Mr. Harrington complained that a Dublin paper had declared that the police would be justified in making him acquainted with the peculiarities of a horsepond. The language, he said, was an incitement to the police to commit violence, and the court should not permit such language to be used with impunity. Mr. Murphy, while not justifying the course of the paper, considered that Mr. Harrington, by calling Sergeant Ryder a merderer and villain, provoked comment. Such lan-guage had never been uttered without eting reproof in any court in the civil-

A Quebec despatch says: The following particulars have just been received of a collision on the Intercolonial Railway yesterday between St. Moise station and Metis: The accommodation train which left River du Loup at 7 o'clock yesterday morning had orders to cross Lebert's freight special at Little Metis. The cross-ing orders were overlooked by both driver and conductor, and when three miles east of Little Metis the accommodation train came into collision with the freight special. Neither of the drivers saw one another until they were but a few feet apart, owing to the curve in the road at this point and the fact that large snow sheds have been erected. The result was that Engineer L. Duncan was instantly killed. Engineer Gorham, of the accommodation, jumped through the window of his cab and broke a leg. The firemen of both trains are severely injured. Both engines and cars are badly smashed. The loss will amount to several thousands of dollars. The road

is entirely blocked and cannot be cleared before Friday night. It is said that the entire blame is attached of the liver and conductor of the accommodation train. There were but few passengers on board the latter, and beyond a severe shaking up none of them were badly injured. The trains were travelling at a speed of about thirty miles an hour. Engineer Duncan was unmarried.

The scene is described by an eyewitness as most thrilling and magnificent At the time of the explosion, without warn ing, a column of blue flame and smoke shot up into the air at least 1,000 feet and extended over acres of ground. The heat was so intense that it was impossible to ap-proach nearer than half a mile. A Detroit despatch says: D troit has a venerable and worthy patriot, with the Barbara Frietchie spirit, in the person of Mrs. Hulbert, of Third avenue, who is nearly 90 years old. Mrs. Hulbert sent four sons to the war, all of whom acquitted themselves with credit, and one laid down his life on the field of battle. The mother is imbued with strong loyalty to the flag. During the meeting of the Army of the Tennessee in Detroit last week a handsome American flag floated from the roof of the Hulbert residence: but one of the grandchildren, in a spirit of mischief; tacked a captured rebel signal flag to the staff above the Stars and Stripes. Mrs. Hulbert saw it, and was indignant. She kept her own it, and was indignant. Shoemakers' Secrets. An old shoemaker tells the St. Louis Globe Democrat of a trick or two in shoemaking which he learned when he was a boy, which appears to be still hidden mysteries to a lot of the fashionable shoemakers. One of these concerns not only the appearance of the shoe but the comfort of the wearer. the shoe but the comfort of the wearer. How many times do you see men's big toes rising in high relief impressions above the surface of the upper? Naturally you feel that the wearer of such a shoe must suffer from the pressure on his big toe, and he does; if not immediately, at some time in the future. The whole difficulty can be obviated by providing a depression in the sole of the shoe into which the toe will fit.

This depression is obtained by fastening a This depression is obtained by fastening a piece on the last and beating the sole around it until it is moulded into it. When the toe is thus cared for there will be no ingrowing toe-nails and no unsightly protrusions of the upper. Another thing that may be interesting to shoe wearers and shoemakers is this: A blistered or sore heel caused by a new shoe may be relieved by taking a small the hand and placing it under the ailing heel. The bit of paper has the effect of a "lift," and forcing the foot forward in the shoe leaves the heel entirely free from the

A ROMANCE IN REAL LIFE.

The Part Love Played in an Albany Mer-

Thirty-five years ago Mr. Barrington Lodge, of this city, was a resident of St. John's, Nfld. Another resident of the same city was Miss Christine Graham, a belle Salem, Mass., June 18, 1864.—My Dear Amelia: I cannot tell you how much I miss you.

It seems as though I had lost all my relatives, including my grandmother and the cooking stove.

Why didn't I put you in a bottle and bring you down here with me? But I am always forgetting something. The other day I went off and forgot my aunt Sarah, and she's a good deal bigger than you are. Mr. Ramsay is also a very forgetful man. He frequently goes off and forgets his washerwoman. Mr. Ramsay is a very fine looking man. He reminds me of Mr. Green, the Malden murderer. When Mr. Green, the Malden murderer. When Mr. Ramsay goes to the penitentiary, which will be very soon, we must send him doughnuts, magazines and other literary documents. Mr. Ramsey can read print very well.

I like you very much. I should like you just as well if you were 12 years older. I am very singular about some things.

You spoke to me about a boy who is my rival. I should feel very sorry to kill that boy, but he may drive me to it. I am in hopes that he will take himself into a premature tomb—that he will choke himself with a large slice of pudding; but if he does neither I shall feel forced to load him with chains and read all my lectures to him. That will finish him. His boots n society. Foremost among her suitors were Mr. Lodge and Mr. Strachan. The does neither I shall feel forced to load him with chains and read all my lectures to him. That will finish him. His boots may remain, but the rest will have perished miserably long ere I get through!

