

contemplation of "other days" brings a thrill of satisfaction to those who call of Alma Mater. When we humbly besting of the past, when we consider the well fought struggle of its youth, it is indeed gratifying to students, past and present, of this to view this seat of learning in the strength and vigor of its youth. Taking its inception in the hands of the ablest educational this country has ever seen; and cared for by tender able hearts and able minds; a curriculum calculated to and perfect the noblest imbody, mind and soul, I deny, and as an humble graduate school, say so with a pardonable pride, that the Canada about to take a come make no mistake in coming. The young man entering an entertains a fixed idea of to the end, and sees the misdeeds of years the happy this school will place her in on his brow, even at the impression on his young idea: "What shall I do to

the fundamental principles is to renounce, in a certain, one's self, and to show occasions that respect for which is strictly in keeping the eternal fitness of the sun, moon, and stars are governed in their course laws; the different seasons go; the flowers bloom and under the influence of an omniscient hand, in all great undertakings the little details arranged that they may lead consummation of the desired so it is in institutions of there are laws framed to student in his college days, reaches the final goal of success. Laws are framed not to obstruct to advance, not to cross take as pleasant as possible here, for we have all lived and fully understand that study is a "weariness of the leaves habits of resolute and application—that faithful to the subject matter, under that has on all occasions demonstrated itself to open sesame to all great and of body, mind or soul, reading, history will tell you that discoveries of scientific and, of basic principles, and will often attribute of these wonderful results of genius let in upon the. We hear often about the flash but not so often about the consistent burning of the mid that has preceded this great effort—not so often about of application and work, our glass shifts the tranquil

unvaried silence of the school. safe conclusion, think, for of this school, and for us live at, that in ninety-nine of every one hundred, years hard work, be practical, practical deductions from all that are advanced here, present and future welfare, of the artisan are useless knowledge of property, and in possession of the the man well versed in the of Blackstone can never obtain evidence as a lawyer, knows how to apply those to cases in practice; the may be well versed in all of his art, but he can be to be a success unless he then, where and how to answer to his command, and in may be as full of doctrine, but it will avail nothing if not others, unless he has knowledge in a practical to advance the practical work, and it has been truly said: "Knowledge that a man can be true, practical knowledge, changes like dust about the of his like rain drops off the

servant and pay strict attention to the details of all your work. Lay each incidental building of the arch care in its position, and as the keystone will fit right, observation and attention to make up the warp and experience, that knowledge from our failures and successes, for our time, and in the year to come to that activity guided by judgment that always leads to

attending to methods where and may be and with the of the outgrowth of the is not to be despised as the rugged alpine way that success. Be true to your and your foot, balance your engaged in their sports playgrounds at Eton, exclaim: "There was the battle of Waterloo," so, methinks, even honors and the great achievement of life are as much as through the medium of the to the constant glare of the lamp. There are more Waterloo in this time very seriously, the question: "What shall I do to be saved?" Now, indeed, life is earnest, life is real. Now he fully understands that his fortune is, in himself, not in his star. He looks around for a place to settle in, to offer to a critical public the fruits of the education he has received. He views the overcrowded condition of the professions here, and makes up his mind to go to a certain place, enter a protest and remind you that "The powers of man have not been exhausted. Nothing has been done by him that effort or better done. There is no effort of art or science that may not be exceeded, no depth of philosophy that cannot be deeper sound-

ed, no flight of imagination that may not be passed by strong and soaring wing." Considering the good, hardy physique of the Canadian race; knowing that the Canadian possesses as deep a layer of grey matter to the square inch of brain surface as any race on Heaven today, I would say to the young man educated in schools like this: "Stay home! We want you here! There is room for you all in Canada." When we consider the resources and capabilities of our dominion; her thickly wooded forests and her vast prairies; her fisheries and her lumbering interests; her commercial advantages and her rapid strides in education and culture; we can, certainly, each and every one of us, look upon our young country with pride in her present and hope in her future. Methinks the best gauge of the general advancement of any country is the general proficiency of her educational departments. At the British Association of Sciences, held in Montreal a few years ago, no less a personage than Sir Lawson Tait stated that after a short time instead of the Canadian youth going across the water to get the final polish, the youth of the other side would be coming over here to put on the last veneering of the solid oak.

