

THE MENDING OF MEN

is an after-the-war job for surgical skill. The mending of a broken stomach is a job that calls for the intelligent selection of food. Shredded Wheat Biscuit with berries or other fresh fruits is a combination that agrees with the most delicate stomach. The tasty crispness and goodness of the baked whole wheat blends deliciously with all kinds of fruits. A nourishing, satisfying meal for a few cents.

Resists Fire, Sheds Water, Wears Long

Flying sparks and embers from a burning building often cause roofs near by to catch fire, especially in a dry, hot season. Under like conditions, roofs covered with

Brantford Asphalt Roofing

are in no danger from flying embers, because any that fall on Brantford Asphalt Roofing die out harmlessly. Build a house on a roof of Brantford Asphalt Roofing and the fire will not spread and the boards underneath the roofing will be protected in a surprising manner.

If a fire starts in the interior of a building Brantford Asphalt Roofing acts as a retardant and keeps the fire from spreading. Fire chiefs and insurance companies endorse its use in the most congested cities.

Brantford Asphalt Roofing does not absorb water, but sheds the heaviest rain with ease. Acid proof and alkali proof. Reliable, durable, economical. Three weights—60 lb., 70 lb., 80 lb. per square.

Brantford Rubber Roofing
Is the same quality as Brantford Asphalt, but has a smooth, rubbery surface instead of the sand. It is particularly suitable for verandahs, decks and floor coverings. Three weights—40 lb., 50 lb., and 60 lb. per square.

Leatheroid Roofing
Slightly lower quality than Brantford Rubber Roofing. Used for same purposes. Has a leather surface. Exceptionally good roofing at a low price. 35 lb., 45 lb., and 55 lb. weights.

Standard Mohawk Roofing
Is made of the same materials as Brantford Asphalt Roofing, but is lighter in weight. A thoroughly reliable roofing at a low price. Tested for years and has given entire satisfaction. Sanded on one side. One weight—40 lbs. per square.

China Sheathing Paper
A tough kraft paper coated with high-grade asphalt. For making buildings damp-proof and wind-proof. Also for roofing temporary bunk houses, lumber camps, etc.

Samples of any of these roofings and prices will be furnished on request.

Makes Wrinkles Go "As If By Magic"

Want to banish every wrinkle from face, neck, hands, easily, quickly, completely? Try the famous *Maxoline* formula. Nothing else so nearly meets every requirement. Why? Because it is correct in principle and really, truly *Maxoline*. Possessing remarkable astringent and tonic properties, it both tightens the skin—thus naturally smoothing out the lines—and improves capillary circulation and nerve tone—tending to strengthen loose tissue and bring about a healthy condition. Yet, powerful as the *Maxoline* formula is, it does not harm your skin in the least. And it's so easy to get the inexpensive ingredients at your drugist's, and so easy to mix them.

Just dissolve one ounce powdered *Maxoline* in one-half pint witch-hazel—that's all. Bathe your face in this—immediately every wrinkle and crease are affected, even the deepest. You are perfectly astonished and delighted with the result. You look like you've just years from your age!

Z. Mrs. Heinrich Lang gave a miscellaneous shower at her home on Monday afternoon, when Miss Olivia Lang, now Mrs. Callahan, was made the recipient of many loving gifts. The bride's friends were sorry to see her leave the city, but glad she is only going to Toronto and all wishing her every happiness in her new home.

On Wednesday morning at St. Mary's Church the marriage took place of Olivia, daughter of Mr. and Mrs. John A. Lang of this city to Mr. John Callahan, of Toronto. The ceremony was performed by Rev. Grave Subject is Humorously Treated by John Emerson and Anita Loos the Author

One of the first thoughts that occurred to the citizens of any community when the Great World War came to a close, was, what will happen to the boys when they come home? Just as gigantic a task as it was to prepare the men to go overseas to fight for democracy, so was it a gigantic task to take care of the thousands when they came back to their homes, where they had necessarily to be taken care of.

This idea not only has been the subject of the thesis for many great writers, but it has been the background idea for one of the best motion pictures that has ever been produced and which has been placed on the market by the Famous Players-Lasky Corporation as an Emerson-Loos Paramount special.

Mr. Emerson and Miss Loos have written and produced the best "after the war" material that this country has seen in motion pictures, but their latest production "Oh, You Women" which has its basic idea, "when the boys come home," is conceded to be the best satirical-comedy that has ever been made in this country.

They have taken old facts and made merry with them. In every community we have heard of the farmerette, the girl who became a motorman and conductor, some who were postwomen and the like, but the rub of it all was, what will happen when the boys come home?

Mr. Emerson and Miss Loos forewarn it all, and made it into a picture that value, and which will be shown at the Allen Theatre Wed. and Thurs.

These artists have produced some of the best comedy sketches that have been made in this country and their latest efforts have been accepted by the motion picture public as the most exceptional ever presented to the public.

With Fingers! Corns Lift Off
Doesn't hurt a bit to lift any corn or callus right off. Try it!

For a few cents you can get a small bottle of the magic drug *Ferozone* recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of *Ferozone*. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with your finger.

Just think! Not one bit of pain before applying *Ferozone* or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also harden calluses on the bottom of feet, shrivel up and fall off without hurting a particle. It is almost magic.

Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.

A HOT SPOT Chalmers gives "a little extra" every time you ask it

ANYONE paying \$1000 or more for a car is entitled to something more than "mouse-colored" performance. That thing called "a little extra" is the middle name of this Hot Spot Chalmers.

You find it in the following ways:

1. When you want "a little extra" power on a hill.
2. When you want "a little extra" smoothness in traffic performance.
3. When you want "a little extra" mileage on tires.
4. When you want "a little extra" mileage on gas.

For there are two things in particular this Hot Spot Chalmers is noted for. One is the power it extracts from gas; and the other is the ease with which that power is used.

Sitting in the tonneau or at the wheel you notice them. And notably the last named. The stillness, the lack of lurch, the muffling of all mechanical action is as noticeable as the fog horn is to the mariner—when the fog horn stops.

Hot Spot "breaks" up the gas so that the engine can get at the power that nature put in gas and Ram's-horn finishes the job by feeding it gently, quickly and to each cylinder at just the right moment to give results de luxe.

You who drive more expensive cars than a Hot Spot Chalmers would do well to check up these statements by seeing for yourself. You're invited. Come soon.
