the Lungs.

Do you go to Chicago to reach Quebec? No. There's a better and more direct way. Then why try to reach your lungs by way of your stomach? Don't. Better go straight to the lungs at once. Just light the vaporizer and breathe-in the healing, soothing va-pors of Cresolene. The medicine goes exactly to the right place.

Your lungs quickly heal and your cough disappears. For whooping-cough it's simply perfect. Vapo-Cresolene is sold by druggists everywhere the Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, \$1.50; extra supplies of Cresolene 25; cents and 50 cents. Two Authorized Commercial Text Books Contributed to the Class by J. S. Black.

The C. C. I. Cadets will commence drill again next week. 'The Maple City has a fine corps of cadets and, in the hands of Drill Instructor Black, they are bound to round up in good shape before the summer holidays. The Literary Society will meet next Friday at 4 p. m., in III. (A) Class

All the pupils are buckling into work, and studying hard in anticipation of the Departmental Exams., at midsummer. There are 50 pupils in Part I. of the Junior Leaving Class, 50 in Part II., six in the Senior Leaving, and 35 in the Commercial.

The Commercial class is doing good work, and in this room all the branches of business are covered, including typewriting, stenography, business law, book-keeping, arithmetic, grammar, composition, spelling and his-

J. S. Black's two excellent works on book-keeping are used in the commer-cial class. These books are a tex-book on bookkeeping and sets in Practical Book-keeping. The first is devoted to single and double entry and also explains all business forms. The Sets in Practical Book-keeping is an improve-ment on an American idea. This book contains everything in the form of notes, cheques, drafts, etc., and merchandese, is also represented by de-tachable slips of paper. The pupil is thus instructed in actual business methods. He buys, sells, uses cheques, notes, bank drafts, etc. A special feature of the Look is that id contains, and thus the pupils use, facsimilies of the cheques of all the chartered banks of Ontario. The invoices and account slips are copies of those used by firms engaged in actual business. The in-Canada Fibur Mils Co. are used this book. The instruction in the commercial department at the C. C. I. if thorough and, as Mr. Black put it,

the pupils were not able to mistake a shipping tag for a sight draft. Both Mr. Black's books have been Black's books have been authorized by the Education Depart ment and are in general use through-out the collegiate institutes of Ontar-io. The Windsor, London, Hamilton, Throate and other schools are using them. This is a decided complithem. This is a decided compli-ment to Mr. Black's ability, since the book on Sets in Practical Book-keepings has only been out of the publisher's presses since October. During December Mr. Black's text-book on Book-keeping and Business Forms was authorized by the educational departments in New Brunswick, Nova Scotia, Prince Edward Island and British Columbia. Mr. Black well de-serves the success his books are meet-ing with throughout the Dominion.

somewhat interesting case occur the attention of the Division

A somewhat inderesting case occupied the attention of the Division Court at the late of the Division Engineer for Howard, made an award under the Ditches and Watercourses Art on what is known as the Pangburn appealed from this award and the appeal was heard before His Honor Judge Bell. On the opening of the court the judge directed that the appellant pay into the township clerk's hands \$8 by way of security for the costs of the appeal. After taking some time to consider the case Judge Bell gave his judgment, making changes in the award, and directed all parties to pay their own costs. Mr. Pangburn then applied to the township council for the return of the \$8 paid in as security foir costs, but the council retused to give him the amount paid in and so the action was brought to the division court. His Honor, Judge Woods, decided that Mr. Pangburn was intitled to the money paid in as security for costs, and so gave judgment in his favor. L. J. Reycraft appeared for Mr. Pangburn, and H. D. Not long since Mr. Johnson chanced to be in Porter's drugstore, in Bridgewater, when a case of Dr. Williams' Pink Pills was being consend and he remarked to ter's drugsstore, in Bridgewager, when a case of Dr. Williams' Pink Pills was being opened, and he remarked to the clerk: "I saw the time when a dozen boxes of those pills were of more value to me than the best gold mine in the country." A reporter of the Enterprise happened to hear Mr. Johnson's rather startling remark and asked him why he spoke so highly of the pills. Mr. Johnson's statement was as follows: "About four years ago I was attacked with la grippe which kept me from work about three weeks. I did not have it very hard apparently, but it left me weak all the same. Anyhow, after losing three weeks I concluded to go to work again. The mine I was working in was making a good deal of water and I got wet the first day. That night the old trouble came back, with the addition of a severe cold. I managed to get rid of the cold, but the whole force of the disease settled in my stomach, kidneys and insiste and bold broke out on

cold, but the whole force of the dis-ease settled in my stomach, kidneys and joints, and boils broke out on my body and limbs. My back was so weak I could scarcely stand alone, while food in every form distressed me, and I became so nervous that any unusual noise would overcome me. I tried several sorts of medi-cines but none seemed to do any cines, but none seemed to do any good. I next went to a doctor. His medicine helped me at first, but after a short time lost its effect. He then ch nged the medicine, but with no better result. About this time a clergymen who called at the house advised me to try Dr. Williams' Pink Pills. I got a box and used them, but they did not materially benefit me. I had now been some weeks idle and was feeling desperate. A friend strongly advised me to go to a hospital for treatment and I had just about decided to do so when an acquaintance learning I had taken but one box of the pills suggested that I should try three boxes more before giving them up. The matter of money decided me on trying the pills again. I got three boxes and when used I was quite a bit improved. Could eat light nutritious food, slept better, and felt noticenbly stronger. But I was still an unwell men. As the pills were doing a good work, however, I sent for eight more boxes. I continued using them till all were gone, when I felt that I was restored to health. All my stomach trouble had disappeared, I was fully as fleshy as before the first attack of la grippe, my nerves were solid as ever, and I knew that work would give strength to my muscles. So, after about six months, I went to work again and have not had a sick day since.
