

SCHOOL OF SCIENCE.

Presentation to Prof. Graham—The Engineers' Dance.

HOCKEY—FOOTBALL—BASEBALL.

The Toronto Engineering Company propose holding their first annual dance on February 7, in the Varsity gymnasium.

G. H. Marquis of the first year has given up his work at the School, and is now at his home in Brantford.

The graduating class pins are now out. They are of a very pretty design, by Ambrose Kent & Sons.

J. A. Horton of the second year, who made such a brilliant record last year, has been compelled to give up his work at the School owing to ill-health.

The graduating photos are to be taken at Rowley's, on Spadina, this year. There will be 4 in the class, with a faculty of 20, all the fellows being included this year for the first time.

Although somewhat out of date, mention must be made of the final Mulo-Cup game, in which the seniors won out against '04 by a very narrow margin.

The school for the fourth time. The cup is at present in the hands of Ryley Brothers, having the shield, with all the names of the players of the successful team engraved on it, put on.

Things looked blue when word was received that Biddy was sick in bed, and the game did not seem the same without him.

Charley Harvey was a brick. The doctor said he must not play, but after some coaxing Charley consented, for which we humbly thank the Lord.

Hockey is in the air around the School, but thus far the juniors are the only ones who have been doing any systematic work.

At present much more interest is taken in the inter-section games, which are so popular, especially in the class of '02, where the Mechanicals have put three swift teams on the ice.

The great success of the Toronto Engineering Company in the indoor baseball league is a matter of great satisfaction to all concerned.

The boys received a long letter from Steve Nealon; he reports a swift time in Carbondale, and sets the date of his return as the 18th.

Mr. Coleman should make a good hockey coach, as he understands this game and plays it well.

Gus Luby is looking fine and dandy after his vacation.

Just before the break-up the third year made a happy presentation to Professor Graham. The presents—a silk umbrella with an engraved silver handle and a meerschaum filled with "Bollard's best"—were given as a slight token of the respect and esteem which the third year have for Mr. Graham.

ST. MICHAEL'S

Friday evening, January 3rd, a very interesting concert was given in the college hall. Willie Ruddy was in the chair, and acquitted himself in a very creditable manner.

A great gloom now rests on all the college, and so it will remain till "Eddie" returns.

Jack Pickett flew in the other day from Owen Sound, and says things were "doing" in the village for a week or two around Xmas.

Dan Sullivan's shoes are still of a magenta hue.

Our "detective," Willie Heffernan, is a very busy man at the present time.

A Serbian paper gave a very fine engraving of our popular boy, Willie Ruddy. In the picture he wears his "Maglan," which created such excitement in our fish-orals circles last fall.

The editor of that paper must certainly be out of matter when he keeps Bill's name in the personal column for three days.

What happened Joe Golden's bricks? Kenneth Morrow says Tottenham was never as lively as it was this Xmas. We can easily understand that.

Paseo had a narrow escape when those masked men forced the "dope" on him. His nerves are now quite calm, however, after it.

Tony McCaffery drifted in Saturday afternoon.

The Bridgeport crowd have not arrived as yet.

We hope Fr. Murray will give us a concert soon again; the last was a grand success. The Glee Club will soon get down to practice again, and will soon be prepared to rip off a bunch or two.

John Byrne paid his friend James Peckenham a flying visit last Wednesday.

Hilaire Richard has resigned his position as "bell-boy."

No one cared to disturb Doc Gannon's slumbers, so everyone retained his normal health.

The boys should get together and organize a hockey team.

The arches built in honor of Joe Golden's home-coming are to be left standing as a memorial of his much felt absence.

No word has as yet been received from John Duffy; but we trust no harm shall befall him.

Messrs. Altman and Bergewer spent their holidays in Buffalo.

Mr. Ambrose Regan, '38, paid us a visit last Friday.

Have you heard Paseo's new song? It's a biter.

TRINITY MEDS.

Though it may seem like an echo from the far distant past, yet we wish to place on record in this, the last issue for this year of the Topics our hearty congratulations to the Literary Society for the very successful concert which we enjoyed in the Guild Hall, near the close of last term.

We shall miss from our midst for the rest of this year our friends Latta and Henderson, of the final year, who left last Thursday night for England on their way to South Africa, to serve on the Field Hospital service there.

The conduct of some of our students who come in late for lecture reminds us of the story of a Scotch plowman who went to church one day with a pair of new corduroy trousers on.

Our irrepressible artist, Dr. Heyden, called at the College the other day and left his mark on the blackboard in the shape of a cartoon representing a posterior view of some of our aspirants for glory in the Hospital Corps in South Africa.

It was executed with the doctor's usual abandon and fine disregard for details, as for instance, military uniforms, not to speak of the feelings of the victims.

It also illustrated another fine point in the artist's style, namely, ludicrous exaggeration of peculiarities, which is the ideal of every cartoonist.

Some of our number have been wondering what McLung does in the neighborhood of a certain dog. Mr. says the stomach is the chief organ of thought, and we don't blame him to keep on up in the "horn" of the cook.

Mr. Brown, '04, gave a short series of pugilistic demonstrations in the dissecting room a few days ago, probably a reflex nervous attack, as no harm was done.

We were pleased to see in our midst the cheerful countenance of Mr. B. T. Davey last week.

Mr. C. Wilson, '04, is reported to be doing patrol duty every Monday afternoon in the vicinity of the Conservatory of Music.

city that deserves support it is the Harmonic Club. The officers and members have, in spite of obstacles and discouragements, maintained the high standing of the club during the last few years, and this season are in a better position than perhaps they have ever been to give a most attractive and up-to-date concert, while the admission price places it within the reach of every student, even if he is, to use a popular phrase, "on the rocks."

