

INSTALL ELMORE PLANT CITY'S BRIGHT PUPILS

Columbia Avenue Premises Being Fitted Up For Experiments--Hand Plant a Substantial and Costly Affair--Tests Already Arranged For.

Experiments to determine the amenability of Rossland ores to treatment by the Elmore oil process of concentration will be an accomplished fact in Rossland within the next week.

H. Hayman Claudet, local representative of the proprietary company, is making rapid progress with the arrangement of the offices to be occupied by the Canadian Oil Concentration Company, and which will house the experimental apparatus to be used. The premises are located opposite the Goodeve block in the quarters formerly occupied by the Dominion Express Company, and a force of carpenters and electricians is now in charge. When completed the offices will be comfortable and well adapted to the work which Mr. Claudet will carry on in behalf of his company.

A section of the hand plant is already set up, and the final work in this particular will easily be completed next week, so that the experiments can be commenced. The plant has been facetiously referred to as a "coffee mill," but on examination it proves to be of a decidedly substantial nature, and capable of producing results with the amount of ore it is intended to handle that are identical with those accomplished in a mill on a commercial scale. The gross weight of the various machines is probably not far from 2000 pounds, so it will be seen that the "coffee mill" is on a somewhat substantial scale. Moreover, the machinery is strongly built and of a costly nature. Two crushers are provided, both of which are the best appliances of their kind manufactured. The mixing machine, in which the crushed ore is mixed with the oil,

is a four-foot drum of galvanized metal provided with interior apartments that complete the agitation. The heaviest and most expensive feature of the hand plant is a centrifugal machine which conducts the final processes. This is built on a heavy iron base and is provided with high gears, making it possible for the rotating compartments to attain a speed of no less than 2000 revolutions per minute. An electric motor will be installed to impart the necessary power to this machine. The arrangement for storing samples turned out are very complete. Two large tanks are provided for the oil to be used in the process. This commodity is a thick, dark oil, costing but seven cents per gallon at the refinery, but which costs at present some twenty cents per gallon laid down in Rossland. It is believed that if the oil is used in any quantities that the freight rates, which constitute the principal portion of the enhanced charge, can be substantially reduced.

Arrangements have already been made on tests of several ores, and these will be put through as soon as the plant is ready for operation.

If results are attained in the Rossland camp equal to those claimed for the Elmore process elsewhere, it goes without saying that the system will be adopted by several properties on a considerable scale. The tests of British Columbia ore conducted in England are said to have been most satisfactory, and in this event it will only be necessary to convince the companies interested that the process is what they desire.

The progress of the various experiments will be watched with keen interest.

List of Public School Pupils Who Have Earned Promotion to Higher Grades by Good Work During the Term.

The promotions in the public schools are announced, and The Miner appends herewith a list of the pupils who have been successful in securing promotion to higher grades.

In connection with the examinations it may be mentioned that in accordance with recent amendments to the School Act, written examinations were dispensed with save in the case of one class. In all other classes promotions have been made on the recommendation of the respective teachers, augmented to some extent by oral tests.

School closed yesterday for the Christmas holidays. The classes will be resumed on January 5, this being the date fixed by statute.

The list of promotions is as follows, and includes the names for both schools in alphabetical order:

JUNIOR TO INTERMEDIATE.
Concord Beaulieu, William Beverly, Mildred Blesell, Helena Burritt, Louis Glazan, Eliza Grant, Frank Hobbs, Bertram Knott, Arthur Larson, Hilvo Lihlo, William McEaren, Donald McLean, James Mitchell, Rosie O'Hearn.

INTERMEDIATE TO SENIOR.
Theodore Blochberger, Harriet Boulton, Reggie Bradshaw, Francis Brown, Marguerite Coffey, Lillie DeMath, Otto DeMuth, Flossie Donohue, Alice Ferris, Olga Freeman, Minnie Goninan, Margaret Goodeve, Ida Grant, Yanna Helgason, Clayton Hicks, Eva Hoskins, Margaret Jackson, Eddie Keefe, Gaston Lalonde, Lena Lee, Sarah Lee, Diana Madors, Bessie Morgan, Herman Nicholson, Stanley Northey, Frank O'Neil, Horace Raymer, Alma Rønquist, Fannie Ross, Gladys Stewart, Harry Tippet, Ernest White, Orva Yarborough.

