

ANOTHER BANNER CROWD AT THE EXHIBITION YESTERDAY

Over 11,000 in attendance—The man with the Bees attracted a lot of attention— Everything moving nicely and success is assured.

and it was found necessary to have some of the judging put over until today.

This afternoon at two o'clock there will be a grand parade of the prize animals and there will be judging in several classes. After the parade there will be exhibitions of jumping by different horses and the tandem entries will be shown in the ring. This feature should be seen by everyone who appreciates good horses.

Dairy Competition

The dairy competition reached its second stage yesterday and will be continued this morning and afternoon. The judging is arranged as follows:

Condition of butter in churn, ten points.

Condition of butter in worker, ten points.

Making up of butter, twenty points.

Smartness and cleanliness, twenty points.

Color of butter, five points.

Texture, twenty points.

Freedom from moisture, fifteen points.

The different cattlemen and collegians were given a chance of judging cattle and an amateur contest was conducted yesterday. The participants will write out their reasons for awarding points and the results will be announced later.

So far the exhibition has been free from any serious accident and the police report the buildings and grounds free from crooks. One visitor reported the loss of his watch. Another man dropped a roll of bills containing about \$50 but these were classed under losses and there was no idea of pick pockets in this connection. Aside from these two instances there was no record of other crime about the grounds.

The crowd present at the fair yesterday spent the greater part of its time in the grounds, but there was enough people in the buildings to make progress through the files rather difficult but all entered into the spirit of the show and persons who had their toes trampled upon excused the accident with a smile.

Exhibitors Busy

The exhibitors, who were giving

away free samples or pamphlets descriptive of their goods had a steady demand for these articles and fans, books, booklets, papers, war maps, and many other useful and bulky articles were borne away by the people in the crowd.

The man with the bees created a great amount of interest. He has a tent and a cage in the grounds near the main building and there he shuts himself up with the bees and keeps a serene countenance that the spectators cannot tell whether he is getting stung or not. If he is, the bees must be quite different from varieties usually met in the country. This demonstrator of bees and bee handling makes the art appear a harmless one for he stands among the buzzing bees and does not appear to mind them at all.

The pikers were again in their element yesterday and the crowd surged around their booths during the time that the fair was open. The dolls, the wheels of fortune and all the other attractions were worked to capacity by an eager and enthusiastic crowd.

The fair today should be at its best and preparation has been made for the biggest crowd of the week. Good weather has been promised and with excursions from many outside points the attendance should be up to the expectations of the management.

The doors will remain open till 10:30 o'clock tonight so that the crowd will be given a better chance of seeing all the sights on the grounds and in the buildings.

EXHIBITION PROGRAMME TODAY.

Morning.

9.00 a. m.—Gates open.

Afternoon.

2.00 p. m.—Grand parade of prize animals and judging of jumpers.

3.15 p. m.—Free acts before the grand stand.

4.30—Band concert in main building.

Evening.

8.00 p. m.—Concert in main building.

8.15 p. m.—Free acts before grandstand.

9.00 p. m.—Fireworks.

10.30 p. m.—Doors close.

The turnstiles at the exhibition whirled merrily practically all day yesterday and more than 11,000 visitors paid their money to gain admission to the grounds and buildings. The crowd hardly got underway until after nine o'clock, but as soon as the tide swung towards the big show it was continual until well along in the evening.

Many visitors from outside points were in attendance at the fair yesterday and all were loud in their praise of the fine entertainment provided. During the early evening there was a slight fall of rain, but the weather soon cleared and at nine o'clock conditions were favorable for the grand display of fireworks. The other outdoor features were also staged.

The fireworks were of high class and the final feature, the bombardment of Gibraltar was a fine spectacle. The grandstand was crowded for this entertainment and all enjoyed themselves.

The City Cornet Band played afternoon and evening and their work was greatly appreciated. The Sons of England Band will work this afternoon and evening.

The judging of the cattle and other live stock was continued yesterday

ENEMY TO CONCENTRATE AGAINST MAIN FRONT OF FRENCH ARMY

Belgians Driving Enemy Towards France

London, Sept. 10, 9.30 p. m.—A Reuters despatch from Ostend says that according to soldiers who have arrived there it would appear that an engagement is in progress between the Belgians and the Germans, who are withdrawing towards France.

Rotterdam, Sept. 10 via London, 7.09 p. m.—A despatch to the Courant, dated Breila, Holland, reports that a heavy engagement took place Wednesday at Aerschot, Belgium, nine miles northeast of Louvain, when the Belgians attacked the garrison there.

As a result of the fighting the Germans evacuated the town, and the Belgians hoisted their colors and liberated 26 priests found in a church.

