ST. JOHN ROTARY PAYS TRIBUTE TO FELLOW MEMBER, WARREN G. HARDING

Half a Minute of Silence; St. Louis on the 21st of June, only six weeks ago, President Harding said to Eulogy by Rotarian H. L. Spangler.

For half a minute yesterday the members of the Rotary Club of St. John and their guests stood in pro-found silence, as a tribute to the late Rotarian Warren G. Harding. This

the seven thousand Rotarians assem-

"If I could plant Rotary in every community throughout the world, I would do it, and then I would guar antee the tranquility and the forward march of the world. Statesmen have John and their guests stood in profound silence, as a tribute to the late Rotarian Warren G. Harding. This was in response to a message to District Governor Spangler from International headquarters to all clubs to pay a tribute to the late President of the United States. Before asking the club to rise, Dr. Spangler delivered the following impressive eulogy:

Standing in that great auditorium in Standing in that great auditorium in Standing in that great auditorium in The spindles, and putting a little more soul in the life of this republic."

He came and spoke to us, not as the head of a great nation, not as a prophet or a leader, but as a maar, a Rotarian speaking to other Rotarians, with no flights of oratory, or fixed phrases, just a Rotarian talking to his fellows; a man of the people speaking to other Rotarians, moving to-and-fro. Each goes his way; up, down, and in and out;

They use PALMOLIVE SHAMPOO—Olive oil in its most convenient form. Washes away all dirt and grime; removes dandruff. And it leaves theirs; but if you could plant the spirit of Rotary throughout the world, and turn it to practical applicaion, there would not be much wrong with the human procession. I can understand how you have grown, how you have grown, how you have grown, how you have grown ho

just a Rotarian talking to his fellows; a man of the people speaking to others of his kind.

And he still lives in the inspiring messages he left with us, and others. He lives, as we all must continue to live, in his words and in his acts. They never die. Each one of us is the inheritor of all who have gone before. Each one of us, in passing, leaves something to all who follow. The measure of a man is what he leaves. A man cannot be measured by the position he occupies. The measure of a man is how well he served, not where. And so I feel that although we recognize President Harding, the leader, the statesman, our tribute as Rotarians should be to the man, to his simplicity, his cinearity, his his present.

the thread
Of his life, showing here and there the strong,
Bright colored thread, he dragged
through with a song?
He played the game. He played the game, a man.

He fought the fight, A true ROTAR-IAN.

Use olive oil and

Try it, and see.

He played the game; he fought the fight; a man. He could not have done more. Tired from his long journey; lying at rest; lulled by the voice of the woman who had helped him in his adversity and supported him in his prosperity; he fell asleep. At the very zenith of his power, his life-thread snap-

Rotarians: Will you stand in silence, for thirty seconds as a tribute to our brother Rotarian, Warren G. Harding.

Slight Frosts Are Reported From West

Winnipeg, Aug. 7.—Rains were general over the Prairie Provinces last week, and the cooler weather which followed has retarded rust developments and is helping to fill the grain, states the weekly crop report issued here by the Agricultural Department, Canadian Pacific Railway. Low temperatures have been reported with slight frosts in Saskatchewan and Alberta.

Buddists Plan Active Drive For White Converts in Hawaii

Honolulu, July 11,—(A. P. By Mall)
—An active drive for converts to Buddhism among the English speaking peoples of the Hawaiian territory is forecast as the result of action taken by Buddhist leaders in deciding to organize a Buddhist evangelican association in Hawaii with headquarters here. The principal aim of the society will be to spread the teaching of the sect in English, and present plans call for the training of English speaking priests of Buddha, the publication of canonical books in English and the circulation of other publications in English regarding Buddhism.

Two men, graduates of a local high school or a Buddhist university in Japan, will be invited to study for five years in a mainland university, on the understanding that they are to preach Buddhism in Hawaii on the conclusion of their studies.

of their studies.

Lawyers Top List as Skyscraper Tenants

Chicago, Aug. 5.—(A. P. by Mail)—
Twenty per cent. of the tenants in American skyscrapers are lawyers, according to a survey made for the National Association of Building Owners and Managers by W. R. Ballard of Boston, Mass.

