

RADIO CALLS FAIL TO LOCATE SCIENCE SHIP

Vessel, Out From New York
Since March 29, Has
51 Aboard

SCIENTISTS LOOKING
FOR BIG DISCOVERY

Belief Is Felt Reports Are
Held Back For Sake
of Effect.

NEW YORK, April 10.—Powerful radio stations and ships at sea which for five days have filled the air with calls for the steamship *Arcturion*, carrying Wm. Beebe and a group of scientists on the deep sea oceanographic expedition of the New York Zoological Society, continued today their efforts.

The expedition has not been heard from since March 29 when the captain reported all was well, 200 miles south of Panama.

Starts In Galapagos.
The *Arcturion* left New York on February 10, and after a trip to the Saragosa Sea on March 28, put out from Panama for a visit to the Galapagos Islands in the Pacific, 1700 miles west of Ecuador. The vessel carried two powerful wireless outfits with a range of 5000 miles and previous to March 30, the captain reported the position of the ship daily to New York. The *Arcturion* carried a crew of 35 and with the 14 scientists and two passengers the total on board is 51.

There was a feeling among some scientists that the expedition might be on the verge of some important discovery and that in order not to be premature all information from the ship was being withheld, until the psychological moment.

MANY SEEK GOLD

Prospectors Rush to Aldan District in Eastern Siberia.

MOSCOW, April 10.—The recent gold discovery in the Aldan region of Yakutsk (Eastern Siberia) has attracted a large number of prospectors, who have obtained during the last operative season more than six tons of gold by the most primitive methods.

The rush of prospectors was so great that within a year it reached nearly 10,000 and the resident population experienced a food shortage, as supplies could only be transported by the rivers Lena and Aldan, which are open only for a few months during the summer.

The new area is described as a second Klondike, and the local authorities have urged the central government to take over the mines and stop the influx of prospectors.

GOD'S WARNING.
The most earnest entreaty, the most solemn counsel, and the most terrible judgment warning to be found in the Bible, are given in a great threefold message announced in the last book of the Sacred Scriptures.

TO YOU IS THIS MESSAGE SENT

Here is wisdom. Let him that hath understanding count the number of the Beast, for it is the number of a man and his number is six hundred, three score and six.—Rev. 13: 18.

"And the third angel followed them, saying with a loud voice, If any man worship the beast and his image, and receive his mark in his forehead, or in his hand, the same shall drink of the wine of wrath of God, which is poured out without mixture into the cup of His indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb."—Rev. 14: 9, 10.

"Here is the patience of the saints: here are they that keep the commandments of God, and the faith of Jesus."—Rev. 14: 12.

WHO IS THIS HEAVEN-MARKED MAN WITH THE MYSTIC NUMBER 666? What is the Beast and his image? What is the MARK OF THE BEAST or badge of his authority? Is the image of the Beast an exact reproduction of the original? Who are keeping THE COMMANDMENTS OF GOD AND THE FAITH OF JESUS, in contradiction to the other two religious systems referred to in the prophecies?

COME, HEAR GOD'S MESSAGE FOR THE LAST DAYS.
TUESDAY, 8 p. m. FRIDAY, 8 p. m.
Special music and singing.—ALL WELCOME.

Policy Declared by Minister Not
Anti-British, But Pro-Union.

CAPE TOWN, S. A., April 10.—Cheers greeted N. C. Harengas, finance minister, in the House of Assembly yesterday when he stated that in taking up the question of Imperial preference in the budget and substituting a quid pro quo basis the government had never been animated by anti-British feeling, but that a preponderating factor was that of the interests of South Africa first.

The minister quoted the observation made by General Jan Smuts in 1923 when he was premier that the position was one-sided, and he said that the fact had been generally felt. The government was treating the question on a sound, economic basis, not on a racial basis.