May your joyous songs still continue to be heard around your college home; make your annual dinner as to flood your memories in the future with the sweetest reminiscences, and I would desire to submit a proposition for the consideration of the undergraduates of this school, viz., the advisability of having established maritime intercollegiate sports, that would excite friendly competition and add another annual gala day to your college year.

To leave the student now, even in the condition of "Mens Sana, in Corpore Sano," and to expect him to undertake the little details arranged that they may lead consummation of the desired so it is in institutions of there are laws framed to student in his college days, reaches the final goal of success. Laws are framed not to obstruct to advance, not to cross take as pleasant as possible here, for we have all lived and fully understand that study is a "weariness of the leaves habits of resolute and application—that faithful to the subject matter, under that has on all occasions demonstrated itself to open sesame to all great and of body, mind or soul, reading, history will tell you that discoveries of scientific and, of basic principles, and will often attribute of these wonderful results of genius let in upon the. PROVINCIAL NEWS.

CARLETON CO.

Benton, June 10.—Miss Robertson, a returned missionary from Japan, spoke to a fair sized audience at the Methodist church on Tuesday evening. A very pretty wedding took place on Wednesday evening at the Kirk, Oak Mountain, when Miss Ruth Louise Clapham, second daughter of Stephen Clapham of this place, was united in marriage to Burton J. Keer of Debec. The church was prettily decorated and decorated with flowers for the occasion. The ceremony was performed by Rev. Thomas Corbett, pastor of the church. The bride was becomingly attired in cream crepon with hat to match, and carried a bouquet of white flowers. She was attended by her cousin, Miss Nellie Blackie. The groom was supported by his brother. After the ceremony they repaired to the residence of the bride's father, where a sumptuous repast was served, and later in company with number of their friends, they drove to Debec, where for the present they will reside. The bride's presents were numerous and beautiful.

A local branch of the W. C. T. U., which has been dormant for the past year, has reopened with the following officers: Mrs. Wm. Murchie, pres.; Mrs. Wm. Speer, V. P.; Mrs. George Murray, T.; Mrs. Charles A. Lewis, Cl. S. Under the auspices of this society a silver medal contest will be held on the evening of the 21st. George Murray has beautified the grounds around his new residence by setting out a fine lot of shrubbery as well as enclosing it by a pretty and substantial fence. Michael McGinn's house is much improved with a new coat of drab paint.

Harvey Dow has lately purchased a house situated near the Kirk, Oak Mountain. He has enlarged it by a new ell and is now conveniently settled in his new home. Judson Calman is suffering from a felon on his hand. Dr. Saunders of Woodstock performed an operation on it on Monday.

Dr. Howard, who has resided near here for several years and won many friends as well as the reputation of a skillful physician, has gone to New York for a post graduate course and intends henceforth to practice in Freeport, Me. He is succeeded by Dr. A. Sterling of Fredericton.

While Murchland is suffering from chills and fever, his right arm. Dr. Sterling has the case in charge. The union Sabbath school has a new library of over one hundred bound volumes. Farming operations are still carried on slowly on account of the land being wet. Very few farmers have their crops all in.

Bristol, June 12.—The Carleton county council meets at Woodstock on Tuesday next, when it is expected that the petition of the residents of Peel for changing the northern boundary of Peel be accepted by the council, and that the legislature be requested to pass an act establishing the new boundary. A lively discussion is expected to take place on the question, as Councilor Corbett is armed with a large counter petition.

Rev. J. E. Friesing will preach a sermon on the "Fruit of the Tree of Life" in the village on the 20th inst.

Woodstock, N. S., June 17.—Miss Blanche Thompson, daughter of Daniel Thompson, met with a very serious accident last evening while riding on her bicycle. She was riding with a friend on the road below town. At the lot of the Parish Church hill she lost control of her wheel and ran into a steep embankment, falling some fifteen feet and striking on her head on a rock. She was badly cut about the head, and on being driven to town, Dr. Rankin was called in and found it necessary to put eight stitches in the wound. Miss Thompson is resting easily tonight, and it is hoped her injuries are not dangerous. Besides the cut she received a great shock.

SUNBURY CO. Sheffield, June 9.—On account of the wet and rainy season the farmers in Sheffield proper are so backward in farming that they have not got through with their gardening yet. Indeed, some have not begun. Hay is very scarce in Sheffield just now, and some of the farmers have turned their young stock into their moving round.

