COAL MINERS BALLOT.

LONDON, June 13. Reports from various mining centres indicate a growing feeling among the men in favor of accepting the coal owners' latest offer. Meetings to explain the details of the offer will be held in many districts before the ballot of miners on Wednesday. A few of the Miners' leaders remain irreconcilable, telling the Glamorganshire miners that the owners' terms are surrender pure and simple for them, and arguing that they would get better terms if they continued the struggle. Against these sentiments struggle. Against these sentiments is the definite declaration of Herbert Smith, Acting President of the Miner's Union, that a two-thirds majority against the owners' proposal will be

About three months ago I got a bottle of your liminent for another purpose and saw on the label good for tumors. Well I tried it and kept at it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. Your Face

Use Liska cold cream instead (you have never used anything like it). Just try it once, and you will never be without it. Soap and water has and does not cleanse the skin as thor oughly as Liska cold cream. To prove it make this test: Wash your face with soap and water, dry thoroughly, then apply Liska cold cream, massage it well into the skin, then wipe off the superfluous cream with a soft white cloth; examine the cloth and see how much dirt has accumulated thereon. Liska cold cream cleanses sunburn or after a dusty auto trip there is nothing like it. Its fine after shaving too. Let hubby or brother try it. Just compare Liska cold cream with any other you have ever ised, and you will need no further argument to convince you that it's the best. It's put up in tubes, the only sanitary way. Try it tonight. You will be delighted. At oilet counters everywhere including M. CONNORS, A. W. KENNEDY.
