Boy Run Down but Not Hurt. While proceeding on South Queen Street on a bicycle last night about 6 o'clock, a young lad by the name of Harlock was run down by an automobile going in the same direction when in front of Sattler's Harness Shop and while the bicycle was damaged considerably the boy escaped serious injury. According to the marks made by the wheels of the auto, when the breaks were applied, the machine was apparently on the left side of the street although this may be accounted for by the fact that the boy was turning over from the right side of the street when the accident happened. Luckily however the accident was not of a serious nature and a few dollars will repair the damage to the wheel. "Truth about one big Union". The one big union will be exposed by able speaker. A Denial of a Malicious Rumor. A request has been made of the Record by a highly respected citizen, the bride of a local soldier, recently returned from overseas, to give an emphatic denial to certain rumors on the street, false and malicious, regarding herself, which have been current. It is needless to state that this report does not need any refutation, for friends are aware that there is no basis for the same but in order to remove any wrong impression among others and to issue a timely warning to those responsible for the rumor, a reference to the slanderous report is made. The lady in question and her friends therefore justly look forward to a cessation to these false statements.
