Printing Establishment,  
45 CHARLOTTE STREET.  
All Descriptions of Printing executed  
with despatch.  
Orders left at the Courthouse, or at the  
Dunsmuir School, will be attended to.  
P. R.—A few copies of Henry Wood Smith's  
theological Treatise.

## Weekly Tribune.

WITH SUPPLEMENT.

ST. JOHN, N. B., MAY 19, 1874.

### The Elections.—The Census.

The House of Assembly was dissolved Friday, and writs have been issued, returnable June 30th, for a new election. The Government party have been making an active canvass for weeks past, and are very well prepared for the fight. They have succeeded, in most instances, in keeping candidates from announcing themselves, by the potent influence of conventions, and none there is far more unanimous in their ranks than might have been expected, considering the largeness of their majority. In St. John the ticket has been submitted to by every legislative aspirant in the ranks. In Charlotte the young lawyers who were wrangling over the nomination were pushed aside to make room for the party of James Murdoch, a gentleman who has often refused to allow himself to be nominated for the Legislature. The chief good of the convention system is that men like Mr. Murdoch will accept the nomination of a convention when no amount of private pressure can induce them to offer themselves as candidates. The St. George convention did not result harmoniously as those in the other parts of the County, Mr. McGee asserting that the votes were not counted correctly and refusing to be bound by the result. He claims that eight out of nineteen ballots were cast for him, while it was announced that he only had seven. By his own showing he did not get a majority of the votes cast at either ballot, and has no claim to be considered an illused man. In York County there was considerable shuffling and intriguing in the formation of a ticket. The candidates were many and the place of the disposal of the Provincial Secretary and Mr. Robinson only two. Mr. Dow, Mr. Needham, Mr. Blair and others stood ready to run with the Secretary on the Government ticket, or against him independently. After the failure of attempts to effect a settlement Mr. Dow and Mr. Barker were selected, and Mr. Blair and Mr. Needham are now in the field as Opposition candidates. In St. John County nobody has been making any noise except the Government party. Opposition candidates, if any, besides Mr. Marshall, have kept quiet, waiting for disappointed Government candidates to come out as independent candidates, thus splitting the party ranks. The prospect is that none of the candidates will allow themselves to be put in nomination, and the only hope for Mr. Marshall, or any other man is that the ticket will not be strictly adhered to by the electors, the weakest man being dropped in favor of the strongest independent candidate. A glance over the constituencies will convince any one that the Government will come out of the election with a good majority. No other result is among the probabilities.

### Common Schools Act feel the weakness of this cause.

Repeal may be safely classed among the impossibilities. The only thing any sane man can advocate, in any English County, with the faintest hope of being endorsed by the majority, is the lessening of the expense of the system and concessions to Catholics. The question of expense, and the question of concessions to sectarian demands, are both in the hands of the free school electors, and will be decided by a free school Legislature. Those who have children to educate do not deem the school system too expensive, and many of those who have no children do. Many Protestants, seeing no practical objections to the working of a system like the one adopted in Carleton, would model the law on that, and many Protestants, for sentimental reasons, look with holy horror on the proposition to admit clerics in school rooms after hours, or to allow a disinterested sect to have separate schools in the towns. The issues before the people are simple and practical, and the contempt of every thinking man must be excited by the clap-trap cries that are daily raised by journalists who boast of their education, honesty and intelligence. The ranting about Catholic domination, the Papal yoke, pastoral rite, etc., is founded on a very low estimate of the popular intelligence. This estimate is claimed to be the true one, and the claim may be correct. This does not palliate the offence of ministering to so low a grade of intellect, awakening prejudices that are dangerous to the peace of the community, and exciting fears that are groundless and mischievous. Reading the stuff which men who have literary reputations in the Dominion sell for sale, and all this kind of irreparable writing in its defence is unnecessary.

