AROUND THE CITY

Woman Drunk.
A woman was locked up yesterday for being drunk on Brussels street.

Liquor Case.
In the police court yesterday afternoon H. J. Dever was charged with supplying liquor to and allowing an intoxicated person in his saloon on Union street. The charge was made by Policeman Dykeman who gave evidence and the case was adjourned until this afternoon at two o'clock.

Patrol Boat Here.
The government patrol boat Phelerope, Captain Mitchell, arrived in port last evening from Campobello. At present the Phelerope is engaged in transferring young salmon from the hatchery at Little River to points along the bay coast. Recently one hundred thousand small salmon were taken to Salmon River and a hundred thousand to Little Salmon River. The Phelerope is a new boat and was built last fall. She is well adapted for the work in which she is engaged. Her engineer is Henry Calder of Campobello and the craft is fitted with a six cylinder engine.

Preparing For Muster.
The members of the St. John fire department who intend going to Halifax in August for the mammoth muster of the firemen are to meet in No. one ladder station on Monday evening to make arrangements. Chief Blake will preside at the meeting and from the present indications a large number of hosemen and laddersmen, as well as members of Nos. one and two salvage corps will attend. The Halifax department have been busy for a long time working up the firemen's muster which is to be held during the first week in August, and they intend spending thousands of dollars in giving the visiting fire ladders one of the best times in their lives.

BAPTISTS CLOSE ANNUAL MEETING WITH ADDRESSES

Brown's Flats, June 17.—The annual conference of Sixth District United Baptist churches, closed its sessions today after one of the most successful meetings in the history of this district. At the morning session Rev. Wainston Camp was heard in reports concerning the district. He referred to the death of Rev. Dr. McLeod and Josiah Goodwin. He spoke in glowing terms of the services Dr. McLeod had given the denomination. The ministers who have joined churches in the district since the last meeting were welcomed. Thirty-six churches in the district reported.

The meeting of the Women's Missionary Aid Societies was held during the afternoon when addresses were delivered by Mrs. W. E. Dunlop and Mrs. J. H. Macdonald. The difficulties of Women's Missionary Societies and how to meet these difficulties was the theme of Mrs. Macdonald's address and her words were given close attention. Rev. H. Y. Corey, a returned missionary, spoke of conditions in India. Mrs. George Kelstead also spoke of the lives of the little girls of India. Mrs. Scott was re-elected president of the Missionary Society.

At the evening session addresses were delivered by Rev. T. C. Wilson and his talk on the need of young men in the ministry attracted great attention. Michael Kelley was heard in a fine temperance address. Dr. Heine of the Bible Society, told of his work throughout the winter. The meeting place for next year will be decided later.

PERSONAL

His Honor Mr. Justice Grimmer, whose health has not been good for some time, left last evening for Boston to undergo treatment.

COMING TO ST. JOHN.

Mr. J. A. Martin, Eastern Superintendent for the Otis-Penson Elevator Co., of Toronto, has been placed in charge of the Halifax branch, with offices at 146 Hollis street.

Mr. Martin has informed The Standard that he has arranged to visit St. John as often as may be necessary, in order to keep in touch with the owners of buildings in which Otis-Penson Elevators have been installed. For a nominal charge the elevators will be cheerfully inspected and kept in prime working condition, and when repairs may be necessary the complete stock of repair parts at the Halifax branch will be drawn upon, thus obviating all chance of delay or inconvenience. Mr. Martin is also prepared to furnish plans and estimates for new elevator installations promptly upon request.

TRYING EXPERIENCE OF COAST FISHERMEN

Boats from Chance Harbor, Dipper Harbor and Gooseberry Cove, out Forty-eight Hours in Bay of Fundy.