DENTAL COLLEGE.

With dreams of turkey and Christmas pudding the boys have once again returned to a fare of hard-tack and prunes. Fate has torn them away from holiday boys and once more plunged them into the abyss of lectures and books.

Monday night the Dents turned out for their first hockey practice, and though a number had not yet returned to town, a pretty fair-sized bunch was on the ice.

PRIMARY MEDS.

The boys all seem very much pleased at coming back to the Biolog, once more. Most of the boys say they enjoyed themselves very much in the Christmas vacation, and why shouldn't they? Professor MacCallum's strong advice just before the closing of the term of 1907. He said they should throw all studies aside for the two weeks and thoroughly rest and enjoy themselves, and the boys all look as if they had obeyed him.

Prof. Lang says there is no sugar in alcohol. We wonder how he knows. We are glad to see Dr. Newman, M. B.C.S., back again in his old position.

Many of the boys have expressed regret that Ellis is not now one of them, as of yore.

In spite of the fact that a regular class dinner is to be dispensed with this year at Pharmacy there is an agitation on foot to have an informal supper at a downtown cafe some time within a month.

Many of the boys were down to Snea's last week to see Sandow, the wonderful man. They say they examined his muscles, and every one of the four hundred were perfect—not a blemish. Some of the boys, when they saw the muscles of his abdomen stand out like a checker-board, vowed it was a real checker-board he wore for the occasion.

Hockey season is nearly over by the weather we have been having, yet the Meds. will certainly have a team out.

PHARMACY.

Happy ——— The same old boys, the same old school, the same old policy.

Nominations for class officers and committee were held last Friday afternoon in the "horn" of the cook. The following officers were elected by acclamation.

Honorary President — Dean C. F. Heebner. Honorary First Vice-President — Miss McCrimmon. Honorary Second Vice-President — Miss Currie.

President — S. A. Crupharr. Vice-President — L. Baird. Secretary-Treasurer — J. M. Tamblyna.

Those aspiring to hold a position on the Class Committee are Hewson, Stoddart, Neve, Henderson, Porter, Scobell, Dunlop, Bradley, Chown, Solomon Terzian, Taylor, Lawson, Moore, Horsey, Newton, Phelps, Pasmore.

Elections will take place during the week. Vote early and often. We are glad to see Mr. I. T. Lewis occupying his customary position as registrar again, after being laid low for a time. His absence was noted and regretted by all the boys.

Professor Kendall appears on the scene again at Pharmacy in an endeavor to instill microscopic knowledge into the heads of the students. We wish him every success.

Quotations from the "Quiz" Stock Exchange are as follows: Chemistry, up one point. Pharmacy, up four points. Botany, up one point. Wouldn't it freeze you? Miss Yeomans of Mount Forest has returned to college after an absence of a year or so. Accordingly our dust has become a trio.

Another new face in Pharmacy corridors is that of Mr. Solomon Terzian of Armenia. Many of the boys have expressed regret that Ellis is not now one of them, as of yore.

WYCLIFFE COLLEGE.

Another Christmas has come and gone, and the first year of the new century has left us to join the great majority. The usual New Year resolutions are apparently having good effect this year among the men, for with but one or two exceptions they are all back and settled down, not only to regular attendance at lectures, but to systematic study besides.

The new system of final examinations at Christmas has been put to the test, and the unanimous verdict by both professors and students is that it is a good thing and has come to stay. Those who in examinations made only a moderate stand are convinced of the advisability of not pinning all their hopes on the proverbial April "plug," but are led to get down to work without delay.

The more successful ones are spurred on to "go one better" in the race. And the professors are not slow to see the advantage of having only a clear field of work ahead of them, with students unhampered with back work. It needs no prophet to predict that before long final examinations at Christmas will be in common vogue throughout the whole university.

Preparations for the college "at home" are progressing apace. A managing committee has been appointed, consisting of the president, Mr. Charles Masters, B.A., and the following heads of sub-committees: Messrs. G. H. Wilson, B.A.; W. Simpson, B.A.; B. A. Rinder, B.A.; R. M. Millman, B.A.; W. Woodroffe, '02; and W. E. Taylor, B.A.

If energy and enthusiastic hard work count for anything, then the "at home" of 1902 is already assured of success. A movement is on foot in our Church of England universities and colleges to advance Christian work in the western portion of our Dominion. A convention to discuss ways and means from the students' point of view is now being held in Montreal, with delegates assembled from all parts of Eastern Canada.

Mr. G. H. Wilson, B.A., has been sent as the representative of Wycliffe College. No surprise was greater, and no regret more sincere than that with which the fellows on their return to college heard of the severe accident to Mrs. Sheraton, who has so endeared herself to every man in Residence by her ever bright companionship and cheering sympathy in all times of trouble or difficulty.

It is their earnest hope and prayer that Mrs. Sheraton may soon be restored to complete health once more.

Work! Work!!! Work!!! Congratulations to the men who wrote on "Sups." They did splendidly.

THE HARMONIC CLUB CONCERT. A notice appears in another column of the Harmonic Club concert to be given in the Pavilion on the 21st. If there is any club around the University that deserves support it is the Harmonic Club.

Rowley's PORTRAITS PLEASE EVERYBODY. AWARDED GOLD MEDAL. At Paris Exposition from over a thousand competitors. Special Rates to Students. Studio, 435 Spadina Avenue. Phone Main 3738.
