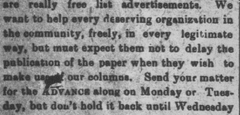
Publisher's Notice.

The publisher desires to urge upon the notice of all who wish to contribute matter of any kind to the ADVANCE'S columns—whether it be advertising, news or notices of meetings, etc.—that the paper goes to press on Wednesday afternoons and, to ensure publication, their favors should be in the office not later than Wednesday morning.

The printing of the paper is frequently delayed by persons who hold back accounts of meetings, announcements of entertainments, etc., which they might easily send in days before that on which we go to press, but they seem to consult only their own convenience and often place them in our hands on Wednesday after the paper is made ready for press, and seem to think it a hardship because they do not appear; and, in most cases of this kind, the contributions are really free list advertisements. We want to help every deserving organization in the community, freely, in every legitimate way, but must expect them not to delay the publication of the paper when they wish to make use of our columns. Send your matter for the ADVANCE along on Monday or Tuesday, but don't hold it back until Wednesday if you can possibly avoid doing so.



The editor and proprietor of the ADVANCE, Mr. D. G. Smith, who has, since he established the paper in 1874, personally conducted it, is obliged, by reason of the demands of other business upon his time—duties which require his frequent absence from home—to place most of the work connected with it in other hands. Mr. Smith has engaged Mr. W. J. Loggie, barrister, to act as sub-editor for the present, that gentleman consenting to do so until a more permanent arrangement can be made, as Mr. Loggie contemplates removing from Chatham to Western Canada in the near future.

Mr. Smith is desirous of selling the ADVANCE and his Job printing establishment — the best on the North Shore—if a suitable purchaser can be found who is prepared to continue the paper along the lines which it has heretofore followed, of representing the best and cleanest interests and aspirations of the community in which it is published. A competent man of established good character and industrial and temperate habits will be liberally dealt with in any proposal for acquiring the paper, plant and good will. The opportunity is an excellent one for a practical printer with a good education, or for a newspaper man who can associate a practical printer with himself in the proprietorship of the ADVANCE.

KENDRICK'S LINIMENT never disappoints.—Beware of cheap imitations at cheap prices.

S. S. BANGOR:—The S. S. Bangor, which has been loading at Messrs. Ritchie's mill, Newcastle, is now putting on her deck load at the J. B. Snowball Co. wharf.

DENTAL NOTICE:—Dr. Vaughan's office will be closed on Wednesdays from 9 a.m. until 2 p.m., owing to his duties as dental surgeon to the Hotel Dieu requiring his presence at that institution.

ST. JOHN'S CHURCH GARDEN PARTY:—Mr. William Anderson has very kindly placed his beautiful grounds, on King st., as the disposal of the ladies of St. John's church for their Garden Party on Thursday, July 23rd. Every effort will be made to make the event equal to those of former years. Advertisement in another column.

WANTED—FAITHFUL PERSON TO TRAVEL for well established house, in a few counties, calling on retail merchants and agents. Local territory. Salary $1024 a year and expenses, payable $19.70 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Standard House, 334 Dearborn St., Chicago.

THE ANNUAL PICNIC of the R. C. congregation of Blackville, is to take place on Wednesday of next week, 22nd inst. Elaborate preparations are being made for the event which bids fair to surpass any previous one in its enjoyable attractions. Reduced fares are arranged for on the railway trains.

McLEAN'S VEGETABLE WORM SYRUP is the same safe, pleasant and effectual remedy for children as when introduced years ago. The first Worm Syrup was McLean's. Beware of imitations, get the original and Genuine McLean's Vegetable Worm Syrup.

MIRAMICHI AGRICULTURAL EXHIBITION MEETING:—At a meeting of the Miramichi Agricultural Exhibition Association, Tuesday evening, considerable business was transacted and plans for the new building and grand stand were considered. It is expected that the work of erection will be commenced at an early date.

THAT TIGHT FEELING in the upper portion of your lungs is incipient bronchitis. You will proceed next to having inflamed lungs and pneumonia will follow. Adamson's Botanical Cough Balsam will give immediate relief. It has never failed and will not in your case. All Druggists 25c.

STRAWBERRY FESTIVAL:—The choir of St. Andrew's church gave an enjoyable strawberry festival in the Curlers Rink on Tuesday evening. Quite a number were present, but owing to the rain preventing a large number from attending it was decided to continue the good things on Wednesday.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

W. S. LOGGIE Company, Ltd.

is one of the most reliable brands of "Canadian" Boots, in

Dongola Kid,
Box Calf,
Patent Colt,
Velvet Kid.