The fishermen from Chance Harbor and Dipper Harbor, who were reported to have been missing from their homes since Tuesday were located yesterday and all were said to have suffered no ill from their prolonged exposure to the winds and rain. One boat from Dipper Harbor manned by Wilnot Clark and Hanford Belmore was out all Tuesday night but they were picked up by another motor boat yesterday afternoon. Their engine had gone bad and they were at the mercy of the wind and sea during the night and yesterday. As soon as they landed they repaired their engine, and went out again for salmon last night. George Tiner and Hanford Evans were in another boat that was out from Chance Harbor while David McAdam and his son, Thomas McAdam were in a boat that set out from Gooseberry Cove. Both these boats were said to have been driven by the wind to the vicinity of the Wolves, where they took shelter. Reports from Chance Harbor last night said that the boats had returned and gone to their nets again. Some anxiety was felt in the city on account of the reported absence of Mesgra, McAdam from their fishing grounds. These men were residents of West St. John and had gone to Gooseberry Cove some time ago to engage in the fishing of salmon. News of their safety was received with a feeling of relief by their friends. During yesterday afternoon the government steamer Aberdeen was sent out by John C. Chesley, agent for the Marine and Fisheries Department, and the Canadian Medical Association men had been picked up by another motor boat.

PINKERTONS SEARCH FOR MISSING COIN

No trace, yesterday, of \$2,500 which vanished from mail bag between St. Stephen and McAdam.

A. C. Skelton, local manager of the Bank of British North America, in conversation with The Standard last evening confirmed the report previously published to the effect that a sum of money in the vicinity of \$2,500 which was sent in the mails from Saint Stephen to the Bank of British North America here, had mysteriously disappeared and that up to the present time all the efforts of the bank to trace the money had proven futile. He said that the matter was in the hands of the Pinkerton Detective Agency now and that they had men in the field working to clear up the mystery. Other than that the money has disappeared and is not in the possession of the bank, the local authorities have no information and Mr. Skelton said last evening he would know no more. The money was sent in registered mail from Saint Stephen to Saint John. The clerks at Saint Stephen stoutly declare that the money was placed in the mail bag and the clerks at McAdam assert that when the mail bag was opened at that place there was no money in it. The case is a rather difficult one to solve but it is expected that within a comparatively short time certain facts will be traced that will enable the detectives to clear up the mystery.

WELL KNOWN MEDICAL MEN WILL SPEAK

Canadian Medical Association to meet here from July 7th to 10th—In the Armories.

By medical men of the city, university students and the general public, much interest is manifested in the coming congress of the Canadian Medical Association which will be held in St. John from the seventh to the tenth of July. During the four days there will be gathered in the city over three hundred of the most learned and experienced medical men of Canada and the United States, including also prominent professors of the leading universities. At the present time Dr. Murray MacLaren of this city, is president of the Canadian Medical Association, but never for eighteen years back has the association, which convenes yearly, met in St. John. To accommodate the large number that will be present in the St. John Armory has been secured and in this building the lectures, papers and discussions will be heard. Different sections of the army will be given up to medical, x-ray, surgery, etc. and the time for each is so arranged that all those who desire to hear the papers and take part in the discussion. Among the medical men who will be in the city for the convention are Dr. H. Jellett, F.R.C.P.I., Master Routunda Hospital, Dublin; Dr. Max Elshorn, New York; Dr. Thomas McCrea, professor of medicine at Jefferson Medical College, Philadelphia; Dr. J. Rutherford Morrison, professor of surgery at Durham University, England; Dr. C. A. Hodgkiss, medical advisor committee of conservation, Ottawa. The convention will be opened on July 7th with the presidential address by Dr. Murray MacLaren. Then sessions will continue until the tenth with addresses, discussions and interesting papers. On Thursday evening a public meeting and a comprehensive and profitable address from a public standpoint will be delivered at that occasion. Dr. Thomas McCrea, of Philadelphia, will lecture on medical science; Dr. J. Rutherford Morrison, of Durham, England, will address the medical men on surgery; Dr. H. Jellett, F.R.C.P.I., of Dublin, has been selected to lecture on obstetrics and Dr. C. A. Hodgkiss of the medical advisory committee, Ottawa, will speak on "The Health Problem of Canada."