SENIOR GRADE--FOURTH YEAR TO ENTRANCE CLASS.
Flossie Agnew, Walter Blochberger, Herbert Boulton, Annie Inches, Christina Larson, Margaret Lawler, Harriett Layton, May Morrison, Florence Nicholson.

Nelson Woman Deserted Five Young Children

Here is the strange story of a Nelson woman's desertion of her five young children. The information is contained in a despatch from Colfax, Wash.

Five children, ranging in age from three to ten years, have been deserted by their parents and are being sent to kind homes with strangers. The children are those of a woman who was known as Mrs. McDonald and who claimed her husband in Australia, where she was to join him with the children. The youngest child, a bright little boy of three years, was today sent to Spokane to be cared for by the Washington Home Finding Association, which had previously taken two of the children. The oldest, a girl of ten years, is being kept by Miss Emma Stark of Colfax. More than a year has elapsed since Mrs. McDonald came home from Scotland to look for her husband with the family of Daniel Dobbins, a farmer, with whom she was acquainted in British Columbia. She resented to join her husband in Australia, but must first return to her childhood home in Scotland to see to the settling of an estate from which she was to receive a large sum. She persuaded Mrs. Dobbins to advance her the money with which to go to Scotland and to take care of her five children while she was gone. She left here in November, 1901, more than a year ago. Mrs. Dobbins received one letter from Mrs. McDonald last April. In this letter Mrs. McDonald claimed to have been taken seriously ill and was in a hospital in Brooklyn, N. Y. Nothing more was heard from her, and a letter was addressed to the management of the hospital and brought the information that the woman had never been an inmate of the institution. A letter addressed to the attorney whom she had said was in charge of the estate brought the reply that Mrs. McDonald had not returned to Scotland and her whereabouts were unknown. No word has ever been heard from Mrs. McDonald, nor is his address known to those who had the children. The Washington Home Finding Association was appealed to and found homes for two of the children, and today the youngest was sent to that institution. Manager Williams, of the Home Finding Association, had written to the relatives of Mrs. McDonald in Scotland, asking if they wish the children. Mrs. McDonald represented herself as being a member of a well-known Scottish family, well supplied with this world's goods, and had been well raised and to be a woman of refinement. No one suspected she was trying to desert her five little children, but her strange actions have convinced those who knew her here that it is a case of wilful desertion. The children are exceptionally bright and well-behaved.

Lewis Roberts, Smelter hotel, Boundary Falls.
W. O'Brien, Vendome hotel, Anacoda.
James Henderson, Algoma hotel, Deadwood.
Thompson and Hodskinson, Columbia hotel, Deadwood.
C. E. Roberts, Columbia hotel, Eholt.
G. E. Rendell, Hotel Northern, Eholt.
J. A. McMaster, Union hotel, Eholt.
Norman Luse, Summit hotel, Eholt.
Fred Kaiser, Commercial hotel, Eholt.
W. M. Ludlow, Oro Deano hotel, Summit.
R. V. Chisholm, Windsor hotel, Summit.
W. H. Dismore, Globe hotel, Fourth of July camp, near Summit.
C. K. Simpson, Wayside hotel, near Columbia.
C. H. Thomas, Cascade hotel, Cascade.
Paulson Bros., Paulson hotel, Bonanza Siding.
H. M. Rumball, Castlegar hotel, Castlegar.
John McLaren, Grand Prairie hotel, Carleton Place.
NEW LICENSES.
Phil McDonald, Oakland hotel, Midway.
Sam McOrmond, Miners Exchange hotel, Eholt.
Morin & Thompson, Hartford hotel, Hartford Junction.
Thomas Price, Price's hotel, Pife.
Eli Lavalley, Christina hotel, Lavalley's Landing.
The first three licenses are granted subject to conditions as to furnishings, fees and proofs of bona fide, while the others are granted without special conditions.

