## Spencer Extended To Win From Fenn

### Professional Champion Forced to Three Heats to Defeat Amateur Star.

Newark, N. J., Sept. 13.—Willie Fenn, the amateur bicycle champion of America, made Willie Spencer, the professional champion, so three heats before he bowed in defeat to Spencer in a quarter-mile match race at the Velodrome on Sunday. It was the first time in the history of cycling, according to Frank Kramer, chairman of the Board of Control of National Cycling Association, that an amateur has been able to take even one heat from a professional titleholder. Spencer won the first heat, Fenn the second, and a great ovation, and Spencer took the third and the race.

Spencer rode around Fenn in the home stretch in the initial heat and rode the quarter in 28.2 seconds. Fenn was on the inside, making heat and just went dead all the way. Spencer could not overtake him in the home stretch, and he gave everything he had in the home stretch, was a half-length to the bad at the finish. The quarter was covered in 28.4 seconds. Fenn got off in front again in the third heat, but Spencer rode around him on the last turn and won the heat and race in 28.4 seconds.

## HER BABY SUFFERED WITH SUMMER COMPLAINT

A fact mother must face is that summer complaint with the prostration, often verging on collapse, which sometimes accompanies the disease, makes it one of the most serious and dangerous to contend with during the hot months.

Thousands of infants die annually whose lives could have no doubt been saved by the timely use of Dr. Fowle's Extract of Wild Strawberry, and it has been the experience of thousands of mothers during the past 78 years this valuable preparation has been on the market, that it is the safest and most effective remedy for use in all cases of looseness of the bowels.

Mrs. S. Lafontaine, Great Desert, Ont., writes: "My baby, when a year old, was suffering with summer complaint. Two doctors attended him, but nothing would stop the vomiting and diarrhoea. A friend told me to try Dr. Fowle's Extract of Wild Strawberry and after the second dose the baby was better and I can say it saved my baby's life."

Price 50c a bottle, put up only by The T. Milburn Co., Limited, Toronto, Ont.

## SAINT ROSES AND SUSSEX MAY PLAY

A playoff between St. Rose's and Sussex for the amateur championship of the province may be ordered by the trustees of the Chesley cup. F. J. Legge received a letter from Sussex on the day, demanding that a series be staged. Mr. Legge got in touch with J. E. Fitzgerald, manager of St. Rose's and Elmer Ingraham, cup trustee and a meeting was held at which the claims of the two teams were considered. The opinion of J. J. Dunlop, the other trustee, who is at present out of town, were wired for. Mr. Dunlop gave his decision that the playoff should take place during the week-end of next week, in Sussex, and Friday of the same week, in St. John, as dates.

Mr. Ingraham was called from the city and a decision will be given when he returns tomorrow.

Mrs. Albert Blunt.

## KIDNEY TROUBLE?

The Kidneys are the Blood Filters—When They Weaken and Stop Up, The System Becomes Overloaded With Uric Acid.

Toronto, Ont.—"I can highly recommend Dr. Pierce's Anuric (anti-uric-acid) Tablets to all those who suffer in any way with their kidneys or bladder. Anuric is by far the best medicine of the kind I have ever taken. My kidneys were congested and inflamed, my back ached something awful, my bladder was weak and I suffered from a scalding and burning sensation. I was almost down and out—but, thanks to Doctor Pierce's Anuric (kidney) Tablets I do not suffer any more. Those who suffer as I did will find Dr. Pierce's Anuric Tablets just the medicine they need."—Mrs. Albert Blunt, 6 Blevins Place.

Ask your nearest druggist for Anuric, in tablet form, or send 10 cents to Doctor Pierce's Laboratory in Bridgeburg, Ont., for trial package. Write Dr. Pierce, Prest. Invalids' Hotel, Buffalo, N. Y., for free medical advice.

## DIXON SETS WORLD'S MARK ON MOTOR- CYCLE IN FRANCE

Paris, Sept. 13.—Henry Dixon of England established a world's motorcycle record by covering a measured kilometre course in the Bois De Boulogne in 20.945 seconds, or an average of 171.876 kilometres an hour. The former record was 166,660 kilometres per hour. Dixon also set a new mark for a motorcycle with a sidecar, covering the kilometre in 25.04 seconds, or at the rate of 143,769 kilometres an hour. The meeting at which the records were made was held under the auspices of the Motorcycle Club of France.