The Lampedo is loading pressed hay now at P. Taylor's fine hay farm for the St. John market.

Abram Chase, the wealthy bachelor who was seized with death while plowing in his field a few weeks ago, tealeathed in the neighborhood of twenty thousand dollars to one of his nephews' family. The lady is a widow.

Miss Lydia Bailey of Newcastle is visiting friends in Sheffield. Manguerville, June 10.—A "mixed" social was held at Sewell's place on Saturday night. Miss Mary Harrison had charge of the musical part of the programme. Twenty-eight dollars was realized for Baptist church purposes.

When Emory Sewell, P. M., heard that the dredge New Dominion was towed to Jemseg he started his dog Eva Johnson with all possible despatch for the scene of operations. In her flight thither she was run over by a clew and a flange of the propeller was knocked off. But on she went like a hog to war. Arriving there without further mishap they hooked on to the first scow load of Mud and towed it out. Then the tug Winnie, which was clew at hand, slipped into her place, and the captain of the dredge was informed that the Winnie would henceforth do duty for them. Mr. Tarte caused Mr. Sewell to take his departure. The "Sable Bird" with the condition Mr. Mulock, P. M. C. gave him. The Eva Johnson came back to work on the shore, and Postmaster Sewell now has more time to attend to the affairs of the office.

Mrs. W. D. Farley of Wolsey, Assn., is staying with Mrs. Treadwell for a few days and calling upon her many friends here. She will return to Ottawa in time to be accompanied home by the senator at the end of the session.

A blade of grass 46 inches in length was plucked on William Magee's farm on Sunday last.

900 DROPS

CASORIA

Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

INFANTS & CHILDREN

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

Fac-Simile Signature of

Chas. H. Hitchin

NEW YORK.

16 months old

35 Doses—35 CENTS

EXACT COPY OF WRAPPER.

SEE THAT THE FAC-SIMILE SIGNATURE OF EVERY BOTTLE OF CASORIA

IS ON THE WRAPPER

OF EVERY BOTTLE OF CASORIA

CASORIA is put up in one-size bottles only. It is not sold in bulk. Don't allow anyone to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose." If you get 0-4-8-T-O-B-I-A.

Fac-Simile Signature of

Chas. H. Hitchin

is on every wrapper.

Dudley Perley has a turkey hen that hatched a wild duck with a brood of turkeys. The duck is doing well. C. B. Harrison, M. P. F., is driving about in a much better than he has been in some time. Four hundred and forty-six joints were raffled at the Mitchell boom on Tuesday, which breaks any previous record. They have raffled 1,664 in four days this week, and expect to make over 2,400 this week. The musquito crop is unusually large this year.

NORTHUMBERLAND CO. Chatham, N. B., June 17.—Edward Sinclair is circulating a petition for the pardon of Thomas Creamer, who is serving a six months' sentence in jail for vagrancy. Creamer is the only occupant of the Northumberland county jail, and one of the reasons given in the petition for his release is that it is desirable to celebrate the jubilee with an empty jail. The Norwegian bark Vikings arrived at Chatham Tuesday. She was just sixteen days on the voyage.

WESTMORLAND CO. Daniel Mahoney of Melrose, parish of Botsford, in this county, died on Sunday at the advanced age of 97, and was buried yesterday. The deceased, who was one of the members of the local, was an uncle of County Councillor P. S. Mahoney and the last of five brothers, all of whom reached a very old age. Scott's receipts in Moncton from the 1st of June last amounted to \$1,418.61 and expenses \$71.56, leaving a surplus of \$647.

This is the close season for oysters, and a Moncton restaurant man who had paid \$4 for a barrel of Eucouche was enabled to buy them in again yesterday for \$3. The fishery inspector who made the seizure having taken the bivalves to an auctioneer to be sold for the benefit of the department. Oysters at \$7 a barrel are rather an expensive luxury.

The M. A. A. will have a local field day on July 1st. A special prize, probably a silver cup, will be offered to the member making the largest aggregate in the different sports. Knock will consist of 100 yards, 400 yards, one mile run, broad jump, high jump and putting shot.

