wouldn't say a word at all about ey're just as nice as they but still I wish they'd go.
'm tired of all the buzz and talk, the

tales of those who've died, 'm tired of seeing all our chairs And I am tired myself," said Ma, "as tired as I can be, u're only on the job at night, but

it's all day long for me. Have you a Suit or Overcoat be made. Bring it to FAR-RELL THE TAILOR, Adelaide

### Mexico Seeks Improved Court Procedure.

Street. First class work at

noderate prices. \_\_sept28,tf

MEXICO CITY -Use of the "amparo" as a legal recourse, in Mexco is to be restricted in a bill which the government intends to present to congress. Abuse of the measure is the eason. President Obregon recently declared that in many irstances persons arrested have already provided trem: elves with an "amparo" which coures their immediate release without bail." The "amparo" is one of the ost generally used and at the same the most complex procedures to found in Mexican courts. It is a ort of injunction and writ of habeas orpus combined, and is employed ther to restrain a court from acting to secure the release of a prisone from custody. Attorneys here admit hat an exact definition of the word impossible, and point to the facthat books have been written about it, with its specific meaning and original

### Jelly-Fish Egg Divides Self Into Many Parts.

The felly-fish that you find stranded, a soft, helpless mass upon the seashore, has a cirious life story. Like many other sea creatures, i passes through several forms befor t reaches its final shape.

At the end of the summer the jelly fish produces a number of eggs, from each of which comes a lively young ster, nothing like its parent in ap-After moving about in the water for

ome time and passing through sever-Night after night when I've come some time and passing through sever-home I've hauled them near and al changes in shape, it settles eventually upon a rock. It is now rather rings show themselves on the surface

of its body, so that it begins to look like a string-bound side of bacon in miniature. The furrows grow deeper and deeper. Presenty the creature has the appearance of a pile of tiny One day the topmost saucer detach-

es itself and swims away-a tiny jelly fish. The others follow in succession. The original tiny creature that left his egg has broken up into a great number of others, each of which is perfect animal.

The young jelly-fish grows very rapidly, feeding upon the tiniest reatures of the sea. They are themelves preyed upon by a variety of sea beasts; in fact, they form the chief food of one kind of whale.

A New and Better Ironing Board

No more propping an old board up on two chair-backs and having to lift it each time you wish to iron a skirt or petticoat. The Rid-Jid stands firmly on its own foundation, and is so constructed that a full-length skirt may be slipped on over the end.

In spite of its maryelous rigidity, the Rid-Jid is lighter than any other folding board made. It closes as compactly as a pocket knife. We would be glad to have you stop in and see it.
