

# THE CONCEPTION-BAY MAN.

(From Willmer, July 31.)

## FOREIGN OFFICE DESPATCH.

ALEXANDRIA, July 23.

The steamer Bombay arrived at Suez from Bombay this morning.

The following intelligence from the *Bombay Standard* of July 3, 3 p.m., has reached this by telegraph:—

Sir Hugh Rose reached Gwalior on the 16th of June from the south west; Brigadier Smith approached it from the south east.

Early on the 17th a series of severe conflicts ensued on both sides of the town.

On the 19th the enemy were beaten and dispersed in all directions, and the town captured by us.

The fort was next day found abandoned.

The Maharajah was conducted in state to his palace on the 19th.

Four of our officers have fallen.

During the four days we had captured twenty-seven guns, many elephants, and a vast amount of treasure.

The fugitives had the Agra force in front; Napier on their rear; Rose and ours on their right and reftank, (qr. left flank?)

A large force under General Roberts left Nusserabad on the 29th, in the direction of Jey-pore, where the mutineers are supposed to be assembling.

On the 13th General Sir Hope Grant gained a brilliant victory at Nawabgunge, near Lucknow, capturing a large number of guns, and driving the enemy across the Gogra.

On the 9th the celebrated Moulvie, for whom £5000 had been offered, was killed.

Order continues much disturbed.

The Governor-General, on receiving Lord Ellenborough's despatch, issued a proclamation giving amnesty to all but murderers. The results are not yet known.

Telegraph arrived by the Wanderer on the 28th of July, 4 50 a.m.

STOPFORD, Rear-Admiral

## THE CONCEPTION-BAY MAN

WEDNESDAY, AUGUST 18, 1858.

We have read with deep and absorbing interest the proceedings, of our St. Johns Citizens upon the occasion of the landing of the Atlantic Telegraph Cable upon our shore.—The welcome to the noble mariners, who, most providentially, were enabled to accomplish the vast enterprise was, as it should be, profound & enthusiastic: the addresses were admirable expressions of the universal feeling on the occasion, and the replies at once subdued and dignified, were the frank avowels of men who knew that they had earned the meed of praise, but would still deprecate its excess and devoutly ascribe the whole to that benign power, by whom they had been protected and permitted to succeed. The St. Johns press too entered into a generous rivalry on the occasion and all appeared actuated by the same spirit of candid and approving sentiment, and this disposition was in some instances still further elevated, by the endeavour to rectify the injustice of omitting to blend the name of F. N. Gisborne Esq. the original designer of the unrivalled project, and the pioneer of vast preliminary undertakings in this Country and in America—with the celebration of its triumphant consummation. Having thus yielded due merit to all, we must take the liberty to remind our readers, that the 'Conception Bay Man' was the first paper on either side of the Atlantic to notify the great event. About four hours after the end of the Cable was landed, our press was employed recording the termination of the world renowned project,—no mean honor for our obscure little paper.

The following hurried observations made on Thursday 5th Inst. we take leave to republish. We have delayed this publication to be amongst the first to notice the greatest triumph of science and maritime perseverance over natural obstructions and difficulties, which has ever fallen to the lot of the press to record—the successful completion of Transatlantic Telegraph Communication. Hail Britannia! Hail Columbia! Henceforth and forever remain the joint guardians of Civil and Religious Liberty, the great promoters of Peace Progress and Civilization throughout the world.

SOME time since we deemed it our duty to notice the scenes of Rowdyism which our streets exhibited, mostly amongst sailors, when we stated generally that such occurrences may be attributed to the foreign practice of drawing the knife upon slight occasions. We have been since credibly informed that the last row was not thus occasioned.—It appears that the police had captured a prisoner, and were conveying him to gaol when a rescue was attempted, and the Spaniards either offered or were called upon to assist the police, which they did, but were ultimately overpowered and maltreated, and the prisoner rescued from the police.

It will be satisfactory to the Inhabitants to learn that the Spanish authority in this Island

has been promptly exercised to prevent, at least on one side, all cause of disturbance for the future, it remains for our authorities to act with similar promptitude and energy. The following extract from a letter with which we have been honored by the Spanish Consul is conclusive upon the above point.—

"I have taken every measure that the present state of this Consulate permits, to prevent a repetition of these occurrences, by sending rules for the guidance of the Captains of Spanish vessels to the Vice-Consul of your town, and enjoining him to see that they be properly observed."

(For the Conception-Bay Man.)

"Water, water, everywhere,  
And not drop to drink."

MR EDITOR,—I am surprised that this Town is so badly supplied with water, more especially when I consider that there is a sum of money in the chest for that purpose.—Along with my neighbours I feel the great want of water. Public benefactors should, in my opinion, use their means and influence to afford all of us the benefit of a good supply, as the Health of every town requires abundance, and the better the supply the better will be the state of the Inhabitants. P. P. P.

(To the Editor of the Conception Bay Man.)

SIR,—allow me thro your columns to draw public attention to the great and alarming evil of dogs, generally at this season in a half rabid state, being permitted to go at large; the consequence has been heretofore dreadful, tho alas too soon forgotten. In Barenead a few days, since a little boy, son of James Curlew, aged four years, was so dreadfully bitten in the face, that twelve stitches were required to close the wound, and slighter wounds from the same cause are of no unfrequent occurrence,—then as to animals thirty sheep have been destroyed in one night in Barenead and Port de Grave alone; many persons who some time since possessed ten or twelve sheep each are now without one on this account. Goats have also been destroyed in great numbers, and in some instances calves and even cows: Must such a barbarous state of things be suffered to continue? Dogs are of very little service of late years in winter, and during summer are perfectly useless. If our magistrates possess the power to correct this evil, they should exercise it at once, and if not the sooner that power is conferred by law the better. It is to be hoped that the people are neither so ignorant nor so obstinate but that they would submit to a salutary rule for the public safety and the general benefit. This country is peculiarly adapted for grazing, and goats and sheep would multiply upon our hills but for the cursed dog nuisances. The loss to the country cannot be estimated, and human suffering and even death have often been the consequence.

