RENNIE'S SEEDS

A Billion and a Half Worth of Food Required

The greater part of Europe is on the verge of starvation. Over twenty million tons of food must be sent overseas. This makes the necessity for increasing our home grown output of food products greater than ever—people must eat more vegetables.

Every horticulturist should exercise careful judgment to insure that he sows seeds, which have been proven of the highest quality by germination. Our Trial Grounds at Long Branch are operated for the purpose of safeguarding our customers. All seeds which do not come up to the high standard of Rennie Quality are at once discarded.
