Finger Prints Show "Crippled" Man's Bad Record

Again evidencing the value of the Bertillon finger print method of detecting and ascertaining the records of the various prisoners who from time to time come before the police courts, Chief Rideout was on Wednesday in receipt of a communication from E. Foster, Inspector of the Bertillon department at Ottawa, relative to the record of one George MacDonald, who a short time ago was arrested by the Moncton police and charged with begging in the public streets. MacDonald at the time represented himself as having a crippled arm, and with the aid of his alleged misfortune, got next to the purses of a goodly number of residents until one got suspicious and called in an officer. He was brought before Sitting Magistrate MacDougall and given a fine of \$25 or in default, three months in jail. The following communication is self explanatory:

Ottawa, April 12th, 1920
Geo. R. Rideout Esq.,
Chief of Police,
Moncton, N. E.

Sir—I beg to inform you that George MacDonald, who was on April 9, 1920, at Moncton, N. E., convicted on a charge of begging and sentenced to 3 months in default of \$25 fine, is, according to his finger prints identical with our No. 3168 George McDon all whose criminal record is as follows:

- 1910—July 15, Berlin, Ont., false pretences, 6 months Ontario Reformatory.
 - 1910—November 10, London, Ont., vagrancy, 6 months Ontario Reformatory.
 - 1913—May 23, Port Arthur, Ont., theft, 2 months jail.
 - 1915—May 18, Cornwall, Ont., vagrancy, suspended sentence.
 - 1915—October 15, London, Ont., theft, 1 month C. J.
 - 1919—June 16, Quebec, Que., drunkenness, 15 days Quebec goal.
- On the fingerprint form received from the Chief Constable, Cornwall, Ont., in May, 1915, it was stated that this man's fingers of his left hand were so badly doubled up as to make the securing of impressions of them impossible. In October, 1915, a splendid set of impressions of both hands were received from the Chief Constable, London, Ont., in view of this I presume that Mr.

Little Woman Has Gained 15 Pounds

Is Wonderfully Helped By Tanlac—Son Also Benefited

"From this time on my faith is pinned to Tanlac," said Mrs. Florence McCarthy, wife of Wm. J. McCarthy, suite 3 Barrows Apartments, 231 Salter Street, Winnipeg. "For four bottles of the medicine had really and truly made me feel like a new person.

"Why, at the time I began taking it," she explained, "I weighed only ninety-five pounds and I now weigh one hundred and ten, making an actual gain of fifteen pounds. Something over a year ago I began suffering from indigestion and gradually losing strength and vitality. I soon found myself unable to keep up and look after my house work as I had been doing. I kept rocking along without doing anything for myself until my condition became serious. Then I went under treatment and before long they had to take me to a Sanitarium where I stayed for three months, and came out feeling just about as bad as when I went. I simply had no appetite at all and what I did eat would ferment and make me miserable. My stomach was in such a bad condition that I was forced to live entirely on liquid foods and a little brown bread. I was as nervous as a witch, suffered all the time with headache, and was so weak I could hardly move a chair and had to hire someone to do every bit of my housework. I would often be awake all night long, tossing and rolling, not getting a wink of sleep.

"After seeing Tanlac so highly recommended my husband persuaded me into trying it, and now I just feel like telling everybody what it has done for me. I can eat just anything now and never have a pain or an uncomfortable feeling afterwards and my appetite is so good that I can hardly eat enough to satisfy it. My nerves have gotten back to a thoroughly strong and normal condition and I never have a headache, and my sleep is so sound and refreshing that I get up in the mornings feeling as cheerful and happy as can be. I have let the hired woman go and am doing every bit of my housework without the least trouble. I weigh more since taking Tanlac than I ever did before. Tanlac has helped me so much that I am now giving it to one of my little boys. He has been sick and weak all his life and had gotten so frail that we even had to take him out of school. I believe Tanlac is going to make a strong, healthy boy of him, for he has already improved so much that he is able to attend school every day. I certainly have just cause to praise Tanlac and never hesitate to recommend it every opportunity I have, and I believe my husband is just as enthusiastic about it as I am, if not more so."

Tanlac is sold in Newcastle by E. J. Morris and in Redbank by Wm. M. Sullivan.

Donald's crippled hand at Cornwall and now at Moncton is feigned. Obediently yours,
E. FOSTER,
Inspector for Superintendent, Director of Criminal Investigation.

Light And Power Bill Before Committee

The Corporations Committee met at 12 o'clock Thursday and took up consideration of the Bill to incorporate the Miramichi Light, Heat and Power Committee.

J. W. Brankley of the Miramichi Lumber Co. was heard. He said he had no objection to the Bill provided that the Company to be incorporated, be required to see that logs passed the dam was not sufficient. Men would have to be employed at the dam to see that logs went through.

Mr. Baxter suggested that the Company be required to move all logs through the dead water which would be created by the construction of the dam.

Alfred V. Tracey Gould one of the promoters of the Bill said that in the past sudden dropping of freshets had stranded many logs. The large body of water which would be held by the dam would greatly assist driving operations by regulating the flow after the freshet.

To Mr. Baxter, Mr. Brankley said that few log jams occurred above the proposed dam-site. This year about sixty million feet of lumber would be driven by that spot.

Mr. Tracey Gould said that the promoters of the Bill had no wish to interfere with the lumbermen.

Hon. Mr. Robinson said that at certain times the quantity of water used to develop power might not leave enough to operate the sluices.

Mr. Baxter suggested that the parties interested should confer privately and reach an agreement in a section.

Mr. Tracey Gould said that he could have no objection to the insertion of the clause requiring that sufficient water be left to operate the sluices as mentioned in the past. He was willing to provide other booms.

Mr. Brankley suggested that the

power company should provide sheer booms to lead the logs through the sluices. All he wanted was to make sure that the logs would get over the dam. He would like the Company to provide men at the head of the sluices.

Mr. Baxter said the Company had placed itself under stronger obligations to keep the drives moving than might be required of it by the use of the words "By every way possible." If there should not be sufficient water to float the logs over the sluices the Company would have to shut down its plant.

Donald Fraser said he had no objection to the Bill if logs could pass the dam. He thought the Power Co. should pass the logs over the dam and be responsible for any log jams which might occur below the dam. He further thought lumbermen should be protected against breakage of logs in passing the dam.

Hon. Mr. Foster said that he was convinced that the bill gave the lumbermen all protection required.

Mr. Tilley pressed for an agreement between the parties interested before action should be taken by the committee. On his motion the section was stood over for further consideration and the delegation with drew.

The Premier's View

Hon. Mr. Foster raised the question whether it was advisable whether the development should be permitted under a private corporation or undertaken by the Government. There were many questions to be considered. One was the limit which might be placed on the issue of securities and it was possible that legislation might be introduced requiring the assent of the Public Utilities Company before it be permitted to issue securities. There also was the question of royalties. It was his opinion that the entire matter should be reported on by experts and that the legislature should await a report by the Water-powers Commission before taking action.

Andrew Wheaton, contractor was called before the Committee and said that he was prepared to make a substantial investment in the project. There was no intention of exploiting the franchise.

After further consideration the Bill was referred for private consideration.

The Committee adjourned at 1:20
