SPRINGHILL MINES, August 3rd, 1881. MESSRS. C. GATES' SON & CO :-

Your preparations given to the public as a Your preparations given to the public as a cure for Asthma and Consumption may be considered reliable in my experience. My neighbors can also say the same of me. They had no hope whatever, and advised my wife to spend no more money on me. thinking it was no use, as I had been given up by the doctors; but I thought I would try your medicines, and consider that it is by their use only that I am living and maintaining my family by my own work. The doctors advised me not to take it, because, they said, when the cough stopped I would not live 24 hours; but I am alive, thanks to GATES' MEDICINES, and am doing better than I have been for a great many doing better than I have been for a great many

From George Hibbard, Esq., of the Famous Cumberland Grindstone Quarries. Cumberland, N.S., Sep. 26 1981. MESSES HUESTIS BROTAERS.

Gentlemen :- In answer to conresquiry as to the merits of the "Miller" Piano which I have had in use during the past six years, I have to say that I employed a thorough judge of such instruments, who had served in bteinway's em-ploy, (besides being a graduate of Leipsic Con-servatory) to select the best instrument he could procure, without respect to maker. The result was a "Miller," which I have found all that can be desired in a Piano. The tone is more like the human voice, than any I ever heard and has great volume and force, and what is more important than many other excellencies it requires tuning less often than any instru-

ment I have eyer known,
I therefore assure you that had I occasion for another piano I should certainly get a "Miller" believing it to be the best among the hundreds of other instruments of its kind, when all its cies are considered. I am your obedient servant

From Rev. Wm. Ryan,

GEO HIBBARD.

Hantsport, N.S., Oct. 7th 1881. DEAR SIR;—In answer to your inquiry as to how we like the "Miller" Piano which we pur-chased from you nearly one year since, we are pleased to be able to say that it gives perfect satisfaction. Its tone is unsurpassed and in every way it pleases. In making this statement we do not rely so much upon our ownjudgment as upon the judgment and taste of Professors of music who have used it and proportice it a superb instrument. We have had in our fa nily two Pianos from New York houses of high repute, but neither of them pleased as does the
