The Union Advocate. Established 1867.

NEWCASTLE, MIRAMICHI, N. B.

WEDNESDAY, SEPT. 24, 1884. Funds Needed.

We have on our books, the names of number of persons who are indebted to this office on account of subscription to the really must obtain a settlement. We do not refer so much to patrons from whom we have received favors during the present year, but to others whose accounts have been running one or more years. We have always endeav ored to deal leniently with those indebted to us, having only on one or two occasions taken legal steps to recover amounts due.

In the case of many this leniency must cease, as we are really in need of funds. We are willing to accept even a portion of the amounts due us (in some cases dating back amounts due us (in some clases along oche several years) but unless these parties make some effort to pay off their indebtedness, we shall be compelled though reluctantly, to obtain a settlement through other hands.

We have no desire whatever to put any persons to trouble or inconvenience, but really a welcome on his return from Engcustomers with whom our patience is well-

THE SCOTT ACT.

" MENTOR's" communication in the last issue of the Advocate is various- from England so that he would reach ly commented upon, according to the Toronto when the Industrial Exhibiway in which the Scott Act may be tion was in full blast, several thouviewed, by those who read the corres- sand people congregated from differpondence. There can be no doubt it, and when, therefore, an imposing demonstration of persons present for that the Act is openly violated in this a very different purpose might be County, and that while it may be, made. But when the farmers and citizens who dined, and wined, and charged and citizens who direct, and wined, and citizens to assist in securing the proper observance of the laws of the calmly on the claim of that gentlecountry, it does appear to us that the man to their approbation, they can duty of enforcing the Scott Act in Northumberland is more particularly ludicrousness of the whole proceeding. It was this same Mr. Mowat, the duty of the Board of Commis- who now poses as the saviour of the sioners appointed under the Dominion province from disintegration, who License Act of 1883. It is therefore obstinately refused for twelve long from one of our staff (who was then seeker, the writer desires to call the at only natural that the inaction of the years to permit the boundary case to rambling in the vicinity of the beautiful seeker, the writer desires to call the atonly natural that the inaction of the be carried to the Privy Council, who Board has given rise to no little forcibly took possession of the dispucomment, and creates surprise among ted territory less than two years ago, In this issue the writer will pay attention for that purpose to be found along the operative in this County. Much as hold it against all the civil and miliit may be regretted, the inaction of tary power of the empire, who the Board is not so much the result on every platform in the province members are charged, as its apparent and universally respected tribunal, in force. In some counties the Com- victory we do not believe. missioners have proceeded against offenders, notwithstanding this fact, pathy with the majority whose desire

It will be remembered that in June Supreme Court at Ottawa for the ready to argue the case, (as alleged at the time,) an extension was acceded to, September being the time be reached. September is hereyesterday was the day fixed for the matter to come up before the Judges a prompt decision will be arrived at. whatever that decision may be, so that the people may know just where they do stand with regard to temper-

The Commissioners in this County are unwilling to proceed with their under which they were appointed, is determined, in consequence of information emanating from the Department of Inland Revenue with reference thereto. The Department issued from which we take the following extract for public information :-Your attention is also drawn to the

view of which the Department is not in a position to authorize or become responsible for any prosecutions for the infringement or violation of the Act. Personally I have no doubt that, should the validity of the Act be affirmed by the ministration of its provisions, whether those provisions relate to Districts with-in which a revenue shall accrue, or for districts within which, owing to proh itory legislation, no such revenue can expected. At present, however, the provision has not been made, and until the whole question in all its bearings has been considered by the Government

fairly good law which was never is the organ's motto. faithfully carried out, the provisions of which, if rigidly enforced, would

The Mowat Reception.

(Montreal Herald.) The reception given to the Premier of Ontario in Toronto on Tuesday was magnificent. Delegates from all parts of the Province assembled to do him honor. It is estimated that there were twelve thousand fifty thousand were in the Queen's Park when the addresses were read

and the speeches delivered. There are very few unprejudiced persons in the Dominion, no matter whomsoever they were assaulted. boundary dispute to a successful issue that he has received so warm

As a party move, the demonstration at Toronto yesterday in honour of Mr. Mowat, was skilfully planned and carried out. The Premier shrewdly fixed the time of his departure

Editorial Notes.