To Build Up the Knob Hill Addition

That several of the well known business men of the Golden City believe that the city has a glorious and prosperous future in store for it in the year to come and is not going to the demerit bow-wows, as some of the pessimists would have us believe, was amply evidenced during the past week, when the Knob Hill Addition company, a real estate concern that owns considerable property in the neighborhood of the school house and the White Bear, almost completed arrangements for building in the section owned by them, during the next few months, some thirty dwellings.

The Knob Hill Addition company is headed by Harry Daniel and several other prominent citizens of the Golden City. When seen yesterday regarding the story of proposed building operations in the Knob Hill section, Harry Daniel, speaking for the rest of the members of the company, said that if the present arrangements went through he looked to see the first work in a building way started within a month from today, if not sooner. At the present time the only hitch to the scheme that has been encountered is the price of lumber now prevailing. The company has given a local lumbering firm a certain mark which, if met, will mean an early start in the building line.

"I think," said Mr. Daniel, "that Rossland has a glorious future ahead of it. The town has seen all the dog days that it should. Concentration and other means of treating Rossland low grade ore will soon be an assured fact, and with capital this is sure to flow in. I think that in a short time quite a few of the mines that are not now even working, will be shipping, which will mean quite a bit for the camp. It is because that I think the camp will go ahead that I am ready and will commence building up that section of the city known as Knob Hill addition. At present the section is sparsely populated and has but few buildings.

"What the company propose to do is to erect within a short space of time something like thirty dwellings. Xerox is handy, and connections with the city main can easily be secured, so that there is practically no difficulties to overcome. The houses will all be four-room dwellings, but can be easily extended and more rooms added should tenants desire such extensions.

"We have all the plans laid for the dwellings, so that there is nothing outside of the lumber question, to hinder us from starting in to build at an early date. We expect to have all the houses erected by March at least. The addition is a handy one for miners, and, as several of the properties of the camp, I understand, will resume work or start shipments beginning with the new year, I can see no difficulty ahead for us in the way of filling the houses when once completed."

SAILS FOR VENEZUELA.
HAMBURG, Dec. 20.—The German steamer Siberia sails for Venezuela December 23, taking a complete crew for the captured Venezuelan cruiser Restaurador, besides large supplies of ammunition and coal and a number of new officers for the German cruiser squadron, now in Venezuelan waters.

A Scramble to Become Naturalized

Judge William B. Townsend has returned from a trip to the Boundary, whether he went several days ago to attend the meetings of the licensing board, of which he is a member. The board took up the applications for renewals and new licenses as presented, and made the awards enumerated in The Miner a couple of days ago.

An interesting point in connection with the license board came up as a result of the recent amendment to the statute relating to license holders, by which it was stipulated that all applicants must first satisfy the board that they are on the provincial voters' list. As a matter of fact almost all the license-holders were American citizens, or a large number of them were at all events. Many took out citizenship papers, but were too late to be placed on the voters' list. Under the strict interpretation of the statute, their applications must have been refused, but the facts were placed before the attorney-general by wire, who decided that in all the cases the taking of such steps as indicated showed an intention of complying with the amended regulations was to be accepted as complying therewith. On this understanding the board proceeded with its work.

RENEWALS GRANTED.
S. T. Larsen, Riverside hotel, Rock Creek.
S. Dahl, Central hotel, Midway.
L. E. Salter, Spokane hotel, Midway.

John Albi, Commercial hotel, Midway.
Thomas Wake, Boundary Falls hotel, Boundary Falls.

Fire did much damage in a short time last night at the residence of William M. Wood, customs officer, on Butte street, a couple of doors south of Columbia avenue.

Mr. Wood had been in the shack and had lighted a fire. He then went to a neighbor's, where he boards. It was during his absence that the fire from the stove was communicated to the ceiling of the shack, and set the whole building ablaze. The business man coming in an alarm from box 51. Before the fire department could reach the spot, the building was blazing vigorously. A line of hose was laid from the corner and the department proceeded to drown the flames, in which they succeeded within a few minutes.

