**Terrible Result of Blood Poison.**

After These Operations Zam-Buk Was Tried and Proved Successful.

If people would only use Zam-Buk for chronic sores, blood-poison, etc., before permitting an operation, scores of limbs would be saved.

Mr. Robert Patterson, of North Pelham, Welland Co., Ont., writes: "My daughter, Annie, had blood-poison in her finger. The doctor operated twice on the finger, but did not obtain the desired result, and a third operation was considered necessary."

"Three doctors were present at this operation, but after it had been performed the wound did not heal. Try as we would we could not get anything to close the wound."

"We at last tried Zam-Buk, and it was really wonderful to watch how this balm healed the wound. Each day there was a marked improvement. First the wound in the palm of the hand closed, and then the finger which had been bad so long began to heal. The diseased flesh seemed to rise out of the wound and then drop off, and new healthy flesh formed from below pushing out the diseased tissue. In a short time the wound was completely healed. Had we applied Zam-Buk at first we might have saved the finger."

"We had another proof of Zam-Buk's power in the case of my son. When two years old he had his hand badly mangled. One finger had to be amputated and it left a running sore for some months. This wound, also, was finally healed by Zam-Buk."

For chronic sores, blood-poison, ulcers, abscesses, scalp sores, piles, eruptions, inflamed patches, eczema, cuts, burns, bruises, and all skin injuries and diseases Zam-Buk is without equal. 60c. box all druggists and stores, or post free from Zam-Buk Co., St. John's, Nfld., for price. Have you tried Zam-Buk Soap? 25c. tablet.

**A Dangerous Practice.**

The men attached to the shunting engine in the railway yard, say they cannot keep boys from clinging to the engine and cars and running the risk of losing their lives. Daily this occurs and yesterday a boy named Dunn had a narrow escape. He clung to the truss rods of a flat car which was running over the rails at a rapid rate when suddenly the boy lost his hold and fell coming within a couple of inches of going under the wheels. The train men repeatedly warn boys of the danger they run but it is utterly useless to do so.
