ARREST OF MR. SETON-THOMPSON.

He Tells of His Experience With Game Wardens in the West.

(New York Sun.) Ernest Seton-Thompson, the well-known writer of animal books, who was arrested in Colorado on Oct. 1, has returned to this city, and yesterday told a Sun reporter the facts of his trouble in the west. "I was out there," he said, "with John B. Goff, the hunter, who has always been the guide to President Roosevelt on his visits to that region. I was there to photograph the animals and had no guns. It happened that a party of friends of mine were camping at a distance of about four miles, and one day we decided to go over to visit them. My wife was ill and stayed behind in camp, but Goff and I set out to make the trip. He went along to show me the way by some short-cut to the other camp. "Just after I got to Colorado, Goff took out his lion hounds—the famous six that hunted with President Roosevelt—as they had been tied up during the summer and got fat. He proposed that day to take them with us on the walk across the mountains, and I was perfectly willing. They will not chase deer, and are trained only to hunt lions. Goff saw one of them tracking a deer he would shoot him. "On the way to the camp two of the dogs started after a bob-cat, a species of lynx. But the day was warm and

BACK TO CHINATOWN.

Lee Choup Returns to China to Two Wives and Takes One With Him—Also Takes a Fortune.

NEW YORK, Oct. 22.—Lee Choup, perhaps the wealthiest man in New York's Chinatown, is going back to China, to live out his old age in the luxury which can be purchased with the fortune he has amassed in this city, says the Tribune. He will leave next Monday for Canton with his wife and three children, born in this city. In China he has two other wives, whom he has not seen for five years. His mother, now eighty-four years old, is in poor health, and Lee wants to see her before she dies. The fortune which Lee Choup is taking back to China is variously estimated at from \$125,000 to \$150,000. He got his start in Canada, where the Canadian Pacific railway was being built, by carrying out some heavy contracts. Then he went to Portland, Oregon, and opened a small store. A number of years ago he came to New York and founded a Chinese trading firm, which has become one of the largest in the Chinese quarter, and has branches in Boston. He is sixty years old and, while his health is good, he is afraid of dying in a foreign land, and will not come back if he can help it.

CONTROVERSY INTERESTED KING.

NEW YORK, Oct. 22.—According to the Tribune the king has taken great interest in the controversy about the Lady Smith holocaust, which has been carried on without intermission since Sir Redvers made his unfortunate speech a fortnight ago. Mr. Brodric was summoned to Balmoral to give his masterly view of the affair, and the return of the count to London was marked by the official announcement that Sir Redvers had been relieved of the command of the first army corps.

A NEW TORPEDO.

SAN FRANCISCO, Oct. 22.—A model of a torpedo designed for use in a bay has been given a trial in the bay by the inventor, John F. Perkins, late of New Zealand. The trial was apparently satisfactory. The torpedo is intended for use as a submarine boat, as well as a conveyor of deadly explosive material. The inventor claims that it can be steered in any direction.

WILL SELL SHANROCK II.

NEW YORK, Oct. 22.—According to the Herald, Sir Thomas Lipton has determined to sell the Shanrock II, and she is on the American market. Before Sir Thomas left New York for Chicago the beaten challenger was placed in the hands of yacht brokers of this city, with orders to sell her. The price is not known.

A SPLENDID FOSSIL.

LARMEE, Wyo., Oct. 22.—Prof. C. W. Gilmore, in the employ of the Carnegie museum of Pittsburgh, has discovered near Medicine Bow, 30 miles west of this place, the almost complete fossil remains of an immense brontosaurus, a very rare specimen and one of the largest ever found in the southern Wyoming field. The remains will be unearthed and sent to Pittsburgh.

WAS INEVITABLE.

LONDON, Oct. 22.—The afternoon papers today agree that the dismissal of General Buller from the command of the first army corps and placing him on half pay was inevitable. It appears that the general was officially notified of the decision late yesterday evening, the notification being delivered at his official residence at Alderhot by a special messenger from the war office at about the same time that it was issued to the newspapers. This morning army orders at Alderhot announced that General Buller has already given up his command.

GOLDWIN SMITH BETTER.

TORONTO, Oct. 22.—Goldwin Smith, who was taken ill last week at Ithaca, N. Y., while on his way to Yale, returned home last night. The venerable professor was somewhat fatigued after his journey, but otherwise he was feeling very well.

OVERDOSE OF STRYCHNINE.