The contents of the shack were destroyed by fire, water and smoke. Mr. Wood estimates his loss at \$400. Mr. Harper, of McArthur & Harper, was also an occupant of the premises, and he lost practically all of his personal effects, valued at \$200. No insurance was carried on the house or contents.

The bright glare of the fire attracted several hundred citizens to the spot within a few minutes.

The bright glare of the fire attracted several hundred citizens to the spot within a few minutes.

quest could not be acceded to. The point raised in objection was that the understanding when the fund was floated was that it should be absolute-ly non-sectarian and that to maintain the spirit of this understanding, it would be impossible to devote any portion of the aggregate to a church, even if the latter's proposal was fully in line with the memorial idea. Another feature is that the memorial committee is likely to be a couple of hundred dollars short of the amount necessary to complete their plans for a memorial fountain in this city, which makes it especially desirable to secure the \$150 thus left unexpended. At a committee meeting yesterday afternoon a resolution was adopted requesting the New Westminster church committee to refund the sum in issue.

The Committee Wants Its Money Back

The amount available for completing the "Father Pat" memorial fountain now contracted for will probably be augmented by the sum of \$150, which the committee in charge of the fund is endeavoring to secure.

It will be remembered that some months ago application was made to the Rossland committee for an appropriation out of the general fund for the purpose of defraying the cost of installing the remains of the late Rev. Mr. Irwin and for erecting a tablet over the grave. The executive voted \$150 toward the object specified, and the amount was forwarded to the authorities of the Anglican church at the coast.

When the relatives of the deceased gentleman learned of the circumstances they insisted upon paying all the expenses in connection with the matter themselves, and declined courteously to accept the sums put aside by the church and the Rossland committee.

The committee was notified of this effect, and the suggestion was made that the sum already in the hands of the ecclesiastical authorities should remain there and go toward defraying the cost of a memorial window. The matter was considered by the local committee, which decided that the re-

quest could not be acceded to. The point raised in objection was that the understanding when the fund was floated was that it should be absolute-ly non-sectarian and that to maintain the spirit of this understanding, it would be impossible to devote any portion of the aggregate to a church, even if the latter's proposal was fully in line with the memorial idea. Another feature is that the memorial committee is likely to be a couple of hundred dollars short of the amount necessary to complete their plans for a memorial fountain in this city, which makes it especially desirable to secure the \$150 thus left unexpended. At a committee meeting yesterday afternoon a resolution was adopted requesting the New Westminster church committee to refund the sum in issue.

THE AMERICAN HENLEY.
NEW YORK, Dec. 20.—A circular just issued, says a Times dispatch from Boston, announces that at the American Henley, to be held at Palisades, July 2, races will be held for singles, doubles, fours and eights, and the present classification of oarsmen into juniors and seniors probably will not be adhered to.

CITY NEWS

WRONG MAN—
The defendant in the police court case yesterday charged with being drunk and abusing his family was William Funk, Sr., not George Funk, Sr., as inadvertently stated in The Miner. The charge was laid by the family, who ejected the defendant from the house.

CURLING MATCHES—
Several interesting scrub matches were played yesterday at the rink by members of the Curling Club. A tie match was played last night, the time limit putting an end to the contest. During the week the work of the curlers has shown constant improvement, some excellent practice matches resulting.

A DANCE—
A very enjoyable dance was given last night by Louis Blue out at the Fernside house. Quite a few Rosslanders went out to the dance in sleighs, making the affair a sleighing party as well as a dance.

DOING WELL—
Thomas Fitzmorris, who was taken to the hospital yesterday suffering from a paralytic stroke, is doing nicely and expects to be out within a short time. He is being looked after by the local Aerie F. O. E.

LICKED THE BOYS—
George Funk, senior, was run in by Patrolman Stewart last night. The old gentleman shipped a cargo of red-eye and proceeded to administer discipline to his sons, creating considerable disturbance in the performance of his painful duty.

FROM SOUTH AFRICA—
J. H. Hole, who left here quite a while ago as one of the Rossland recruits to the contingent of the Canadian Mounted Rifles, returned from South Africa last night, after spending some time in the east. Hole saw considerable service in South Africa, but has returned little the worse for the experience.

