L. SCOTT & CO'S. RE-PRINT OF THE

British Periodicals AND THE FARMER'S GUIDE. GREAT REDUCTION IN THE PRICE OF THE LATTER PUBLICATION.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals viz:

1. LONDON QUARTERLY (Conservative.)
2. EDINBURGH REVIEW (Whig.)
3. NORTH BRITISH REVIEW (Free Church)
4. WESTMINSTER REVIEW (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion they stand, as they have stood unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES. The receipt of advance sheets from the British publishers gives additional value as these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS. Per ann. For any one of the four Reviews \$3 00 For any two of the four Reviews 5 00 For any three of the four Reviews 7 00 For all four of the Reviews 8 00 For Blackwood's Magazine 3 00 For Blackwood and three Reviews 9 00 For Blackwood and the four Reviews 10 00 Payments to be made in all cases in advance. Money current in the State where issued will be received at par.

POSTAGE. The Publishers will pay the United States postage.

N. B. The price in Great Britain of the five Periodicals above-named is about \$31 per annum.

THE FARMER'S GUIDE

TO SCIENTIFIC AND PRACTICAL AGRICULTURE By HENRY STEPHENS, F.R.S., of Edinburgh, and the late J. P. NORTON, Professor Scientific Agriculture in Lane College, New Haven. 2 vols. Royal Octavo, 1600 pages and numerous Wood and Steel Engravings. This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to FIVE DOLLARS FOR THE TWO VOLUMES.

When sent by mail (post paid) to California and Oregon the price will be \$7. To every other part of the Union, and to Canada (post paid, \$6.) This work is not the old "Book of the Farm."

Remittances for any of above publications should always be addressed, post-paid, to the Publishers,

LEONARD SCOTT & CO., No. 54 Gold-street, New York.

Scientific American. TWELFTH YEAR.

One Thousand Dollar Cash Prizes.

The Twelfth Annual Volume of this useful publication commences on the 13th day of September next.

The "SCIENTIFIC AMERICAN" is an ILLUSTRATED PERIODICAL, devoted chiefly to the promulgation of information relating to the various Mechanic and Chemist Arts, Industrial Manufactures, Agriculture, Patents, Inventions, Engineering, Millwork, and all interests which the light of PRACTICAL SCIENCE is calculated to advance.

Reports of U. S. PATENTS granted, are also published every week, including Official Copies of all the PATENT CLAIMS, together with news and information upon thousands of other subjects.

\$1,000, in CASH PRIZES, will be paid on the 1st of January next, for the largest list of subscribers, as follows:—\$200 for the 1st, \$175 for the 2d, \$150 for the 3d, \$125 for the 4th, \$100 for the 5th, \$75 for the 6th, \$50 for the 7th, \$40 for the 8th, \$30 for the 9th, \$20 for the 10th, \$20 for the 11th, and \$10 for the 12th. For all Clubs of 20 and upwards, the subscription price is only \$1.49. Names can be sent from any Post Office until January 1st, 1857. Here are fine chances to secure cash prizes.

The "Scientific American" is published once a week; every number contains eight large quarto pages, forming annually a complete and splendid volume, illustrated with several hundred Original Engravings.

TERMS—Single Subscriptions, 2 Dollars a year, or 1 Dollar for six months. Five copies for six months, 4 Dollars; for a year, Dollars. Specimen copies sent gratis. Southern, Western and Canada money, or Post Office Stamps, taken at par for subscriptions.

Letters should be directed (post paid) to MUNN & CO. 128, Fulton St., New York

Messrs. MUNN & CO. are extensively engaged in procuring patents for new inventions and will advise inventors, without charge, or regard to the novelty of their improvements.

AYER'S CHERRY PECTORAL.

FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

Prepared by J. C. AYER, Lowell, Mass.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which should be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with success we would respectfully submit to the public decision. It has been uniformly found for the patient hitherto that almost every purgative medicine is actionless and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Lateness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Constipation, Piles, Colic, Dysentery, Hemorrhoids, Scour, and Scurvy, Colds with looseness of the bowels, and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Puffiness of the Face, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of season. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and by their stimulant action on the circulatory system, renovate the strength of the body, and restore the vigor of the system. Hence an occasional dose is advantageous, even though no serious derangement exist, and no necessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed that this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

AYER'S PILLS.

A new and singularly successful remedy for the cure of all Bilious diseases—Constipation, Indigestion, Jaundice, Dropsy, Rheumatism, Fever, Headache, Nervousness, Irritability, Indigestion, Headache, Pains in the Breast, Side, Back, and Loins, Female Complaints, &c., &c. Indeed, every form of the Diseases of which a Purgative Medicine is not more or less required, and much sickness and suffering which is prevented, if a harmless but effectual Cathartic were soon freely used. No person can feel well while a chronic habit of body prevails; besides it soon generates acids and other bad humors, which must have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Febrile symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which lead the horses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, and they are not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are:

Dr. VALENTINE MOTT, the distinguished Surgeon of New York City.

Dr. A. A. HAYES, Principal Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Dr. I. MOORE, M.D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice, and who writes, "These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded from the drugs themselves, but of the medicinal virtues only of the Cherry Pectoral, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of compounding for medicines has been found in the Cherry Pectoral and Pills to be a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is furnished with more or less of acrimony and injurious qualities; by this, each individual virtue only is retained for the curative effect is present. All the inert and obnoxious qualities of such substance employed are left behind, the curative virtue only being retained. The Pills are self-evident effect should prove as they have proved more purely remedial, and the Pills a sure, and powerful antidote to disease than any other medicine known to the world."

As it is frequently explicated that my medicines should be taken under the counsel of a consulting Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however they should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are sold, how few would be taken if their composition was known! Their life consists in their mystery. I have no mystery.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge that their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. My contemporary Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trials.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action; remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their integrity action to health, and by correcting whatever they find such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the box.