We invite Patrons to give this make a trial, and are sure you will be pleased and come back again.
We are also showing Canvas Boots and Shoes.
Seasonable goods.

COMMERCIAL BUILDING OLD STAND.

CIRCUS FAKIRS:—The circus has come and gone and we regret to say found in Newcastle quite a number of easy ones who would not profit by former experience or the advice of others but determined to beat the fakirs at their own game. One cannot sympathize with people who lose their money in that way as they are equally guilty in the eyes of the law with the ones who take their hard earned wages from them. Next time a circus comes to town we are under the impression that several of our would be sports will have had enough experience to steer clear of the smooth, oily tongued "sharks."—Advocate.

CATARRH IS A GERM DISEASE. Science armed with the micro-cope, has established it a fact, and this conclusion renders absolete the practice of treating Asthma, Catarrh and Bronchitis by stomach druggings, sprays, snuffs, &c. Such treatments are an utter failure because they cannot penetrate the delicate air cells of the lungs, or permeate the air passages of the nose and bronchial tubes where the germs of catarrh have their stronghold. Catarrhozone is the only certain remedy. It is inhaled by the mouth and after spreading through all the respiratory organs is exhaled through the nostrils. Catarrhozone kills the germs, heals the inflamed tissues, clears the head and throat in two minutes, and cures in a few hours. Nothing is so effective, pleasant and simple as Catarrhozone. Two months' treatment $1 00. Small size 25c. Druggists or N. C. Polson & Co., Kingston, Ont.

The Anglers.

Trout-fishing is excellent just now and the salmon-fishing is also improving.

The St. John's Nfld., Telegram of 6th says: "A gentleman of this city has received a letter from Mr. Clarke, the esteemed manager of the Bank of Montreal at Moncton, N. B., informing him that he is coming to Newfoundland this month on a salmon fishing trip during two weeks of July, and expressing the anticipation of meeting him at the big fall of the Humber above Deer Lake."

Mr. Higginson, of the Restigouche Salmon Club, was the first of the members this year to take the number of salmon up to the limit allowed by the club's rules, he having killed eight in the Devil's Half Acre pool on Saturday forenoon.

Great Difference in Corn Cures.

Many are destructive to the flesh and dangerous to use, but the old reliable Putnam's Corn Extractor removes Corns, Warts and Bunions, without pain in 24 hours. No pain, no failure, "Putnam's" cures.

Personal.

Miss Muriel Ellis was in St. John this week.

Mrs. John O'Brien of Nelson, is visiting in St. John.

Ald. Hocken attended the Synod meeting in Woodstock last week.

Mrs. Frank Owens of St. John, is visiting relatives in town.

Archdeacon Forsyth attended the Synod at Woodstock.

Mr. Thos. F. Keary of Sydney, is paying a visit to old friends.

Mrs. Burchill of Nelson, and Miss Wilkinson of Bay du Vin, went down river Tuesday.

The engagement is announced of Miss Essie Mersereau, eldest daughter of School Inspector Mersereau of Doaktown, and Frank Blair, of Campbellton, brother of Miss Helen Blair, of the Education office here. The wedding is set down for next September.—Fdton Telegraph

A Miramichi Case.

In its notes of the proceedings of the Equity Court at St. John on Friday last the St. John Globe says:—

"In the matter of the J. B. Snowball Co., Ltd., and David B. McLaren vs. Daniel Sullivan, on motion of R. A. Lawlor, K. C., plaintiff's solicitor, the injunction granted June 10th to July 10th was extended till the hearing. The injunction was obtained to restrain the defendant from disposing of certain lumber cut on timber lands conveyed to him by Hon. J. B. Snowball, to other parties than the plaintiff. The plaintiffs allege an agreement with the defendant whereby he was to deliver at least 2,000,000 feet of logs out on the land in question per season, and as much more as he actually cut, and that in violation of this agreement he was selling logs cut on this land to other parties."

Death of Senator Dickey.

Halifax, July 14.—Senator Dickey, one of Canada's foremost senators, and a venerable and respected citizen of Amherst, passed away this afternoon.

Robert Barry Dickey was the son of Robert McGowan Dickey, M. P. of Cumberland. He was born Nov. 1811, and had reached his ninety-second year. He studied law with the Hon. Alex. Stewart, and married Mary, his daughter. Mrs. Dickey died some years ago. His sons were the late Hon A. R. Dickey, James, ex-Mayor, and Stewart, also deceased. His daughters were Mrs. Milner, wife of Edward Milner, C. E., of London Eng. and Mrs. Maynard wife of D. M. Maynard, C. E., of Ottawa. Mr. Dickey had been ill for some weeks and for the past few days in a state of coma. He had a remarkably strong constitution and never wore an overcoat until late years.