### The Reciprocity Negotiations.

The news from Washington is that the negotiations for a reciprocity treaty are likely to result successfully. We confess that we are not particularly exhilarated by the prospect, as we are quite sure that no treaty will be negotiated by the U. S. Government and approved by the U. S. Senate that will give Canada a proper equivalent for the sacrifices Canada will be required to make to secure it. The public mind of this country, notwithstanding that the facts utterly disprove the fallacy, is convinced that a reciprocity treaty of some kind with the United States is the one thing needful to our prosperity, and the Ottawa authorities know that anything by the name of reciprocity will be a source of popularity for themselves. Canadians are as a rule equally eager for a reciprocity treaty as England was for an Alabama Claims settlement, and will be bitten in the making of it just as England was bitten in the making of it. It is evident from the Washington letter in another column that Commissioner Brown has presented a strong case at Washington in contradiction of the theory that Canada depends for an existence on the trade facilities charitably accorded her by the United States. He has presented facts and figures that illustrate the value of the fishery privileges that are to be paid for under the Washington Treaty, and to show that Canada's trade did not suffer by the abrogation of the treaty of 1854. These facts are known to his audience as prominently as he has expected to do, and had two hundred indicted on him. As Mr. Magee is the British Vice Consul there will, doubtless, be a little bill presented on account of this act of official barbarity. A higher official arrived before the session had been fully executed, and Gonzalez attempted to escape. A bill from an unknown hand arrested his flight, and he is a prisoner. His Government will, as a matter of course, have him executed, in the hope that his blood will partially atone for the outrage.

### The Innate Brutality of the Human Race.

has seldom been better illustrated than by Col. Gonzalez, military commander of San Jose, Guatemala. According to a letter from this monster condemned Mr. John Magee (no relation, we believe, of the St. John merchants of that name) to receive four hundred lashes for not having responded to his summons as promptly as he was expected to do, and had two hundred indicted on him. As Mr. Magee is the British Vice Consul there will, doubtless, be a little bill presented on account of this act of official barbarity. A higher official arrived before the session had been fully executed, and Gonzalez attempted to escape. A bill from an unknown hand arrested his flight, and he is a prisoner. His Government will, as a matter of course, have him executed, in the hope that his blood will partially atone for the outrage.

### Reports from the Steamers on Country.

are quite favorable to lumbering operations. The small streams are high, and not difficult in experience in getting the logs to the rivers. An official report made so frequent in that disordered country that they must have long since despaired of keeping the run of affairs. Some of them may be interested in knowing that the following trumps were dealt at the last shuffle of the political cards: Zebala, President and Minister of War; Sagasta, Interior; Ulloa, Foreign Affairs; Camacho, Finance; Alonzo Martinez, Justice; Romeo Ortiz, Colonies; Rodriguez Ariza, Marine. As it was two days ago that this Cabinet was formed it is possible that it may have been overthrown and succeeded by another before this.

### The West seems to be favored with all the moisture this spring.

While western streams are barely high enough for log-driving purposes the Mississippi overflows its banks and floods immense tracts of low-lying country. The danger, as will be seen by the following dispatch from Memphis, dated May 13th, is not yet over: About daylight yesterday morning the levee broke at Apperton's plantation, opposite Friar's Point, and in a few minutes the crevasse was 100 yards wide and the water in the street at Friar's Point is three feet deep. Whole families are moving out and merchants are removing their goods. The entire country in the rear is being inundated. Some idea may be formed of the power of the water rushing through this crevasse by the tearing up of high cotton-wood trees 24 feet in diameter, and scattering them over neighboring plantations. The steamers now all come through Council Bend cut off.

### The Ontario papers are fortunate in having an agent here with a nose for news.

This is what was sent them last Saturday:— Much political excitement was exhibited over the school question, and feeling runs high. The election contest will be very severe, as both parties will fight tooth and nail. The excitement is invincible to the naked eye, unless the daily campaign done administered by the Government papers is considered excitement. We assure our brethren of Ontario that the people are calm, and that there are no signs of any "tooth and nail" practice. Lord Granville, it is announced from London, declines that persons naturalized in Canada have the same rights in any

### portion of the British Empire as those naturalized in Great Britain.

Personal.  
Hon. W. E. Forster, of St. John's County, is in town. He intends contesting that County at the approaching election.  
Mr. James Reed, an aspirant for the representation of Queens Co. in the Local Legislature, is in town.  
New S. Bill and family left on Monday for a six months' tour in England and the continent. They sail from New York by the Cunard Line. Mr. Bill preached his farewell sermon in the German street Baptist Church Sunday evening.  
Mr. J. E. Whiting, of Mr. Lamerzang's theatre, is at the Park Hotel.  
Mr. G. U. Hay, of the West, edits the *Christian Visitor* during the absence of Mr. Hill.