## ST. PETERS AND MILLTOWN TO PLAY

Baseball fans in St. John will have at least one more opportunity of enjoying their favorite pastime when the fast Milltown team of the St. Croix League will be here on Saturday to play St. Peter's. Groves, who shut-out the Easterners of Brewer in ten innings yesterday, will pitch for the visitors. An effort is being made to have the "old St. Peter's" back in the game and the fans will then be given an idea how the old team compared with this year's nine. The St. Peter's team will go to St. Stephen tomorrow to play the champions of the St. Croix League.

## SCIENCE AN AID TO GOLF.

### Rapid Cinema Pictures Show Initial Velocity of Ball

It has been pointed out by certain English golf critics that the initial velocity of the ball depends on the pace at which the club head is traveling at the moment of contact between it and the ball. It has been further argued that the rubber-cored ball, being more compressible than the gutta percha, as may be proved by the use of a vice, or by comparing the size of the impressions, which each makes on the face of a driver, must remain longer in contact with the clubhead than the "guttie" did. From these premises

## How To Sleep 3-IN-A-BED

YES, it CAN be done—but not like this.

The trouble is, most people go to bed with "something" on the mind—or ON THE STOMACH!

The answer is, no matter what the day has brought forth to upset your mind and digestive organs, take Beecham's Pills when you retire.

Though in no sense a "sleeping potion," this 80-years-famous household medicine so harmonizes the system that you can sleep in quiet and perfect rest, even in two feet of bed space.

Beecham's Pills are as efficient and harmless for children as for adults—sweetening the stomach, invigorating digestion and stirring liver and bowels to natural activity.

At All Druggists

## Indigestion Brings on Physical Collapse

With Loss of Employment and Endless Misfortune!

It is as easy to shoot a man on the town square and not be arrested as to break one of these fundamental rules of health and not suffer.

If you are tired out, suffering from indigestion, nervousness, liver complaint, constipation, biliousness, headaches, nervous attacks, don't wait. These are Nature's danger signals; the course of conditions is progressive; one organ infects another; the accumulating impurities in the system gradually spread until the various tissues are infiltrated with poisons and a general collapse threatens.

**DRECO**  
A Marvelous Stomach Tonic!

DRECO has helped hundreds of men and women right here in this vicinity to overcome indigestion, dyspepsia, constipation and kindred ills. It has given power, overtaxed Nature a chance to rebuild the wasted tissues, restore the worn-out organs, and replenish the impoverished blood. And in doing this it has brought release and freedom from innumerable ills, aches and pains—Rheumatism, Lumbago, Neuralgia, Sciatica, Neuritis, Catarrh, Asthma, etc. Many cases of long standing have yielded to the healing powers of this great natural herbal remedy. If your health is bad, if your condition has

reached any of these serious chronic stages, we honestly believe that DRECO will do you a world of good.

As a rule, there is a big relief and a marked improvement in the general condition of people who take DRECO for a few days. Thousands of people have written us that after taking a few bottles of DRECO they have been so completely rejuvenated that they felt as though a new birth of health and physical well-being had been granted to them after years of suffering.

The testimonials given by users of DRECO would fill great volumes, even if printed in fine type. From all classes of people they come, simple everyday human tragedies, pain and suffering, discouragement, defeated hopes, wretched days and nights, loss of earning power, a losing fight with life, all the joys of living gone; and then the unhelped recovery, the swift restoration to health and strength, the renewal of hope and purpose, the new grip on life, the renewed ability to eat, sleep, work and play like natural, healthy folks—all because somebody persuaded them to try DRECO.

Don't wait until you are sick and unable to work. Go to your druggist today and get a bottle of DRECO. Soon you will be able to eat anything and enjoy everything, you will feel stronger and better in every way. What DRECO is doing for so many others, it can do for you—try it.

Dreco is sold by a good druggist everywhere.

was deduced the conclusion that the longest of the long drivers get their results by so retarding the return of the wrists that the club head develops its greatest pace not at the moment when it impinges on the back of the ball, but appreciably later.