What an English Woman Wants for $100.

A London paper recently published the following advertisement:—

Required by delicate lady living in London, a young lady by birth and education, as housekeeper and to control the servants and act as lady's maid. Must be thorough English Catholic, accustomed to illness, good tempered, sympathetic, gentle, unselfish and kind; not over 30 and younger preferred; good at accounts; good needle woman, able to work treadle sewing machine; good traveller and packer, and good reader aloud; private sitting-room, but must be companionable when required; inclose photo. Must have excellent references. Salary, £20. No widow need apply.

Twenty pounds a year would be about $100, or somewhat less than $2 a week. It is difficult to estimate what such a lady as the advertiser calls for would be worth in Canada, but at a rough guess, and using the wages paid to servants as a basis for calculation, we should say about $20 a minute. If she happened, in addition to her other good points, to be beautiful, the price would, of course, be higher.—Herald.

A Brilliant Function.

The Sun has the following in reference to the reception tendered to Vice Admiral Sir Archibald L. Douglas at the York Theatre on Tuesday evening:—

The reception given by Lieut. Gov. Snowball at York Theatre last night will doubtless be remembered as one of the most brilliant social functions ever held in St. John. The rooms tastefully decorated for the occasion, the beautiful uniforms of the officers from the visiting warships and of the officers of the local militia combined with the full evening dress of the other gentlemen guests, and the handsome gowns worn by the ladies made a splendid scene.

The guests were received by Lieut. Gov. Snowball, Mrs. Snowball and Vice-Admiral Sir Archibald Lucas Douglas, who was supported by his staff. Around the dais were the Misses Snowball, Miss Watson, the Misses Thompson of Fredericton, and Miss Black.

Capt. Winslow, A. D. C., and Private Secretary R. S. Barker, announced and introduced the guests. Dancing was participated in until an early hour this morning.

Pimples and Blotches,

now unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, color becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone.

Chief Clark Exonerated.

Premier Tweedie, in his capacity as commissioner to enquire into charges preferred by a police officer named McKelvey against Chief of Police Clark, of St. John, made his report thereon at the government meeting last week. It appears therefrom that both parties were represented by Counsel and forty-three witnesses were examined —17 for the complainant and 26 for chief Clark. Some of the witnesses stated that in May last they saw chief Clark when they thought he was under the influence of liquor, but the whole trend of the testimony was that he was a very efficient and painstaking officer. It appeared also that the complainant had a grudge against the chief and had declared that he would "get even with him."

The Gleaner correctly gauges public sentiment in the matter when it says:—

"Premier Tweedie as commissioner to investigate certain charges preferred against the Chief of Police of St. John submitted his report at last night's meeting of the Provincial Government. We publish this in another column, not because the investigation aroused an interest outside of St. John, but wholly because of the manliness and frankness which permeates every sentence in the Premier's expressions. It is not only pleasing to read an expression of opinion which in itself carries with it the conviction of fairness; but an opinion so expressed must inspire quite a measure of public confidence in the professions of our public men."

Great Discovery.

CHICAGO, ILL., July 13.—The promise of a victory over consumption is foreshadowed, physicians here declare, in the published results of the labors of Prof. Eduardo Maragliano, an Italian physician of Genoa.

The results from the subject of Prof. Maragliano's address, entitled "The Struggle of the Body Against Tuberculosis and Its Immunization," presented on the 14th international medical congress held at Madrid last April. The abstracts of this address that appeared soon after the adjournment of the congress were so meagre that they attracted little notice.

Briefly stated, Prof. Maragliano asserts that he has produced, after more than 30 years of study and experiment, a serum which, introduced beneath the skin of the arm, as vaccine lymph is used in vaccination, produces a small circumscribed tuberculosis or consumption, as the properly vaccinated individual is to smallpox.

Prof. Maragliano says: "These results are the fruit of the labors not only of one person but of a school. They are, in fact, the experimental and clinical researches publicly carried on, either in my medical clinic or in the institute for the study of infectious diseases which I founded. There is a fact that always gives food for reflection to those who are interested in tuberculosis, viz.: In spite of the enormous diffusion of the tubercle bacillus in the midst of cities, a great many persons remain unaffected by the terrible disease. This fact implies that the majority of the human species possesses a natural immunity to the omoipresent tubercle bacillus, and the problem therefore is to develop an artificial or acquired immunity in those in whom such natural immunity is lacking or impaired—such immunity as vaccination gives against smallpox."