### Brevities.

The 25th inst. is proclaimed a public holiday.  
The body of an infant was found in the Episcopal burying ground, Marsh Road, Thursday afternoon. It had been buried, and some signs had dug it up. The remains were reburied.  
Thursday, as Mr. Wm. Bates, of Gagetown, was putting two horses on board one of the river steamers, one of the animals stepped on Mr. Bates's right foot, causing a painful bruise.  
A billiard match is to be played in Ross's Billiard Rooms on Wednesday next between Henry McManus, the Fredericton wonder, and St. John lad of the name of Bates. The age of the former is nine years.  
John Henderson, late Station Master at Shediac, has received an appointment in Montreal Station.  
At an emergency meeting of St. John's Lodge, F. A. M., Tuesday evening, the Rev. Geo. J. Cole was presented with an address. The address is engrossed on parchment and bound in a handsome dark moose case with the name of the lodge and of the recipient printed in gilt. Mr. Cole has resigned his pastorate of St. Stephen Church, and leaves for Scotland on Monday morning having engaged a passage from New York in the Anchor Line S. S. California.

### Accidental Fire.

Wednesday forenoon a fire was discovered in a bedroom of Police-man Cray's house in Portland. A step had been heard by Mrs. Cray, who supposing it was her husband's, paid no attention to it. When the fire was discovered the incendiary had made good his escape. The fire was not extinguished until it had consumed several suits of clothes and the bed and bedding.

### Labouring Operations.

Reports from the steamers on country are quite favorable to lumbering operations. The small streams are high, and not difficult in experience in getting the logs to the rivers. An official report made so frequent in that disordered country that they must have long since despaired of keeping the run of affairs. Some of them may be interested in knowing that the following trumps were dealt at the last shuffle of the political cards: Zebala, President and Minister of War; Sagasta, Interior; Ulloa, Foreign Affairs; Camacho, Finance; Alonzo Martinez, Justice; Romeo Ortiz, Colonies; Rodriguez Ariza, Marine. As it was two days ago that this Cabinet was formed it is possible that it may have been overthrown and succeeded by another before this.

### Meospath Park.

The Directors of this park announce a number of new improvements on the 25th inst. This is the Spring Meeting, under the auspices of the Directors, and this exhibition will be followed by several others during the coming season. The track is now in excellent condition.

### A Wag at Work.

Some party unknown played a practical joke on the occupants of one of the halls on the 25th inst. It would be easy enough to do it before any of the legal gentlemen who have offices there put in an appearance in the morning. A rapid had been slipped on the floor, like that which lawyers have a habit of putting on when they leave their offices for a minute, and in a fair round hand was written an extempore to the writer. Over Mr. Duff's door was written:— "Willit—Taking a bath and putting on a paper collar. Hurrah! Excellent! Chandler—Getting his hair cut."  
Mr. C. A. Henderson's card said—"At prayer meeting. Leave address at B—'s, opposite."  
Mr. Palmer's door showed the following:—"My numerous engagements compel my absence from business for a few days. P. P."  
Here are two others:—  
G. Blitch—"Black" back in a few days."  
Barris & Killam—"Got a case; away for a month."  
An invigilation meeting was held in the hall where the notices were posted and the gentlemen who were honored propose to find the perpetrator of the joke, and hang, cart and burn him.

### Boly Feast.

The body of McAfee, who wandered away from his home at Golden Grove, about two months since, was found Tuesday afternoon in Big Lake Leonard. At the time he left home he was supposed to be partially insane. Some was made of his body, but no things could be heard. It is particularly interesting to note that he holds a largest ticket afternoon.

### Shipping Notes.

Vessels Sold.—Vanguard Bros. & Co's Circular, dated April 30th, contains a list of nineteen vessels sold during March and April. They remark "that for that time the market has been extremely dull, there being but few buyers in comparison with sellers, consequently the prices, particularly for old ships, have declined very materially, so much so that it is hard to put a value on this class of tonnage. The action of the Board of Trade, coupled with the dullness of freight generally, we attribute as the causes." Among those sold were the following Canadian vessels: Hermit, 927 tons, built at St. John, N. B., 1865; continued 5 A 1, 67,500; Persia, 978 tons, built at Nova Scotia, 1873; classed 8 1/2 A 1, 1, 211 lbs per ton; Era, 517 tons, built at Nova Scotia, 1869; classed 8 3/4 A 1, 1, 1869; metalled 1872, 24,500; Gloamin, 696 tons, built at Nova Scotia, 1871, classed 7 A 1; metalled 1871, 26,625; Mileage, 441 tons, built at Margaretville, N. S., 1868; classed 3 3/4 A 1; metalled 1871, 22,853; Bellisle, 409 tons, built at Miramichi, 1871, classed 8 A 1; metalled 1872, 22,000; Arabian, 216 tons, built at P. E. Island, 1866, 21,150; the Home Missionary Union. Mr. Bell goes to Guyabaro; Brown to Cow Bay, C. E. and Clarke to Bridgewater.