HAMMER SLIPPED—
Scott Lintner, a popular employe of the Le Roi, was painfully hurt yesterday afternoon while assisting to repair a drill. His partner struck a burr with an eight-pound hammer, which glanced and struck Lintner in the face. An ugly gash was caused, but fortunately the injury will not be serious.

COURT CHAMBERS—
Judge Forin came over from Nelson yesterday to attend court chambers, but met with an almost empty docket when he visited the court house. Only one matter came up before him yesterday. It was an application to issue a writ for service out of jurisdiction. Judge Forin granted the application.

CONVALESCENT—
The many friends of Dr. Sinclair in this city will be pleased to learn that he is now on the highroad to recovery and expected to be about within a very short time. Dr. Sinclair has been free from pain for almost a week, which the physicians attending him think a very favorable sign.

TWO ALARMS—
The fire department was called out twice yesterday. The first alarm was at 6 o'clock a. m. from the Opal block, where a chimney was blazing. The department's services were not required. The second call was at 9 a. m. from the residence of Fred Blair on Second avenue. A blaze originating in some unknown manner did \$25 damage, but was prevented from spreading from the kitchen, where it originated, into the main part of the house.

LOCATED IN IOWA—
Rev. Dr. Robinson, formerly pastor of St. Andrew's church here, has received and accepted an unanimous call to the pulpit of the Second Presbyterian church at Dubuque, Iowa. The city is a thriving centre of 28,000 inhabitants, and the Second church is the leading congregation of the denomination there. Mrs. Robinson and family leave for the east in a week or ten days to join Dr. Robinson.

FEAR FOR DEER—
An old prospector and trapper states that the present heavy snowfall, more marked on the hills than in the city, is likely to seriously affect the deer before the end of the season. He expects to see the deer "grand up" a month earlier than usual, and this means that the animals will be so weak from lack of food before the snow goes off as to fall an easy prey to the bands of timber wolves that haunt the yards. The hunter in question is using his rifle on timber wolves more assiduously than usual for this reason.

ARRESTED AT RINK—
A man giving the name of Thomas Burns was arrested at the skating rink Friday night by Officer Stewart on the charge of stealing, the complainant being T. H. Gowman. Burns was arrested for the theft of a pair of rubbers which were taken from a pair of shoes in the men's dressing room. T. H. Gowman recognized the rubbers in possession of Burns, and at the suggestion of Caretaker Williams had the man arrested. During the last skating season, the rink management were greatly annoyed through the prevalence of petty stealing. This year they intend stopping the practice at any cost.

PAINFUL ACCIDENT—
Kenneth L. Burnett, a surveyor of this city, was brought in last night from Burnt Basin suffering from injuries received while surveying a claim owned at that point by Paulson Bros. The accident to Burnett was caused by a tree which fell just as the workmen were finishing the process of clearing the way for the surveyor. Burnett was directly in the road of the tree, and having snowshoes upon his feet, could not get away in time to save himself. He, however, had presence of mind enough to throw himself behind a stump, which saved his head and shoulders, and probably his life. The tree struck Burnett on his left side, but fortunately, broke no bones. Dr. McKemie, who attended the injured man on his arrival in this city, said that the injuries consisted of bruises of the soft tissues on the left side and that there were no bones broken. If internal injuries have not been sustained by Burnett, the doctor expects he will be about within a comparatively short time.

NEWS FROM CITY OF GREENWOOD

(Special to The Miner.)
GREENWOOD, B. C., Dec. 17.—A marriage licence was issued yesterday to Joseph Christian of Hartford Junction and Alice Boler.

Val Haynes came in yesterday with a band of 133 beef cattle for P. Burns & Co. This is the last lot of Ellis' cattle that will come in from the Okanagan this season. Already winter feeding of the cattle has commenced at Pentiction. Burns & Co. have efficient beef in stock to about last week, but are putting in a new lot of cattle.

Customs Officer Gardom of Midway will shortly leave for Enderby, where he will spend a holiday vacation with his parents. He will be accompanied by Mrs. Gardom. During his temporary absence his duties at Midway will be attended to by Mr. McPhail, who will also be on duty at the time.