But in the opinion of the London Field it is dangerous to hazard a theory about physical facts which is based upon the observation of phenomena by the human eye, in view of rapid cinema machine pictures taken by Walter Heape at the rate of 2,500 to the second, some of which the Field used to show the impact of the ball and the club head. Heape figures that the ball in his pictures developed an initial velocity of 140 feet a second. By the process of measurement with compasses and by the aid of a dissecting microscope he found that the ball had travelled 6.72 inches in 10.2,500 of a second. Multiplication of 6.72 inches by 250 produces about 140 feet.

"We are not, however, immediately concerned with the matter of initial velocity," says "The Field." "We are more interested in the question whether physical science can help us to add a few yards to the length of our ball strokes. These photographs prove conclusively that the theory of retarded wrist action, in so far as it is based on the assumption that clubhead velocity is retarded in contact for an appreciable period of time, must be abandoned. There are, however, other good reasons why we should strive to get our wrists into it as late as possible in the down stroke, the strongest being the obvious that all the best people do it."

"Maybe, when a champion hits one of his best, club and ball will remain in contact longer than those represented in this series of photographs actually did, in proportion as the initial velocity developed is greater than 140 feet per second. But for practical purposes the difference may be disregarded. No human being can so time his stroke as to accelerate the pace of his club head

between the moment of contact, since these pictures show that the interval is no more than 2-2,500 of a second."

## WOMEN OF MIDDLE AGE

### Relieved of Nervousness and Other Distressing Ailments by Lydia E. Pinkham's Vegetable Compound

Brooklyn, N. Y.—"I first took Lydia E. Pinkham's Vegetable Compound four years ago, and am taking it for the Change of Life and other troubles and I receive great benefit from it. I am willing to let you use my letter as a testimonial because it is the truth. I found your booklet in my letter-box and read it carefully. I came to take the Vegetable Compound myself. It has given me quiet nerves so that I sleep all night, and a better appetite. I have recommended it already to all my friends and relatives."—Mrs. ENGLEMAN, 2022 Palmetto St., Ridgewood, Brooklyn, N. Y.

For the woman suffering from nervous troubles causing sleeplessness, headache, hysteria, "the blues," Lydia E. Pinkham's Vegetable Compound will be found a splendid medicine. For the woman of middle age who is passing through the trials of that period, it can be depended upon to relieve the troubles common at that time.

Remember, the Vegetable Compound has a record of nearly fifty years of service and thousands of women praise its merit, as does Mrs. Englemann. You should give it a fair trial now.

## TO TEST RIDING STYLES.

Old-Fashioned Horsemanship Versus Modern to Be Used.

A challenge involving the difference between the old style of riding on the English turf and the present style has been made by Kempton Cannon and has aroused no end of discussion among horsemen on the other side. The challenge grew out of the statement made by Lord Durham in the recent racing case of Boam vs. Beary that any one riding in the old-fashioned style would have no chance against the modern style in a flat race.

This statement by Lord Durham was considered such an exaggeration by Cannon that he at once announced that he would back himself for £100 to ride a match at one mile against any of the present-day leading jockeys, Steve Donoghue, who rode Papyrus to victory in the Derby, preferred. The suggested conditions are that two well known horses be selected and handicapped by any one of the Jockey Club handicappers. Cannon is prepared to ride either animal in the old English style taught by his father and practiced by himself and his two brothers, provided the weights do not run below his 140 pounds, at which figure he now tips the scales, and that he receive a ten-pound in addition to, or reduction of, any handicap allowance or difference that there may be.

In the event of his success Cannon agrees to race again with the jockeys reversed, subject to the ten-pound allowance to himself. The course suggested for the match is Gatwick. Cannon, who rode St. Amant to victory in the Derby in 1904, first donned the silks in 1894 and gave up riding in 1907. Donoghue had his first mount in public in France in 1905.

While stepping from the city ambulance last evening at a home in Elm street, where he had gone to assist in conveying a patient to the hospital, Policeman Alexander Chisholm, 155 St. James street, stepped on a stone and turned his ankle. One of the small bones had been broken.
