PREDICTS BOOM FOR CANADIAN SILVER MINES

Ottawa, Feb. 17.—Because approx-
imately thirty billion dollars' worth of
unbacked notes are in circulation in the
various countries of the world, the view
is expressed here that for some years to
come, gold and silver miners in Canada
will have an unexampled opportunity
to dispose of their product at excep-
tionally high prices.
There is not enough silver in the world
to stand behind the unsupported
paper based on silver and so nations

will be very eager to get as much as
possible. This is believed to be the case
with gold as well. China and India are
draining this continent of its supplies as
the shrewd Chinese and Indian mer-
chants demand that their trade bal-
ances be settled not with paper but with
the precious metals as exchange cannot be
expected to right itself while the cur-
rencies of the world are depreciated.
The products of mines which a few
years ago were not commercially wor-
thy propositions can now in many
cases be mined and sold at a good
profit.
The gold production in Canada for
1919 is valued at \$16,275,000 as against
\$14,463,000 in 1918 and \$13,272,000 in
1917. For the nine months ending De-
cember 31 last, the export of Canadian
gold totalled \$8,284,000 as against \$7,
640,000 in 1918 and \$11,197,740 in 1917.
The bulk of this \$2,786,907 went to

the United States and in previous years
practically all went to the United
States. That there is great possibility
of expansion by starting up mines now
lying idle and developing, promising
properties seems to be indicated when
one remembers that the peak produc-
tion in 1909 was 1,380,057 fine ounces
valued at \$27,908,153. In the case of
silver the production for 1919 was about
13,500,000 ounces as against \$1,388,979
and 22,221,274 ounces in 1917 valued at
\$18,091,895.
Prices have thus been increasing rap-
idly while production declined. It is
expected that with present prices pro-
duction may go up again especially as
China shows no end to her demand for
silver. Of the silver produced in 1919
there has been exported to the United
States 7,609,809 ounces of silver bullion
valued at \$8,967,396 as against \$10,846,
