The party to the number of 75, including the employees at Saint John, Fredericton, Woodstock and Summers, with their families motored to the lake in two large motor buses and several private cars.

DAMAGE IS DONE IN ELECTRICAL STORM

Some Trouble Caused in City—Two Horses Killed in Kings County

Some trouble was caused by the electrical storm yesterday afternoon here. The N. B. Power Company had some temporary trouble on Tuesday, various parts of the city being blown out, but repairs were soon made and service restored. It was reported that lightning had entered through the window of a house in City Line, W. E., without doing any damage.

There was heavy rain, with hail, here with the storm.

Lightning destroyed the barn of Howard D. Folkins at Centerville, on the Millstream, and killed two horses. Mr. Folkins' barn and some of the contents were burned. A tree near the house was split by lightning. A house in Dorchester was struck and at Point du Chene a double cottage which had been occupied by W. K. Gross and C. E. Northrup was struck. DISCOUNT DATE FOR TAXES EXTENDED

Simonds Ratepayers to Have Until Sept. 7—Premier Assures Legislation

Assurance from Premier Baxter that legislation would be permitted authorizing the Municipal Council to extend the discount date for taxes for Simonds parish was received this morning by County Secretary J. Kelly, K. C. The assessment roll for this parish was not filed until August 12, which made it impossible for taxpayers to have advantage of the discount rate of 5 per cent. which was set to expire on August 17 by the County Council. The council could not do itself, having once set the date, change it and on conference with Premier Baxter he gave assurance the date could be legally extended until September 7. The ratepayers of this parish, therefore, will be allowed the discount.

AT LORNEVILLE

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and flows up the river through the gorges of the Falls, creating a "Falls" running up river.

At low tide the water in the Bay and River are about equal and the water at the Falls becomes almost the surface of a lake. To fully appreciate this wonder of the world it should be seen at all three stages of view this phenomenon is:

THE SETTLEMENT—Mr. H. H. Hanner went to a mask-ball at the town folks' an' Birdie McWhat' an' some more o' the settlement folks an' in the hall the other night. They was p'rates, an' gypsies, an' critters in costume—R' they danced—'n' laughed—an' et ice cream—an' took the air on the verandah an' had a great time altogether. Hanner hed all she could do to keep me down—fer I was old snedgers older than I bein'—'n' through the Caledonia an' the fox-trot to beat the band. The band was a plumper an' a 'cordeen. Well, the fun won't last much longer. The frost was on the cucumbers yesterday mornin'. School's open agin—an' the exhibition's comin' on—an' the porkpines is beginnin' to smuff around the corn-patch. The Settlement 'll be quiet agin almost afore we know it. It's been a great summer.