### Novo Scotia News.

Truro has decided to erect a \$40,000 school house to contain eight departments.  
About midnight on Tuesday a fine healthy white male child, about two days old, was found on the steps of the Waverley House, Halifax. The infant was taken to the Poor House.  
One of the patients at the N. S. Hospital for Insane set fire to his bedding Tuesday night, and only that it was promptly discovered and reported, he might have died of suffocation.  
The first shipment of freestone from Wallace was made on Wednesday. The schr. E. Chambers cleared for Boston, laden with 820 tons of freestone, from the Grey Stone quarries.  
Mr. Ellerhausen is bringing out between 200 and 300 German girls to work at his new paper mills at Ellershausen. This is the case of immigrants—"But-won't the surplus female population of Nova Scotia be apt to hold an indignation meeting?"—Zeeb.  
The last mail steamer from England brought out Rev. John Clarke, Rev. J. P. Beel, and Rev. John Brown to labor in Nova Scotia under direction of the Rev. Home Missionary Union. Mr. Beel goes to Guyabaro; Brown to Cow Bay, C. E. and Clarke to Bridgewater.

### Weston's Attempt to Walk Five Hundred Miles in Six Consecutive Days.

New York, May 11.  
The redoubtable Weston began his five-hundred-mile journey at five minutes past 12 this morning, in the American Institute Hall, where a considerable number of athletic gentlemen assembled for the purpose of witnessing the start. The great pedestrian's purpose is to exceed all his previous efforts to make the walk of 500 miles in six consecutive days, 110 miles to be made in the first twenty-four hours. For some time past Mr. Weston, the picture of health, has been in training, and admirers that he could accomplish something in pedestrianism which would exceed all other trials. His weight in uniform is 128 pounds, and he is in excellent condition for undertaking the feat. Shortly before the hour set down for the start Weston accompanied by his trainer, entered the hall, which was brilliantly lighted, and they were soon followed by James Gordon Bennett, Judge Brady, Col. Ethan Allen, Gen. Agassiz, Major Schaler, Aaron J. Vandenberg and others. The great walker wore a low-cut, light-colored, black velvet suit, and a large sliding whip. Mr. Bennett was by his side. Not more than seventy-five persons were in the room when Weston entered. He had his watch calculated time by side, and gracefully assuming at once an easy position, he commenced his march, starting with a black dress coat and gray trousers, a silk hat, standing collar and large scarf. Mr. Bennett made a magnificent start. Weston got half way round the first circuit and caught up with the great pedestrian, who was about three miles ahead. Then they went along together around the circuit until they made the third circuit, when Weston wheeled around suddenly and made Mr. Bennett's ship to catch him. In making the third circuit Mr. Bennett drew ahead at a tremendous pace, and reached the judges stand three feet ahead of Weston. Weston made his first mile in 19 minutes and 23 seconds, beating his calculated time by one minute and 35 seconds. Mr. Bennett manifested an extraordinary interest in the subject, and Weston, who watches his movements intently. After making his first mile Weston directed himself to the judges stand, and in making the third circuit Mr. Bennett drew ahead at a tremendous pace, and reached the judges stand three feet ahead of Weston. Weston made his first mile in 19 minutes and 23 seconds, beating his calculated time by one minute and 35 seconds. Mr. Bennett manifested an extraordinary interest in the subject, and Weston, who watches his movements intently. After making his first mile Weston directed himself to the judges stand, and in making the third circuit Mr. Bennett drew ahead at a tremendous pace, and reached the judges stand three feet ahead of Weston. Weston made his first mile in 19 minutes and 23 seconds, beating his calculated time by one minute and 35 seconds. Mr. Bennett manifested an extraordinary interest in the subject, and Weston, who watches his movements intently. After making his first mile Weston directed himself to the judges stand, and in making the third circuit Mr. Bennett drew ahead at a tremendous pace, and reached the judges stand three feet ahead of Weston.