You must be a good little girl and always mind your mother. Never let your excellent mother feel sorry that she is acquainted with you. If it hadn't been for her you might have drowned in a soup plate long ago. And if you hadn't ever had any mother you might be a Turkey with the Turkeys. In fact, my dear Amelia, so conduct yourself that even on dark and rainy days the bright sun may shine wherever you are, and that the stars (which are next to the sun in brightness) may never flash so brightly but that you can always look steadily and hopefully toward them. Faithfully your friend,

WILL THE PRINCE COME ?

imor That the Prince of Wales Will Repeat His Trip of Twenty-seven Years Ago-His Interest in the Dominion.

The London correspondent of the Globe ables: Some journals, commenting on the reported intention of the Queen to visit Canada, urge that a royal visit to the Cominion would be of great benefit to the Chrone and the Empire. A visit to Canada, wever, would necessitate visits to the other colonies, and this would be impossible for the Queen. It is suggested, however, that the Prince of Wales might, with great advantage to the State, endeavor to find an pportunity to visit Canada and the other olonies. I am personally aware that the Trince has long ago taken a keen interest in the progress of the Dominion. He has, this own request, been supplied with the jest available maps of the Dominion, photos of Canadian scenery and other printed information, and, did State exigencies permit, would gladly undertake an intercolonial tour. Doubt, however, is expressed whether it would be possible for him to do so.

A scene on the Nile is thus described by a writer in Scriber; s Magazine: Girls come bearing upon their heads and arms all sorts of articles for sale—eggs, cauliflower, oranges, buffalo milk, lettuce, lentils, living fowls, and what not—such as are stored in abundance upon the deck. Even water is offered for sale. But the crowd which has gathered is for more interesting than their statements. abundance upon the deck. Even water is offered for sale. The town is not yet all awake. Here and there a watchman is found sleeping on his wicker bed in the street or on the portice of a house or bazaar. Farther on groups of early risers are found squatted before a tiny charcoal fire, where they "pool" for breakfast and discuss a dozen dates or a few pumpkin seeds while they watch and wait for the music of the coffee-pot. Even yet it is very quiet. The donkey-boy follows on behind. rather whispering his "oye-pah" than speaking it to his unwilling motor. Occasionally he drops a cabalistic word into the long ears which has the effect of increasing the donkey's speed. "Gehenna" is said to be that awful word. It always seems to be the donkey's speed. "Gehenna" is said to be that awful word. It always seems to be a surprise to the animal, at least, and sometimes causes him to lower his haunches and creep entirely away from his rider. Sorrow and repentance are sure to follow Sorrow and repentance are sure to follow such an occurrence. Now a swirling sound is heard in the air. Your donkey-boy pushes you with your donkey to one side. A lad clothed in white comes running toward you shouting to you to "Get out of the way. Look out for your ears, your eyes, your neck, for my master is coming." Then a white ass appears bearing the sheik of the town. This dignitary, hearing of your arrival, is hastening to the quay to collect his fee for the privilege of driving a stake into his mud. A return to the dahabeeh reveals a swarm of natives, awaiting beeh reveals a swarm of natives, awaiting all on the same mission as that of the sheik. The case is a hopeless one, seemingly, for there is more business than you can attend to and keep faith with the spirit under which the journey was undertaken. Your cally salvation is in reci taken. Your only salvation is in reci-procity. Hat in hand and with heart-rending voice, therefore, beg backsheesh yourself if you would drive the enemy from ou long enough to escape to your deck.

In the course of the argument of Mr.

The Chief Justice emphatically denounced such a course as iniquitous, and said he would immediately adjourn th case if such a right were asserted for the Crown, but as Mr. Hogg did not press the point the argument proceeded, and was not concluded when the court rose.

He was an unsuccessful opponent, in the Conservative interest, of Mr. John Watterworth for the representation of West Mid-llesex in the Ontario Legislature several years since, and took an active interest in party politics.

"IT is one of the essentials of literary success in England that a writer should never go into political life," writes Max Eliot in the Boston Herald. " I was informed that Justin McCarthy had made many noble sacrifices for the country so near his heart that his partizanship has already cost him dearly in cutting off the sale of his purely literary works, says my well-informed friend, and it has also de-prived him of some of his journalistic income. The Senator and the Lord.

That noble edifice, the Baptist Church at That noble edince, the Baptist Church at Jarvis and Gerrard streets, is to a great extent a monument of the generosity of the late Senator. It is related that several years ago, when Lord Houghton visited Toronto, he was a guest of Senator McMaster. The Senator took My Lord out for a drive about the city and aroung other for a drive about the city, and among other places of interest pointed out the church, which Lord Houghton duly admired. Upon learning, however, that it was a Baptist church My Lord exclaimed in great wrath: "The assurance of those dissenters!" and refused to look longer.