THE SEAPORT MISSION REPORTS GOOD WORK

Enters on third year entirely free of debt—Many Sailors in attendance at rooms.

The Seaport Mission which was inaugurated in March, 1912, largely through the efforts of H. G. Currie, will hold its second annual meeting on Monday night at the Mission, Walker's Wharf, and a report was presented of the work accomplished during the past year. By means of voluntary contributions and the service offerings all expenses have been met, and the mission starts on its third year entirely free of debt. The affairs of the mission have been very carefully managed and all work has been voluntary. The rooms, which present a home-like appearance, are well supplied with reading matter, and have been open both day and night under the care of J. H. Scott, who lives in the building. Services have been conducted every Sunday, addressed by Z. Wilson, and the total attendance, as shown by a careful record, amounted to nearly thirteen hundred. Some six hundred and fifty visits were made on vessels and 335 Testaments were distributed to members of the crew. The election of officers were deferred owing to the probability that Mr. Currie will be absent from the city and unable to serve as president for the coming year.

FISHERY INSPECTORS ATTEND CONFERENCE

J. F. Calder, Fishery Inspector for St. John and Charlotte counties, was in the city yesterday on his way to Moncton to attend a conference of the district inspectors of the Maritime Province. Wm. Fond of Ottawa, general superintendent of fisheries will be present at the conference. Speaking of the fishing industry in his district, Mr. Calder said the fishermen were doing fairly well this spring. Sardines were plentiful, but high prices were being paid for any that were caught. The lobster catch during the past season was up to the average.

THE EVANGELISTIC CAMPAIGN WOUND UP

The evangelistic campaign, which was conducted in the city by Rev. Dr. Burrows has closed and the winding up of the business in connection with it was completed yesterday. It was said last night that the total expense of the campaign was \$1,010 and added to this was a free will offering of \$216, which was for Dr. Burrows himself. He also received the collections on Monday and Tuesday which brought the sum up to \$250. Dr. Burrows was allowed \$12 a week for his board. Mr. Van Horne received \$25 a week and was allowed \$5 a week for board. George Knight also received \$25 a week. Mr. Blythe, who guaranteed the fund, was paid \$12 a week for his services. In all \$500 was guaranteed but only 50 p. c. of this was required to complete the payment of bills. The committee secured a reduction in bills to the extent of about \$50. After all the collections were taken it was found that there was about \$250 short and John Bullock and Mr. McCavour each donated \$100 and other smaller amounts were received.

Band concert at Seaside Park to night. PARK HOTEL, KING SQUARE. THE PRINCE WILLIAM HOTEL.

ARRANGING PROGRAMME OF INTEREST

Board of Trade making preparations for visit of Dominion's Royal Commission.

The Board of Trade is making preparations for the reception of the Dominion's Royal Commission, which will be in St. John from August 11 to August 15, for the purpose of collecting information about the province, its natural resources, business opportunities, etc. Secretary Armstrong had an interview with Hon. George J. Clarke, the acting premier, yesterday and Mr. Clarke stated that the provincial government would cooperate with the board in the endeavor to make the visit of the Royal Commission a success. A tentative programme has already been drawn up. Col. Loggie, deputy minister of land and mines, will appear before the Royal Commission and give an account of the forests, the possibilities of the timber supply, and the arrangements for conserving the forests. The Minister and Deputy Minister of Agriculture will give information in regard to the agricultural resources of the province. Angus McLean and W. B. Snowball, of Chatham, will deal with the forests from the lumberman's point of view. James Gilchrist will give evidence in regard to immigration to the province and the opportunities for new settlers. F. F. Gutelius will provide the commission with a memorandum on the government railways, and will probably appear personally to answer questions. The board is arranging to have other representative men appear before the commission and give information regarding other resources and activities of the province.
