

A Warning

The dairy public and intending separator buyers are hereby advised that at Winnipeg Industrial Exhibition just closed there was no test of cream separators nor any award of merit offered for them. The same is true of every fair held in Canada up to this date, and will apply to all exhibitions to be held throughout Western Canada for the balance of the current year.

This warning seems advisable in view of past misrepresentations by certain unscrupulous separator manufacturers claiming to have received for their machines an award where none of any kind was made for cream separators. Confirmation of the statements made herein may be had by simply addressing a letter to "The Manager" of the Winnipeg or any other fair at which an award of merit may be claimed to have been offered or received.

WINDSOR BUTTER SALT

The Farmer's Daughter

knows how important it is to use the best salt in butter making. She knows that WINDSOR BUTTER SALT dissolves quickly and completely, and works in evenly.

She knows that WINDSOR BUTTER SALT makes the richest, creamiest Butter—improves the flavor—helps to make the butter keep better.

At all the big fairs last year, practically all of the prize winners used

Windsor Butter Salt

Put "BT" Stanchions and Steel Stalls

In Your New Stable

They will make your stable NEATER, BRIGHTER, MORE SANITARY, AND MUCH HANDIER TO WORK IN than any other construction you can use. No other tie is as comfortable for the cows as the "BT" Swinging Stanchion. No other tie keeps them as clean, for they cannot move back and forward in their stall, but at the same time they are perfectly free to get up or down and to card themselves.

The "BT" Stanchion is made in five sizes and can be used with wood frame construction if desired.

Write for our free catalogue, giving full information how a stable should be laid out, how it should be ventilated and how to lay cement floors properly. Write to-day and let us know how many cattle you tie up.

Our great illustrated book on the Telephone sent Free to anyone writing us about any new Telephone lines or systems being talked of or organized.

We have a splendid money-making proposition for good agents.

The Dominion Telephone Mfg Co., Ltd. Dept. Q, Waterford, Ont., Canada.

The Full Percentage of Cream

Getting the full percentage of cream from milk depends as much upon the oil used to lubricate the separator as upon the separator itself. Gummy oil will cut the fine bearings of your machine, spoil its balance and waste good cream in the skim-milk pail.

STANDARD Hand Separator Oil

never gums, never rusts, never corrodes. It feeds freely into the closest bearings and insures the perfect lubrication that is essential to the free spinning of the bowl and the complete separation of cream from milk. It lessens the driving effort and lengthens the life of your separator.

One gallon cans. All dealers. Or write to

The Imperial Oil Company, Limited

Alma College Educates Its Students Thoroughly

and sensibly. It is a College-home, where intellectual training is reinforced by religious and physical development.