Will Haynes, well known along the boundary line from Midway to the Similkameen, has been appointed a provincial constable. He will be stationed at Hedley City, where the owners of the Nickel Plate group of mines on Twenty-Mile creek are putting in a stamp mill and other works, and will patrol duty up and down the Similkameen river from that point.

W. O. Miller of Vancouver, C. P. R. fuel agent and car inspector, has just completed an official visit to the Boundary. From Grand Forks he took a trip to Republic. From him it was learned that recent interruptions in the fuel supply and other obstacles to keeping the smelters running at full blast, have made it difficult to provide for the transportation requirements of the district and yet not have a number of freight cars idle. The intermittent demand, caused by frequent temporary stoppages at the smelters, has been a source of trouble to the traffic department of the district.

An application for a bonus in aid of a foundry and ironworks that the applicant was willing to start at Greenwood under conditions exceptionally favorable to himself, was "turned down" at the last meeting of the Greenwood city council, the aldermen not being disposed to pay so dearly for the establishment of any such industry. The Greenwood skating rink it is opened this week for the season under the auspices of the citizens' band.

GREENWOOD, B. C., Dec. 18.—The necessity for some steps being taken in the direction of preventing the destruction of game to the extent it has been carried on in the Kettle River district above Rock Creek having become quite evident to those who desire to prevent its extermination, a public meeting was held at Greenwood last night to determine upon action that would give promise of having this effect. There was an attendance of between 20 and 30, including several residents of Midway. Dr. McRae was voted to the chair. After a preliminary discussion it was resolved that a citizens' club, and the following officers and committee were elected: President, H. C. Shaw; vice-president, C. L. Thomet (Midway); secretary and treasurer, E. W. Moon (Midway); George Findlay, J. P. Myers-Gray and W. G. Wright. Seventeen of those present signed members' roll, and others in sympathy with the movement expressed a wish to first have before them the constitution and by-laws. It was decided to endeavor to induce as many as possible of the residents of the Boundary district to become members. In the course of a general conversational discussion a number of suggestions were made, but no definite decision upon the various matters considered was adopted, it having eventually been decided to leave it to the executive to bring in a report to the next meeting, to be held on Wednesday, January 7, prox., embodying suggestions as to amendments to the Game Protection Act, etc. A draft constitution and by-laws will be submitted to the same meeting for approval and adoption.

Miss Olga Medill is to be married next Wednesday evening, 24th inst., to George H. Inkster. Intentions are out to the ceremony, which will take place at the residence of the bride's mother, at Anacoda. Both bride and groom are well known in and around Greenwood, they having been residents here for five or six years.

Thomas Burbank, of near Midway, when out on a five day Kerr creek, a few days ago, came on head of kangaroo together in the snow. Having his gun with him he made good use of it, killing three of the group, the others getting away. Since then he has been paid by Provincial Game Warden Agent McMynn the customary bounty of \$7.50 each, on \$22.50 for his bag of three. At the same time he collected the bounty on four coyotes he had previously killed.

THE RAZOR STEEL, SECRET TEMPER, CROSS-CUT SAW.

We take pleasure in offering to the public a Saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than any process known. A saw to cut fast "must hold a keen cutting edge."

This secret process and temper is known and used only by ourselves.

These saws are elliptic ground thin back, requiring less set than any saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is just as good ask your merchant to show you takes them both home, and try them and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel now is now branded silver steel. We have the sole right for the "Razor Steel Brand."

It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these saws are shipped to the United States, and sold at a higher price than the best American saws. Manufactured only by SHURLEY & GALT, Ontario.

GREENWOOD, Dec. 19.—From Fairview comes the information to the effect that an effort is being made to resume work on the Morning Star, a gold quartz property from which in the winters of 1892-3 and 1894-5, 2700 tons of ore were mined and put through the Strathgry company's stamp mill, situated about 4000 feet distant from the mine. From this ore a bullion worth \$31,000 was recovered. The Morning Star is a gold quartz property from which in the winters of 1892-3 and 1894-5, 2700 tons of ore were mined and put through the Strathgry company's stamp mill, situated about 4000 feet distant from the mine.
