
F. Clementson & Co., St. John, N. B., Cheap Glassware for Country Trade.

one foundry, one tannery and a telegraph office. It has a good harbor and has daily communication in summer with New Brunswick and Nova Scotia, pop 2860. Summerside is in every respect the second town in Prince Edward Island, and indeed its growth has been so rapid of late years that it bids fair to become soon a formidable rival to the Provincial capital itself. Its local position has, of course, had much to do with its prosperity. It is directly opposite Shediac, with which it has daily communication by steamers. This place having been for years the terminus of the European and North American Railway before the Intercolonial, or even the Pictou Branch, was completed, this fact gave a great advantage to Summerside. This place, like Charlottetown, has a fine harbor. It is beautifully situated and has unquestionably a great future before it.
