SHOES FOR TENDER FEET

A great majority of people suffer with tender feet. We have a Cushion Sole Shoe that comes to their relief.

It is fitted with a sole of soft, non-conducting felt, covered with light leather. The foot settles into it naturally—and it keeps the feet at even temperature.

We have these shoes for both Men and Women. Not expensive, \$3.50 to \$4.00. Here's relief for suffering humanity. Try these Shoes, if you are a foot sufferer.

D. Monahan, 32 Charlotte St. "The Home of Good Shoes"
Telephone 1892-11

The defendant will be the prosecution and Mr. Carr will appear for the defence. The trial, which will begin at 8 o'clock, promises to be very amusing. All men are welcome.

MRS. MAHONEY'S CASE

Something Should be Done To Improve Poor Women's Situation

About three weeks ago there was brought to the attention of the reader of this paper, the sad condition of Mrs. Patrick Mahoney, who is living in impoverished circumstances in a damp, old basement of a house in Brussels street, and who is beginning to despair her destination, as apparently from day to day, her lot grows worse.

Today a Times' reporter again visited the squalid quarters, which are practically nothing more than a cellar, and found that there was little change in her unfortunate condition, and that she had suffered considerably in the last few days.

She said this morning that her husband had threatened to kill her instead of trying to improve her lot, had cruelly treated her, and absolutely refused to aid her, except that he purchased a small quantity of coal, which did not last long.

It is felt that something should be done for poor women who, besides being destitute, is ill and finds it difficult to arise from her miserable bed, even to walk upon herself. Those who are acquainted with the matter say that the husband is made to do so properly, either bettering her deplorable condition in the Brussels street house, or else placing her in some situation where she will be attended to with the care and attention which are absolutely essential that she may live.

PROSPECT GOOD FOR PULP MILL SALE

That the Miramichi Pulp Mill matter will work out all right is the opinion expressed today by R. A. Lawlor, K. C., of Chatham, solicitor for the liquidators, who arrived in the city yesterday and is at the Royal Hotel. Judge Barry has empowered the liquidators to sell the property for \$345,000 with a three months' option, a deposit of \$15,000 to be made one month after the option is taken, the amount to be forfeited at the expiration of the three months' period on failure to complete purchase.

There is, Mr. Lawlor says, \$25,000 worth of material on hand unencumbered and which is included in the price fixed. There is now 3,000,000 of lumber on hand so that everything is in shape to start operations.

Both English and Canadian capital are looking favorably on the property and it is felt that a sale can be made with little difficulty.

AWAY ON 43-DAY TRIP

Edgar-Dempster steamer Soloko will sail from the west side at 7 o'clock tonight for Nassau, Havana and Mexico. Among the passengers are: Wm. Tatler, Miss Tatler, Mrs. J. W. Walker, Mr. A. R. Walker, Mr. and Mrs. E. W. Lampray, Mr. and Mrs. Theo. Mosley, Mr. and Mrs. C. G. Buck and Mr. Swail, Miss Swail, Mr. Mead, Mr. and Mrs. Payette, Mr. and Mrs. Field, Miss Field and Miss Geating, of Colongoy, Ont.; Mr. and Mrs. F. J. Yapp, of Hamilton, and C. W. Stairs, Dr. Field, Mr. Simon, Mr. and Mrs. Blackadar, Mrs. Partington, and Miss Partington, all of Halifax. They are taking the round trip of forty-three days in tropical waters.

PREPARE TO RESUME THE DREDGE WORK

Repairs to Government Dredgers Here, on the North Shore and at P. E. Island—A New One Being Built

With the advent of spring the dredges owned by the federal department of public works, which have been working in New Brunswick and P. E. Island during the last year, will be ready to resume their digging. At the present time the big machines—six in number—besides tugs and sows, are being thoroughly overhauled, repaired, cleaned and painted so as to be in first class shape when the season opens. A new dredge is also under construction in Nova Scotia and when completed will be utilized for work in Prince Edward Island.