TORONTO, Oct. 22.—Police Inspector Armstrong died early this morning from the effects of an overdose of strychnine which it appears he has been in the habit of taking to make himself sleep. Inspector Armstrong was fifty-eight years of age and one of the oldest members of the city police force.

ANXIOUS TO RETIRE.

TORONTO, Oct. 22.—Hon. Wm. Harry, M. P., of Kingston, ex-commissioner of public works and minister without portfolio in the Ontario cabinet, is anxious to retire from political life and has announced that he will not seek re-election. His health and private business are Mr. Harry's reasons for retirement.

THE PROSPECT GOOD.

SAULT STE. MARIE, Oct. 22.—Sir Christopher Furness has concluded his visit here and left with his party for Chicago. Sir Christopher expressed himself as certain that, in view of the enormous tonnage required for the great lakes, a shipbuilding yard and engine works, with all modern machinery and appliances, would not be long in following in the train of other works already established here.

ANOTHER COMBINE.

NEW YORK, Oct. 22.—The projected amalgamation of the interests of the largest iron and steel manufacturers in the United Kingdom, this so far escaped observation, says the Tribune's London correspondent. The formation of the United States steel corporation was signal of similar concentration of capital in Europe. The German iron masters and steel manufacturers, under the leadership of the Krupp, have been endeavoring to organize an industrial combination, and the Belgian mine owners and iron and steel manufacturers have been moving in the same direction. The interests of both these countries are centered in a few hands, and these combinations, while not yet effected, are easy in comparison with the amalgamation of British iron and steel manufacturers, whose interests here are of tremendous magnitude and inertia. Protracted negotiations have been required, but a combination is being arranged by a group of the largest iron and steel manufacturers of the north and south, with the help of an American organizer. This combination will control the manufacture of rails in the United Kingdom and will have a cash capital of £20,000,000, and when another group of large manufacturers of iron and steel, with whom negotiations are now in progress, is drawn in, the capital will be increased to £40,000,000. The enterprise is exclusively English, and is not connected in any way with the United States steel corporation. It is not organized in hostility to the American combination in the same industry, but as a necessary measure of mutual protection and self defence for the immense masses of English capital invested in iron and steel manufacture. The concentration of capital in the iron and steel trade will open the way for similar movements among English miners, shipping lines and textile trades, and even railways, which are now operating against one another.

TRANSPORT DISABLED.

WASHINGTON, Oct. 22.—Word was received today that the transport Sheridan had arrived at Nagasaki in a disabled condition and would not be ready to leave that port for three weeks. The Sheridan was on her way from Manila to San Francisco. She carried about 300 troops, 1000 soldiers, 230 sick soldiers and 19 insane soldiers. No details were received as to the trouble with the Sheridan. The transport Warren has been sent from Manila to Nagasaki to receive the sick passengers from the disabled transport. YOKOHAMA, Oct. 22.—The accident which caused the United States transport Sheridan from Manila for San Francisco, with over 1,000 troops on board, to be put into Nagasaki, is not of a serious nature. Her hull has been damaged and she will be docked for repairs.

WILL BE NO WAR.

LONDON, Oct. 22.—"On the authority of Count Lamsdorf I am able to declare," says the St. Petersburg correspondent of the Daily Telegraph, "that the relations between Russia and Japan are quite amicable and that the rumors of a likelihood of war are quite unfounded. Certainly the Korean question will not cause a rupture, because Russia and Japan recently arrived at an agreement which makes Korea a sort of buffer state, both agreeing to respect her territorial integrity."

THE MACHINE EXPLODED.

LOUISVILLE, N. Y., Oct. 22.—During a performance at the Masonic temple here this afternoon the polygraph used in showing pictures between acts exploded. A stampede followed, in which twenty or twenty-five persons were injured. Five are in a serious condition.

A HEAVY CUSTOMER.

CALL TO PREACH.

The story is told of a colored man in Alabama, who one hot day in July, while he was at work in a cotton-field, suddenly stopped, and looking toward the sky, said: "O Lawd, de cotton am so grassy, de work am so hard, and de sun am so hot, dat I believe de darky am called to preach!" From Booker T. Washington's "Up from Slavery."

HE HAD FISH.

Snappy—So you're thinking of going in for politics? Snappy—Yes, but the thing that worries me is that I'll have to mingle with such common people. It's pretty hard for one to know just how to treat his inferiors. Snappy—Oh, but you won't meet many of them.—Philadelphia Press.