A short time ago we published a letter

the Board is not so much the result on every platform in the province of the indifference with which its for seeking a decision by a competent want of authority to grapple with the question at issue, on account of the new celebrates to that Privy Council persuaded that artificial fish breeding is sheet of water for sailing, good shore validity of the Act under which they sought a decision twelve years ago. were appointed having been challenged. On this point of validity rests the power of the Board to deal any sane man can have taken part ed lower down the beautiful brook on with offenders against the Dominion in it without laughing in his sleeve which the old hatchery stands; the new regularly held, and which is within five minutes walk of the station and several License Act; or against the Scott at the adroitness with which defeat site being much better for the purpose, minutes walk of the station and several Act in the counties where that law is had been given the appearance of both as regards appearance and convenience. Looking at the old building, so small and badly lighted, one is led to where they will find on personal examina. wonder that the caretaker succeeded as tion that the natural advantages associat well as he did under such unfavorable ed with this favored locality, are in

but where this has been effected the it is now generally known that the circumstances. The new hatchery will signed, another proof of the Govern appliances for hatching out about five of construction for Mr. J. T. ment's sincerity in this matter. It millions of fish annually, and will, it is the old store now being found too small to be no unnecessary delay. The contract price is said to be \$75,000. It is reported that the line is to be It is reported that the line is to be and a quarter of young fish. Of these graded by the 31st December next, some 20,000 were conveyed with great and ready for track laying by the care to the Nepisiguit river, and safely work completed by the time given, 000 eggs to the hatchery at Grand Falls and yet the Advance, Mr. Snowoall's last winter. In the Restigouche under mouth piece, is made to say that the excellent management of Mr. Alex. "everybody knows the Branch canMowat, the young salmon are conveyed to their destination in cribs-a sort of miles of railway in the space of four punt or narrow scow, divided into commonths at the very least is an imposslides—which are towed along the stream Mr. Snowball, as is generally under- As soon as the first distributing point is stood? If it does in this matter, the reached, a slide is lifted and the young question may well be asked—Then fish dart out of one of the cribs into the river and speedily disappear behind and beneath the stones with which the bed of organ says "but it will be done as the river abounds. Thus the distributquickly by Mr. Snowball as possible, ing goes on, until all the cribs are empti-provided no unforseen obstacle ed—a much better plan than conveying in this where it can be carried out should present itself." Probably In tins, where it can be a reservoir in The Department has built a reservoir in are now some two hundred parent taken as soon as the fish mature, which to the hope which animates the organ will be early in November next. The -that the Government will throw up reservoir is a source of attraction, esthe contract. This is doubtless the pecially to the many tourists and plea sure seekers who visit the Restigouche

in quest of sport and health.

Deeside is one of the many beautifu wolves to cease their howling. The spots with which the Restigouche Branch will be built; the signing of abounds—its fine, well cultivated interthe contract—and the evident deter-mination of the Government to have vales showing to advantage in contrast with the towering hills which rise so rapidly on either side of the river, while it completed early are evidences of the clear stream which follows its course this fact. As the Branch cannot to the sea between the hills adds to the possibly injure the line on the other picture-a fine subject for the pencil of the artist.

LOVET DALE. No one would think of visiting Restimost charming sections of the Resti-gouche. On either side the lofty hills Western Railway Co. tries hard to them is seen the noble river -rich in place the responsibility of the Derby that wealth which gives it its greatest attraction in the eyes of many who seek its happy retreats, and dotted with verdure-clad islands which add not a little Along the section referred to, and within a mile or so of the Junction of the Restigouche and Metapedia, is

on Friday morning when the word got around that three of the principal stores in town had been be during the night. It appears that the thieves began at the west end of the village, at Smith & Hamilton's store, and cutting a pane of glass from the door opened it and began operations. Several rolls of cloth and clothing and all the money in the drawer (fortunately not a large amount) are missing.— Mr. John Calder's store was next opened by prying open the back door behind and it may yet throw some light on the matter, as it was marked. All the change was here scooped in and a few light articles. The store attacked was Mr. E. J. Smith's. Here the outside door was broken in, but as there was a dog inside it is supposed that the robbers did not like to venture further. They were evidently looking for money and light articles, and so were probably on foot. -Transcript.

A special from Portland, Ore. states that the banking firm of E. J. S. Dan-ford & Co, of Cheney, Wash, closed its doors Thursday. Danford and his wife are both missing, and so are the assets, including the deposits. D. centred in the meeting of the three arrest. The Danfords, it is said, have gone to Victoria. If so, they cannot be arrested. The loss to depositors will reach nearly \$20,000, divided in small sums among people residing in the country. Danford failed in the banking business some years ago in Kansas, and Ainsworth came to his rescue and ransomed him by paying up the cowboy creditors, who threat-ened to hang him. The people of Cheney are fearfully incensed, and threaten to lynch Ainsworth unless SKIERNIVICE, September 16.-After Danford returns and makes their loses the greeting at the railway station good.