NEWS AND NOTES.

The Dunn pork packing establishment will not be rebuilt at Musquash. It is not unlikely that the new factory will be located at or near Fairville. Hon. A. T. Dunn says that they have several sites in view, and have not as yet determined on which to take.

Last Sunday evening while the St. John crowd were watching for the arrival of the warships a U. S. revenue cutter, the Gresham steamed up to anchor in front of the D. A. R. wharf. She is a small member of the white squadron, and Capt. T. D. Walker was made hearily welcome. Soon after the Gresham anchored the launch from the Ariadne arrived and conveyed Admiral Douglas' greetings to Capt. Walker. The Gresham is a steamer 205 feet long and 724 tons register. She was built at Cleveland in 1897, and at the time of the Spanish war had to be cut in two to be taken through the canals to the sea. She had a good record during the war. Only a short time before the Gresham sailed Monday morning it was learned that Senator W. B. Fry, acting vice-president of the United States, was on board. Premier Tweedie and Hon. Messrs. Dunn and McKeown and Mr. J. D. Hazen called on Senator Fry Monday morning and had a very pleasant visit. Later the Mayor and Recorder went on board to meet the distinguished visitor. Senator Fry is travelling unofficially, enjoying a rest.

New York, July 8.—Edward Beaupre, 23 years old, who is 8 feet 3½ inches high and weighs 367 pounds, is a patron of an uptown hotel, and at present occupies a room on the second floor which for years has been reserved for John L. Sullivan. Sullivan's bed is a large one, but when Mr. Beaupre attempted to cuddle in it on Tuesday night his toes stuck out of the window. The bed was moved out and the long young man was forced to sleep crosswise on the floor. His presence serves to attract a crowd whenever he appears in the hallways or dining room. Beaupre is a French-Canadian and was born on a ranch in the Northwest Territory, 500 miles west of Winnipeg. His father and mother, he says, are of ordinary stature, and he declares that he weighed only nine pounds when he was born. At the age of three he began to grow, and when ten years of age measured 6 feet 4 inches. He attended school in a little settlement near his home until he was thirteen years old. He has a brother at home nine years old, who is a little more than 7 feet tall.

Beaupre says he would like to get a job with some show in order to raise money enough to go to Europe and have an operation performed on his right cheekbone, which has been broken. Other than this he is a good-looking boy.

Valuable Advice to Rheumatics.

Eat meat sparingly, and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nerviline as an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. Buy a large 25c. bottle to-day, test it, and see if this is not so. Polson's Nerviline always cure rheumatism.

To Prevent Tainted Milk.

DEPARTMENT OF AGRICULTURE, COMMISSIONER'S BRANCH, OTTAWA, JULY 9TH, 1903.

The undesirable germs that get into milk during and after milking, are always associated with filth in some form or other. Careful investigations show that a very large proportion of the cases of taints or bad flavors in milk and its products are caused by the germs which are always present in the droppings of animals. Such germs are to be found in large numbers wherever such droppings are deposited. The mud of stagnant ponds, where cattle are allowed to drink, and the surfaces of barn-yards or milking yards are also swarming with them. For this reason the udders and flanks of cows should always be brushed before milking to remove the dried mud, particles of manure, hairs, etc., which might otherwise fall into the milk pail. Straining the milk, while it is necessary to remove the visible dirt, does not get rid of these foul germs, which are the actual cause of the tainted, gassy milk. Improperly cleaned milk pails, strainers and milk cans are constant sources of contamination.

ABSORPTION OF ODORS.

It is a well known fact that milk will absorb some odors to which it is exposed. Warm milk will absorb odors quite as freely as that which has been cooled; hence the necessity for removing it from the stables or milking yard as soon as possible after it is drawn.

AN IMPURE WATER SUPPLY.

An abundant supply of pure water for the cows is one of the essentials for the production of good milk. When cows are compelled to drink the water of swamps, muddy ponds or sluggish streams and ditches in which there is decaying animal matter, including their own droppings, there is a constant menace to their health, and unless the cows are in good health they cannot give first class milk. Moreover the mud, often full of foul germs, which collects on the legs, flanks and udders of the cows, and falls into the milk at the time of milking, is a direct source of infection which is often overlooked.

IMPROPER FEEDING.

