

## A Concrete Root Cellar

is one of the farmer's greatest money makers. It makes money by keeping produce in good condition until it can be taken to market, or until better prices can be obtained. It maintains a cool, even temperature that

### Keeps Produce Perfect

A concrete root cellar is always dry, clean and sanitary. It is proof against heat, cold, water, fire and rats. Although the greater part of it is underground, it cannot crumble or rot away. It is permanent and needs no repairs.

Tell us to send you this handsomely illustrated free book "What the Farmer can do with Concrete." It contains the fullest information about concrete root cellars and other farm buildings that never wear out and shows how you can build them at small cost.
