The unprecedented and rapid movement of grain through Winnipeg again evidenced itself yesterday when the manager of the local clearing house gave out his weekly statement. The figures indicate an advance of about 30 per cent. over the corresponding week of 1912, and an increase of 50 per cent. over the corresponding week of 1911. Bankers state that the advance will be marked and continuous through the month of October, although the proportionate increase will probably not be as great. Payments for grain have been on an immense scale as compared

with last year, as the figures show. The statement was as follows: Week October 2, 1913, \$39,851,856; corresponding week, 1912, \$30,561,513; Corresponding week, 1911, \$26,138,775.

A certain indication of the passing of the tight money scare is the brisk demand for farm lands all over the West.

One of the big land companies with headquarters in Winnipeg, reports more enquiries for Saskatchewan farm lands in the month of September than during the previous twelve months.