There is in Canada an abundance of good wholesome food available for cattle feeding purposes. The natural pastures are, on the whole, excellent, and it is only in limited districts or at certain seasons of the year that trouble is experienced with weed flavors. Among the cultivated foods, turnips and rape are two prominent exceptions to the rule of suitability which applies in general to Canadian fodder crops. While they are undoubtedly valuable in a ration for growing or dry cattle, if turnips and rape are fed, even in limited quantities, to milking cows, there is a likelihood of imparting to the milk a taint which cannot be eliminated by any process known. Some first class foods when fed alone, and to excess, will cause indigestion and thus indirectly affect the milk. One example of this kind is found in green clover.

In conclusion it may be said that when cows have free access to salt at all times they will give more milk, which will have a better flavor and keep sweet longer than when they do not get any at all or receive it only at intervals.

Yours very truly,
W. A. CLEMONS, Publication Clerk.

Choosing the Pope.

The ceremonial of choosing a successor to the Pontiff is an extremely solmn one. Half the members of the Sacred College aspire to the chair, and the fear of a deadlock for months has inspired the adoption of new rules, that assure the supremacy of Italian influence. The bulls of Gregory X., Gregory XV. and Urban VIII. were modified largely by a bull issued shortly before the death of Pius IX. That important paper was handiwork of Leo XIII, then Cardinal-Chamberlain. These new rules direct that within the earliest possible moment after the demise of the Pontiff the cardinals present in Rome are to fix the date of the conclave. If they so choose they can proceed at once then and there to elect a Pope, without waiting for the arrival of any foreign cardinals or even the obsequies of the dead Pontiff. The bull especially abolishes the period of 10 days, formerly required to elapse after the Pope's decease before the Sacred College could assemble

A quorum is to be regarded as formed by one-half of the living members of the Sacred College, plus one cardinal; and, of this body, a two-thirds majority is necessary to elect. According to the new rules, the cardinals are forbidden to put themselves in any communication with the Italian government during the interregnum. At much length, the Cardinals and the Cardinal-Chamberlain are cautioned against any recognition what ever of the Italian monarchy.

It is true that anxiety exists throughout the Christian world as to the attitude that the Italian government might assume. The real safety of the Church in Rome exists because of the divided political condition of the country and the constant watchfulness that the monarchy is compelled to exercise to maintain its own supremacy.

The new rules make it almost certain that no cardinal of a foreign country has the remotest chance of election to the Papal throne. A prejudice exists among the Italian moiety of the Sacred College against a foreign Pope. The utmost expedition will probably be used in assembling the Sacred College.

The ceremony by which a Pope is chosen is theoretically very simple. A caucus is not only forbidden, but is unknown. Each Cardinal is expected to derive his instructions direct from the Almighty. He must not speak to anybody. The ballot is cast by a written card, and immediately each vote is finished and announced the cardinals separate, go to solitary cells, and there remain in meditation and prayer until the following day. Food of the plainest kind is provided for them, and at night they sleep upon beds of straw. All the splendors of the cardinalate are discarded until a choice is made, after that all the cardinals assemble in the Sistine Chapel in their purple robes and receive the apostolic benediction of the new Pontiff.

A Reverend Immigration Promoter "Rotten-Egged."

The Winnipeg Tribune of 8th has the following special from Regina: Followed by the cries and growls of a party of indignant Englishmen, and kept busy dodging the showers of decayed hen fruit generously distributed by the same crowd, Rev. Mr. Barr climbed aboard the east-bound express last night, and gladly shook the dust of Regina from his feet. He only escaped some rough handling through the watchful efforts of two constables of the Mounted Police, who showed the nerve for which their corps is famous and stood the crowd off. The rev. gentleman arrived in the city from Saskatoon at 6 o'clock in the evening, and was booked to catch the regular express later in the night. That he was expecting a demonstration of an uncomplimentary character was made patent by the fact that he was accompanied by two policemen during all the time he spent in the city. He did not make any great display of himself, but this did not help him to any very great extent, as he had not been in the city long before he was recognized by one of his ex-followers, who imagined that he had good cause to remember the former leader. This man hustled around town, and it was not long before he had under his orders a good crowd of men, all of whom thought that they had some good and just cause to get after Mr. Barr.

Getting hold of a first-class supply of second or third class eggs, they proceeded to the station, where Mr. Barr was discovered taking the air on the platform. The crowd opened the proceedings with three hearty greans, and proceeded to speak of and at Mr. Barr in tones which showed that they had little respect for the cloth. The policemen went right to the front, and kept the crowd out of striking distance until the train pulled into the depot. The confusion caused by this event gave the mob its chance, and as Mr. Barr made a dash for the steps of the sleeper the air grew black with wingless chicks and the cheerful bang of the overripes resounded throughout the land.