The big bucket dredge, W. S. Fielding, which has been digging out the channel into the harbor, was laid up on December 21, as a number of the buckets had to be renewed and others repaired; she is now lying at Lower Cove and her crew of thirty odd men are giving her a complete overhauling, painting her inside and out and cleaning up generally. The St. John Iron Works Co., in making a lot of new buckets and about twenty-five are now ready to be installed, while the James Fleming Co., is making repairs to the machinery and buckets. The work is being done under tender.

The dipper dredge, New Brunswick, is undergoing repairs on the west side. In addition to members of the crew there are four men from Fleming's foundry overhauling the machinery and putting everything in first class shape.

The Aurora, a suction dredge, is at Bathurst, where the captain, two engineers and six other men are giving her a thorough overhauling in preparation for spring work. Repairs to the machinery are being looked after by the Phoenix foundry and North Shore Machine Shops.

At Dalhousie, the bucket dredge, St. Lawrence, is being repaired by McLean & Co., of Campbellton, under contract. Nine men are employed and the digger will be put in first class shape. The Montague and the Prince Edward both dredges of the dipper type, are being overhauled at Charlottetown, P. E. I., by the captains, engineers and a number of spare men. It is said they will probably continue the work on which they were engaged last season at the island, as soon as spring opens.

A new suction dredge for work at P. E. Island is now being built in Nova Scotia. The hull is about completed, and the machinery will be placed as soon as possible. This machine is intended for use in about April.

The three tugs which were in attendance on the dredge Fielding, are also being overhauled and repairs made. The Helena and Canoe are on Gregory's blocks both being cleaned and painted throughout and the latter is using a new propeller placed in position. Repairs to the machinery are being looked after by Messrs. Fleming. The Hercules is at Indian-town receiving a general overhauling.

The Hercules is looking after repairs to the boiler and the Union Foundry is installing a new smokestack.

As many of the crews are also being repaired, in fact it is necessary to keep men almost constantly at work on these craft. With all this work under way, it will be seen that employment is being given to a very large number of men, and the dredging equipment of the government is being put in first class shape for continuing necessary work in this province during the coming summer.

LOOK UNDER HASSAM PAVEMENT, HE SUGGESTS

Citizen Writes to Times in Reference to That Missing Stone

A citizen who is much interested in the mystery of the loss of the 250 tons of stone asks the Times if any attempt has been made to trace any of it to the under side of the Hassam pavement. He says that he may be wrong, but he would like to see a few slabs taken up in the course of the search for the missing property. If it were found that some of the stone there, the public would at least be assured that it is in a safe place. How it got there, might be another story, and this citizen says he is fond of good stories.

"And you," he said, "merely make this suggestion, as an addition to the many theories advanced. The stone is somewhere—where is it?"

MR. FLEMING TO RESIGN

Hartland Report That Provincial Secretary is to Retire from Politics After Session

Hartland Observer—According to the statement of a bosom friend, Mr. Fleming has practically decided to resign his office and retire from politics in order that he may give his entire attention to the lumber business. His retirement, so his friend says, is to take place immediately after the session closes.

Y. M. C. A. AT HOME

A pleasant time was spent last evening in the Y. M. C. A. building when a reception was held in honor of C. K. Cadogan, field secretary, of Montreal. He delivered an interesting address on the progress of the association in the last few years. During the ten years just passed the growth, he said, had been remarkable. New buildings had been erected in most of the important cities throughout Canada, and those places where there were none, would soon be equipped with creditable structures. He referred to the development in the Y. M. C. A. through the west, and also spoke of the buildings which the C. P. R. had erected for the use of the Y. M. C. A. through the west, and also spoke of the buildings which the C. P. R. had erected for the use of the Y. M. C. A. through the west.

ADRI OFF ISLAND

Drifting about in a disabled gasoline boat, Pilot Rogers and another man were picked up some distance off Partridge Island this morning and brought in here by a power boat from Lunenburg. The men put out early this morning and were just off of Lunenburg Island when some thing went wrong with the machinery of the boat. She commenced to drift out in the bay and was pretty well out when sighted by the Lunenburg boat.