ABERDEEN MILLS Brilliant With Electric Lights—Visited With Our Reporter. Several days ago we made mention of the fact that an electric light plant was being installed at the Aberdeen lumber mill for lighting the mill for night work. On Saturday a Gleaner reporter was privileged to visit the mill and inspect the lighting plant, in company with P. E. Norton and P. B. Vaughan, representatives of the Norton electric works, who have put in the plant. The mill was as light as day, there being upwards of one hundred lamps of 16 and 32 c. p. The yard, wharves, offices and houses are also lighted up and work goes on all night just the same as during the day. The lighting machinery is run by an ideal engine, which is so perfect in its action that at a recent test at the machine shop it ran 700 consecutive hours without any attention whatever.

The Messrs. Fraser are well satisfied with their investment, which makes it possible for their mill to almost double its former capacity. Mr. Norton and Mr. Vaughan were guests at the Queen while in the city, and left for St. John this afternoon. Monday's Fredericton Gleaner.

Base—Was that baby talk your wife was talking as I came in? Fogg—That was mother talk. No baby I ever saw indulged in such gibberish.

AQUATIC. London, June 17.—The Canadian oarsmen (Winnipeg crew) who compete at the Henley regatta on July 14 and the following days have arrived at Henley, and had a short spin on the river this afternoon.

Coleman's Salt

NEQUALLED FOR QUALITY

CANADA SALT ASSOCIATION, CLINTON, ONT.

SUSSEX NEWS. Sussex, June 16.—A piano and organ recital by pupils of Miss Bertha Levy, Woodton was held in the Masonic hall on Monday evening last. The room was densely packed by parents and friends of twenty-four pupils, who by their applause were evidently well pleased with the instruction the young folks had received, and Miss Wordon, who possesses fine musical talents, must have felt proud of the many flattering words of praise she received. During the evening Miss Mary White gave a vocal solo and was, as her singing always is, very pleasing.

The staging in front of the new brick building being put up for Geo. H. White on Church avenue, on which Thomas Heffer, junior, and Heber Campbell, masons, were working, gave way this morning. Heffer and Campbell falling a distance of about fifteen feet. The latter was knocked unconscious, the former being badly shook up. They are now able to sit up and doing as well as could be expected. Dr. Wiley H. White rendered all the aid he possibly could.

Joseph Campbell removed his portable saw mill from Newtown, where it had done such excellent work during the past winter, to Perry's point yesterday, where it will cut large quantities of logs owned by Geo. H. White of Sussex.

Dr. W. H. White, who had been taking an extra course in the study of dentistry in Chicago, returned home yesterday afternoon.

Mr. A. Charters returned from Ottawa yesterday, where he had been attending to railway matters. While at Ottawa he visited the house of commons and was present at several important debates, and speaks of the New Brunswick members as being able to hold their own in debate.

ATHLETIC. The Englishman Wins the Foot Race. Boston, June 17.—The international foot race, 1 mile, purse \$250, between George B. Tinkler of England and Patrick Carroll of Waltham at Apollo Garden this afternoon was an easy victory for the Englishman. Carroll made the pace for the first three-quarters of a lap, then Tinkler passed him, and was never headed thereafter. Carroll seemed to lose heart, and on the eighth lap, of the 10 lap race, dropped out of the race. Tinkler winning in 4:52.

THE WHEEL. Cambridge, Mass., June 17.—Jimmy Michael, the Welsh wonder, beat "Ed die" McDuffie in the Charles River park track this afternoon in the best fifteen mile bicycle race ever run in America, and at the same time established a new fifteen mile record of 49 minutes 15 seconds. The race was for \$50 a side.

THE RING. New York, June 17.—Spike Sullivan of Boston is anxious to bring about a match between his brother Dave and Jimmy Barry of Chicago, to decide who is the 115 pound champion of America. Spike today placed \$1,000 in the hands of "Al" Smith to bind a contract between the two lads.

Baltimore, Md., June 17.—The twelve round "go" between middleweights Nick Burley of California and Jimmy Ryan of Australia was decided a draw upon an agreement made in the ring by the contestants that if both were standing at the end of the 12th round neither should get the decision. Burley was easily the best man and had Ryan going several times. Thelater's generalship, however, saved a knockout.

San Francisco, June 17.—The Anthony-Lawlor fight was declared a draw in the tenth round. In the Elmer-Ryan fight, Elmer won in the second round.

in Good Situations.

As ago we published the names of TWENTY-SIX of our students who have recently obtained good situations, we have added four to the public for the above appreciation, and will merit the continued confidence of the public.