If this matter were taken up by the press generally I think the remedy would soon be forthcoming. Tho no sufferer myself, on the part of hundreds who are, I respectfully solicit its advocacy and support.

Port de Grave, } HUMANICUS,  
Aug. 14, 1858. }

We last year inserted a communication from a subscriber on the above subject, and endeavoured to draw the attention of the government to the same.

Behind most other colonies in many things, there is nothing which more strongly marks our absence of thorough civilisation, than this abominable and truly dangerous evil. We hear the same complaint repeated from every neighbouring harbour, and even in this place, with our court and crown officer, magistrates and new police force the evil is rampant—the destruction of sheep and goats is a thing of frequent occurrence, and very much cattle have been thus shockingly destroyed. In this neighbourhood not long since, a child was severely bitten.

When some dreadful case of Hydrophobia presents itself to the horrified gaze of the people, the evil may be properly laid to heart, and not before, unless influenced by the considerate or coerced by the authorities. C. B. Man.

To the Independent Electors of the District of Harbor Grace.

GENTLEMEN,—

Called upon by an influential portion of the community whose good opinion I gratefully appreciate, and to whose judgement I feel bound to defer; I cannot hesitate to offer myself as a Candidate for your suffrages, to represent this important district in place of the Gentleman who has lately accepted the office of Her Majesty's Solicitor General of Newfoundland.

The first principle of Responsible Government, I apprehend to be,—Government by the People—when their representatives become placemen it is evident they must waver between their duty to their constituents and their own personal interests, which may be more

readily advanced by a blind subserviency to party or sycophancy to the ruling power, than by a faithful maintenance of the rights and privileges of those whose confidence they forfeit, thus bringing the Liberal or Responsible principle, which they pretend to advocate, into general disrepute.

It shall be my earnest endeavour, if returned as your Representative, to oppose and discountenance by all means such a foul perversion of the spirit of the Constitution, and to this end I promise not to accept of office myself, and to discourage to the best of my ability, the continuance of a practice which has brought so much odium upon the liberal cause.

A Native of the Country, it is scarcely needful for me to express my ardent desire to participate in the Legislation which, morally socially and politically, should elevate my Countrymen, and contribute generally to the comfort happiness and prosperity of the people; and as a Dealer and a Mariner I cannot act otherwise than sustain the particular interests of those with whom I have long been associated, the Sealers and Fisherman of my native land.

Agriculture and its great auxiliary, Good Roads, should certainly engage the earnest attention of the legislature, and I shall neither be dilatory nor parsimonious in supporting the necessary appropriations for these most essential objects.

No Country can rise in the scale of civilisation, or even long remain free, unless a comprehensive and liberal system of Education be generally adopted. Education therefore, shall be deemed one of the primary objects of my earnest attention.

The erection of light houses along our northern line of coast is a subject of vital importance to my fellow mariners, and one in which the Inhabitants of this Bay are deeply interested; my best exertions shall be made to induce the Government to contribute liberally for this laudable, humane, and life preserving object.

Outport interests generally shall be faithfully advanced by me, but the requirements of the district I aspire to represent shall, if successful be the particular objects of my strenuous and uncompromising advocacy.

Reduction of taxation can only take place after the reduction of extravagant public expenditure. It shall be my constant endeavour, if returned, to prevail upon the Government so to effect the latter that the former may be reasonably expected.

I shall avail myself of an early opportunity to express my sentiments freely upon French claims and Labrador taxation.

I have the honour to remain,  
Gentlemen,  
Your most obedient faithful servant  
WILLIAM HAYES.

Harbor Grace, 28th July, 1858.

For the Conception-Bay Man.

MR. EDITOR.

Permit me to publish, once for all my reply to several questions, which have been put verbal to me.

"I returned for this District I will certainly vote for Carter's Bill, for the purification of the Assembly, and assist to carry out its provisions in the most effectual and stringent manner.

"I will further vote either for the removal of duties upon Labrador imports, or in support of the principle of having its permanent settlers fairly represented in the Assembly.

"And I will strenuously oppose the assumption of French exclusive right to our common fishing ground and Harbors, and at all proper times evince my hostility to that erroneous interpretation of Treaty, proffered by Governor Darling, and most unaccountably supported by our ministry.

Please supplement my address with the above.

Harbor Grace } WILLIAM HAYES.  
Aug. 16th 1858 }

John Stark, Esq., Chief Clerk and Registrar, and Garland C. Gaden, Esq., Sheriff, left this Town yesterday, in the *Ellen Gisborne*, to join the Honourable Judge Robinson, at St. John's, and to proceed on the duties of the Northern Circuit, in the hired Brigantine *Glance*, Captain Graham.

DIED

At the residence of his son, Twillingate, on Thursday morning last, August 12th, Doctor Sterling, Sr., aged 72 years.

On the 9th Inst. after a lingering illness borne with Christian Resignation, Jane, Relict of the late Robert Andrews aged 70 years.

On Friday night last, after a protracted illness, much and deservedly regretted by his numerous friends and neighbours Edmond Foley Publican Aged 56 years.