London, Sept. 10, 6.30 p. m.—The official information bureau issued the following tonight:

"Yesterday and today strong and numerous squadrons and flotillas have made a complete sweep of the North Sea, up to and into Hellelind right. The German fleet made no attempt to interfere with our movements and no German ship of any kind was seen at sea."

London, Sept. 11, 12.40 a. m.—According to a Perograd despatch to the Exchange Telegraph Company, it is believed that the German Crown Prince has been appointed commander-in-chief of the forces against Russia.

Germans Repulsed in Belgium?

London, Sept. 10, 10.07 p. m.—An Ostend despatch to the Exchange Telegraph Company says:

"According to information from a reliable source, the Belgian army at Antwerp has assumed a triumphant offensive movement, driving the Germans back to the environs of Louvain."

London, Sept. 10, 10.05 p. m.—Official Berlin despatches received here by Marconi wireless say:

"While Louvain was burning, German officers carried pictures from the cathedral to the Hotel De Ville for their protection."

"Emperor William and Prince Leopold of Lippe have exchanged cordial and sympathetic telegrams on the occasion of the heroic death of Prince Herbert of Lippe, who is the third member of the House of Lippe to fall in this war."

"According to London papers, fighting has been proceeding since Sept. 7 east of Paris, on a line between Meaux and Vitry Le Francois. Early

BRITISH WARSHIP SEIZES VALUABLE PRIZE

Plymouth, Sept. 10 (via London, 2.56 p. m.)—The German bark Urania, bound from Tocopolis, Chile, for Hamburg, with a cargo of nitrate valued at \$175,000, has been captured by a British warship.

Belgians Flood Country to Keep Enemy Out of Antwerp.

London, Sept. 10 (11.17 p. m.—An official despatch issued in Berlin, and received here this evening by the Marconi Wireless Telegraph Company says: "In an engagement at Corderghem, on the railroad between Antwerp and Ghent, the Belgian troops withdrew."

"The country south of Antwerp has been flooded by the Belgians, to prevent the Germans marching into the town. The area covered by the flood is seventy square miles. The water varies in depth, at different places, being from a few inches to several feet."

BERLIN NEWSPAPERS PROTEST AGAINST CRUELTY TO PRISONERS

Amsterdam, Sept. 10 via London, 7.46 p. m.—The Berlin newspapers Vorwarts prints an article protesting against cruel treatment of prisoners of war, and adds that if the reports

of cruelties, of which it cites several alleged cases, are true, the severest measures should be adopted to stop them.

The Vorwarts gives Herr Traub, a member of the Reichstag, as authority for the statement that a male nurse who wrote the last will of a dying French count, was subjected to corporal punishment for so doing. It also quotes a report received from Liebenstein, Saxo-Meiningen, describing how a party of Belgian prisoners being transported through the town, was attacked by a furious mob, which seized and lynched a priest who was among the prisoners, because he was accused of having caused the Belgian populace to commit atrocities on German soldiers.

A Safety Deposit Box

The Bank of Nova Scotia

in this bank guarantees absolute safety and privacy. It is accessible only to the holder or his authorized deputy.

There are few who have not some valuable articles that should be safeguarded. For security against fire or burglary an ordinary safe is not to be compared with our safety deposit vaults. We invite inspection. Boxes rent at \$5 and upwards per year, according to size. 101

What's in this? **WRIGLEY'S SPEARMINT**

You've a right to know—we'd like to show you, in our factories—the most up-to-date, sanitary chewing gum factories in the world!

WRIGLEY'S SPEARMINT is made from the air-dried, milky sap of the Sapodilla Tree, which grows in Mexico and Central America.

This sap is boiled down into chicle, flavored with the aromatic juice of pure fresh mint leaves, then cut into the delicious, springy bars which you buy.

New machines, costing several hundred thousand dollars wrap WRIGLEY'S SPEARMINT in an inner waxed seal, then the inside pink wrapper, then the NEW OUTER WAXED SEAL that is air-tight, damp-proof, dust-proof. The same machines encircle this waxed-wrapped packet of five big sticks in the familiar band you know so well. It's as good and as clean as men, machines and money can make it.

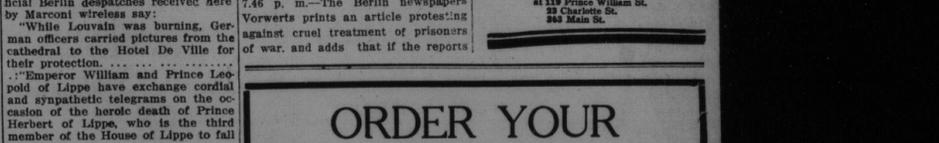

The BIGGEST 5 cents' worth of beneficial enjoyment you can buy

Chew it after every meal
