

"What Shall I Do Then With Jesus, Who Is Called Christ?"

## Pilate's Question Is Yours To-day

**T**HE Church is not impersonal. It is a company of individuals, each of whom has expressed determination to acknowledge Jesus as Lord and God, to accept His teachings and follow His example.

### The Active Christians

Those who persist in the Way find their lives radiant with hope. They have an object in living. They are not plunged into hopeless misery by bereavement. They develop character. They learn contentment. Being themselves men of hope and good-will, they are centres of hope and good-will in the world.

### The Inactive Christians

Not all continue faithful. Many neglect to keep the Pattern before them. They cease to pray. They forego public worship. They become only nominal Christians. Their sympathies are on the side of Right, but they miss the full-orbed peace that comes from being obedient to the Heavenly vision.

### Aiding the Enemy

Apart from their own loss, lukewarm Christians do positive harm to the Faith. Enemies never cite the lives of notable Chris-

tians as a proof of the inefficiency of the Church, or of the Gospel it proclaims. If, therefore, all lukewarmness should disappear the critics of Christianity would be confounded.

### Where Do You Stand?

You are a Christian. Are you ardent or careless? Are you whole-hearted or half-hearted? Do you realize that the Church in Canada faces unprecedented responsibilities?

You believe that the Gospel of Christ is a perfect solvent of selfishness and class-hostility. Will you do your part to give it free course?

### A Great Possibility

"Righteousness exalteth a nation, but sin is the reproach of any people." If all the Church Members of Canada would begin today to follow earnestly the principles enunciated by their Divine Master; if they would acknowledge their stewardship in full measure, the name of Canada would ring around the world. Therefore, the Question is to you:

"What shall I do then with Jesus, who is called Christ?"

## A United Appeal

**F**IVE Christian Communions—Anglican, Baptist, Congregational, Methodist and Presbyterian—have in Canada ten thousand congregations, over one million communicants, and represent more than half of the population of the Dominion. Under the stimulus of five great Forward Movements, it is in the power of these people to root out the evils of materialism in Canada, and to conserve the spiritual values revealed by the chastisement of War. Are you ready for active service?

## The Decision Is Yours

**L**ET Christianity have a fair trial in your own life. Make Jesus Christ master in your home. Test the reality of prayer. It will give your life direction, purpose and power.

You can help to cure the ills of Canada and the world. Be prepared to serve. Begin NOW.

"In the year 1910, I had Nervous Prostration in its worst form; dropping from 170 to 115 pounds. The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-lives". I began to mend almost at once, and never had such good health as I have enjoyed the past eight years. I am never without "Fruit-a-lives" in the house". JAS. S. DELGATY.

### ARMOR-PIERCING SHELL.

London, Jan. 28.—The British navy may soon be given a new and "unsurpassed" weapon in a large caliber shell which will pierce the heaviest armor without shattering, said Sir Robert Hadfield, chairman and managing director of Hadfield's, Limited, steel manufacturers, recently. He indicated that possession of such a shell during the great war would have been of inestimable value to the British Fleet.

"The feat has been accomplished" he said, "within the last few days, of getting the largest caliber of armor-piercing shell unbroken through the thickest of modern hard faced armor plates. This result will render the British gun unsurpassed, incomparable and the master in any naval engagements of the future."

"If we had possessed such a shell during the war many of the German battleships would have been scuttled long before their end at Scapa Flow."

## DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders; I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

### NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE — IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY — AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

### RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS — MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

## OUR NATIONAL ECONOMIC PROBLEM

The following interesting extract from an article by Mr. E. W. Beatty, published in the Montreal Gazette:— "The Canadian producer, in carrying out his obligations to the Canadian consumer, is not as satisfied as he should be. There are many people who look upon the Canadian producer as a custodian of the nation's wealth, and who are not at all surprised that bookkeeping should be simple and inexorable in its demands, and that the producer should be able to turn a profit on his losses and to be a corner on the market. It is to these people that it is apparently does not occur to them that to public is it more important than the good reputation of the securities in the world of investment should be carefully guarded. To those, however, who understand the matter from the point of view of the Canadian public, it is a very low rate for the quality of service rendered, and at once apparent that the Canadian public pays a very low rate for the services of the railway. It is not as if the railway were not to be made less desirable to investors than almost any other industry. The railway, however, will either have to go on operating at a loss, or else the railway persons recognize that it is not the situation of the railways, but the fact that certain companies have been able to show net earnings very low net earnings compared to the actual cash invested in the industry—but because in the past shareholders of such companies have been as they are to-day, courageous persons willing to support the means for constructive enterprises in which no one but themselves had faith, and because the railway has been so skilled, resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work. This, indeed, is the thing which has made it possible for Canada's railroads to function successfully during the war without making anything like the demands that foreign roads—less efficient in service to their community, yet earning the same rates and paying the same wages—have made up their public. I do not believe that the railway has any tendency to weaken the general reputation of Canadian Railway securities should continue. The railway, after all, is worthy of his hire, and his railway capital is not less worthy a servant than other forms of capital whose earnings have not been so consistently depressed. "The net earnings during the war have been much lower than the Canadian railroads have been making expenditures for maintenance, which circumstances would have justified, but which conditions prevented during this period. These arrears have now to be made up. During 1919 the Canadian Pacific laid 70,000 tons of steel rail. In place of, say, 2,000,000 tons, worth 44¢ in 1914, the Canadian Pacific laid 4,334,000 tons worth 86¢ per tie. The sensational advance in the rate of railway wages is well known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$13.10 in 1913. Now it is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$0.14 in 1913, to \$2.44 in 1918. It is higher to-day. The operating expenses of one mile of line in 1915 were \$4.15; in 1918, \$7.06, and to-day they are even greater. On the other hand, railway rates, taking all losses of revenue together, have advanced scarcely 25 per cent. I venture to say no other industry in the Dominion can show such moderation."
