the Building Trades League, the Builders' Exchange, Trades and Labor Council and probably the board of trade, will wait on the board to enter a vigorous and emphatic protest against the action of the board in cutting down the estimates of a board of education for the building of new schools.**

The deputation will not only protest against the policy of cutting out needed public works, which would give employment to large numbers of men during what may be an off season in the building trades, but also, and more particularly, against a policy which would leave the growing child population of the city most seriously and inadequately provided for in the matter of proper and suitable facilities for the education of the coming generation.

## PLAIN WORDS FROM JUDGE TO LAWYER

Judge Denton Would Commit Anyone for Action of J. H. Holmes

Judge Denton was not backward in expressing his opinion as to the conduct of J. H. Holmes in respect to his part played in the stirring scene in Special Examiner Bruce's office Thursday. "If you father did such a thing before me in court I would have had him in jail in two hours," said Judge Denton to J. H. Holmes' son of R. H. Holmes Saturday in chambers.