The survey covers typical tenantry of 72 skyscrapers, and is said to be the first one of its kind ever made. Of the total of 3,733 tenants canvassed, 833 were found to be lawyers. After lawyers come investment houses with 370, and real estate is a close third with 352 tenants. The survey will be used in aiding prospective builders to determine the proper way to lay out floor space.

banks and trust companies, with oil concerns next and insurance companies third, the report showed. Thirty-eight different classes of businesses were found to be housed in the various sky-

Took Bank's \$78,500, Lost It In Stocks

Two Employes of a Bethlehen (Pa.) Trust Company Confess and Go to Jail.

Bethlehem, Pa., Aug. 7—After they had played the stock market on margin and lost \$78,500, Elmer E. Renner, teller, and Howard R. Rehrlg, assistant treasurer and bookkeeper of the Bethlehem Trust Company, were arrested last week. They confessed and were sent to jail in default of \$25,000 bond each.

bond each.

The bank stands to lose but little, as it will recover \$59,000 from a bonding company and \$25,000 from the personal property and real estate of the two men, which has been seized. The bank directors will make up the remaining \$3,500.

bank directors will make up the remaining \$3,500.

The shortage was discovered by George W. Brown, senior State Bank Examiner, who on a visit to the bank Tuesday found several hundred doblars missing from the cash drawer. Further investigation, in which the two men aided, unearthed total speculations of \$78,500. Both men did not appear to be much broken up at any time during their ordeal, although at noon today Renner remarked:

"This is an awful mess to get into. I don't care so much for myself, but for my family."

Renner is married and has a child. He has been living with his father-inlaw, W. H. Judd. He admitted that he had been buying stocks on margin with West & Co., Philadelphia. He has turned over to the credit of the bank certain sums in his bank account and to his credit with the stock brokers, as well as an automobile.

Renner told the examiner that he had been the one that caried on the operations in the stock market, mostly on margin. He said that on some days he had to have as much as \$5,000 to meet his obligations with the philadelphia House. It is also known that Rehrig had not much to do with the operations for several months, but simply co-operate with Renner in the trust company office in manipulating the books.

Their method of juggling the ac-

books.

Their method of juggling the accounts is known as "kiting" and "stripping." When patrons of the bank made a deposit, the deposit slip would be filled out by Renner in sight of the depositor, but later would be destroyed and the money put into his own pockets. Certain accounts in the trust company, along with his personal account would be fixed up by false entiries.

Rehrig also is married and has one child. Both he and Renner were active church workers. Rehrig surrendered his house and two automobiles to

the bank.

Denver, Colo., Aug 7—Leo. P. Floyd, secretary and John Harrington, teller, today entered pleas of guilty to a charge of embezzling \$22,000 in Liberty bonds from the Hibernia Bank and Trust Company. The shortage in the bank's funds amounted to \$443,000.

ANCIENT ROMANS USED
MODERN HEATING METHODS
London, July 19—(A. P. By Mail).

A central heating aparatus used in
a Roman villa about seventeen centuries ago has been unearthed in the
course of excavations at Kenysham
cemetery. Some restshire.

The villa, which was about 120 feet
long, was heated by a hypocaust or

Cleaning.

This is to offer you a delightful test, to show what it means to you.

Combat the film

The way to pretty teeth is by combating film.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays.

Food stains, etc., discolor it. Then it forms dingy coats. Tartar is based on film. That's why teeth lose luster.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. That's why few escape.

why few escape.

Germs breed by millions in film.

They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Teeth not clean

Old brushing methods left much film intact. They left the teeth un-clean, to often discolor and decay.

Because a dingy film is hiding the beauty of her

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research, and these two film destroyers were embodied in it. That tooth paste is called Pepsodent. Now careful people of some 50 nations employ it, largely by dental advice.

Aids to nature

Nature gives alkalinity to the saliva, to neutralize mouth acids. It puts a starch digestant in saliva, to digest starch deposits which may otherwise ferment and form acids.

Those agents were generally too weak. So Pepsodent multiplies that alkalinity, multiplies that starch digestant. So it gives manifold power to these tooth-protecting agents in the mouth.

Pepsodent is bringing a new dental era. The prettier teeth seen everywhere show that. Learn what it means to you.