As in most cases of the kind, the intention of the marksmen was better than their aim, and the object of their tender silicitude got "clean" away. Not so others who were in the vicinity. The porter of the sleeper, who in the performance of his duty was one of the first on the platform, received an egg in the eye, and retired with more haste than grace. A lady who was anxious to see what was doing had some little trouble in getting the contents of an egg-shell out of her hair, and there were numerous other casualties of a less serious nature. The train pulled out amidst the jeers and groans of the crowd. After it had left the police arrested an Englishman named Reid, who, it was alleged, was the leader of the crowd.

"Oh, yes, there was a small demonstration of hostility towards myself at Regina as I passed through, but I was not hit by any rotten eggs," said Rev. Mr. Barr, when interviewed concerning the despatches which related to the alleged action of some of the English colonists whom he brought out last spring. "It was the work of a few thoughtless and irresponsible boys, who came out on the Manitoba with our party," he continued, "and who thought they had a grievance because they could not get work at Saskatoon. They created some disturbance, but it did not amount to anything, and I do not cherish any ill-will towards any of them." Mr. Barr says reports of dissatisfaction among the colonies have been greatly exaggerated. "Again, I wish to say that I think the colonists will be a success. With regard to my direction of it personally, time will tell. Of course we're all liable to errors and mistakes, but I have not made a penny out of the whole affair, and never intended or tried to."—Toronto Globe.

The Torturing Backache of Kidney Disease.

Causes Untold Misery and Drives the Poor Sufferer to Distraction—No Case that Can't be Cured by Ferrozone.

The duties of the kidneys are among the most important that devolve upon any organ of the human body. If for any reason they get out of order, it results in the system becoming poisoned by unhealthy matter that is bound to cause serious illness. This explains the large number of deaths from neglected kidney trouble.

It is quite possible that you may have faulty kidneys, and not be aware of the fact. Among the most common symptoms are pain in the back and sides, morning headache, nervousness, sediment in the urine, specks before the eyes, dizziness and sour stomach. If you have any of these, hasten at once to take the surest of kidney and liver cures, Ferrozone. It is guaranteed to bring prompt relief and banish every pain and ache.

Thousands are kept in perfect health and free from kidney complaints by Ferrozone. Among those who speak in the most laudatory terms of the merit of Ferrozone is Mr. Chas. F. Olive, of the Gazette, St. John, N. B.: "For several years I have had kidney trouble," says Mr. Olive, "until quite recently I suffered torture. A few months ago my condition assumed a very serious form. I consulted several city doctors, used a well-known pill, but without the slightest benefit. I suffered from an intense pain in my groin, and the increasing seriousness of my trouble prompted me to try Ferrozone. It gave me quick relief, and half a-dozen boxes cured. Ferrozone I can recommend as a specific for disordered kidneys."—Chas. F. Olive.

Ferrozone not only cures kidney complaint but also such maladies as Rheumatism, Gout, Sciatica, Skin Eruptions, Diabetes, Lassitude and Nervousness, which are caused by defective kidneys. It neutralizes and destroys all poisons in the system, cleanses the blood, and invigorates the enfeebled energies. It is mild, gentle and certain. Costs 50c. per box, or six boxes for $2 50. At druggists everywhere.

FERROZONE ASSURES HEALTH.

WARMUNDE, EXPERIENCED WATCHMAKER
Fallen Corner Chatham N. B.

Yacht for Sale.

The Sloop "Winogene" 6.83 tons register, 38 feet overall, ten feet 2 inches (10-2) beam, draft 2 feet 6 inches, without board, over two tons outside ballast, (none inside) iron, planked with pine, oak timbers, berths for four people, a comfortable cruiser. She is the fastest boat of her size in the Club, often beating the larger boats such as the "Canada." She has won and now owns the "Willis Cup" also holds the "McLellan Cup," winning these Cups from the races "Wabbewawa." She has a full outfit of sails. She could not be built for double the money asked for her, $350 cash, in Saint John. The owner sells for no fault, but has not time to use her. Any officer or member of the club could inform any intending purchaser as to her condition and abilities. She can outpoint, and work quicker than any boat in the S. K. Y. C fleet, and is one of the stiffest boats here.

Any further information will be furnished by her wner, or any officer of the S. K. Y. Club.
