## BRISK DEMAND FOR PRODUCE

### LOCAL MARKET.

Saturday, March 14.

The frost last night stiffened up the country roads, and there was a wonderful improvement as the result. There was quite a large crowd of farmers, who came in by wagons, and there was also a large crowd brought in by the railways and the traction company. On the whole, the market was a creditable one, and the pleasing feature for the farmers was the brisk demand for produce and the high prices for the same.

Grain—Oats sold at \$1.55 to \$1.60 per cwt, most of the sales were made at \$1.57 per cwt. The demand was good and the supply small. Wheat sold at 92c per bushel. A small load of inferior clover seed sold at \$11.50 per bushel.

Hay and Straw—There was none offered in this line, but there should be a good demand on Monday for the same.

Vegetables and Roots—Potatoes were well represented today, and the demand was brisk, at 90c, 95c and \$1 per bag, the hucksters asking \$1.10 per bag; turnips sold at 40c per bushel, onions at 40c per dozen; parsley, 30c per dozen; cabbages higher, at 45c to \$1 per dozen.

Apples—Sales slow and prices steady. Spies sold at \$1.50 to \$2 per barrel, and Russets at \$1.50 and \$1.75, common stock, \$1.25 per barrel.

Poultry sold at higher prices, and turkeys were held at 16c to 17c, dressed, and even as high as 18c was asked; chickens firm, at 12c and 12 1/2c per lb; ducks, 12c per lb, alive, and 12c dressed; old hens, 10c per lb, alive, and 11c dressed.

Dressed Hogs—The mild weather has curtailed the demand, and there was a rather slow sale for the small supply; prices steady, at 47c per cwt, a few selling at 47 1/2c per cwt.

Butchers' Meats—There was a large supply, but no change in prices.

Live Hogs—Prices on Monday will be \$3 per cwt for select and \$3.75 for fat sows; small pigs sold higher, at \$4 for pair.

Butter and Eggs—Butter was scarce and in brisk demand; prices were even firmer than last Saturday, as most of the sales were made to day at 21c and 22c for choice pound rolls, and 20c for crocks. Eggs were easier, at 21c and 22c for crate and basket lots, and some sold as low as 20c per dozen; in the dairy hall 22c to 25c per dozen was obtained.

### OIL MARKET.

LONDON.

London, March 13.—Petroleum, American refined, 6.9-10d; spirits, 7 1/2d.

PITTSBURGH, Pa.

Pittsburgh, March 14.—Oil opened and closed at \$1.75.

### PRODUCE MARKET.

TORONTO.

Toronto, March 14.—Quotations on Manitoba wheat continue strong, as the market in Winnipeg is steady. Manitoba feed wheat is not coming through so freely as it did earlier in the winter, which

has sent the price up, as there is a strong demand for it. Other grains on the local exchange are extremely quiet and weak. Prices are:

Wheat—Manitoba No. 1 northern, 1 1/2c; No. 2 northern, 1 1/4c; No. 3, 1 1/2c; feed wheat, 6 1/2c; No. 2 feed, 6 1/4c; Ontario No. 2 white, 84c; No. 2 yellow, 84c; No. 2 red, 83c; No. 2 mixed, 82c; spool, 90c to 91c.

Corn—Firm; No. 3 yellow American, 7c; Toronto freight, 2 1/2c; mixed, 5c less.

Barley—No. 2, from 65c to 72c, according to quality.

Rye—No. 2, 52c to 54c.

Oats—No. 2 white, 50c outside, 52c on track at Toronto; No. 2 mixed, 48c outside.

Flour—Manitoba patents, special brand, 55c; second patents, 54c; strong bakers, 53c; winter wheat patents, 53c.

Brans—Full cars, 45c to 48c, bags included, outside.

Shorts—Scarce, 23c to 24c.

### CIRCLE GLOBE

Will Visit Pacific Possessions and Australian Points Before Returning.

Washington, March 13.—Secretary of the United States Navy Metcalf announced the future movements of the fleet after a cabinet meeting today.

It will leave San Francisco on July 6 "for our Pacific possessions," as Mr. Metcalf styled it. The vessels will touch at Hawaii for coal. After that they will go to Samoa, thence to Australia, where they will stop to Melbourne and Sydney. Leaving Australia, the vessels will go to Manila, and while in the Philippines the annual fall target practice will be held. Thence the return will be made to the United States by way of the Suez, stopping only at such ports as are necessary for coaling purposes. The date of their return to the States is dependent entirely upon the amount of time required for the target practice in the Philippines. The visit of the battleships to Puget Sound will be made some time between the conclusion of the grand review in San Francisco Bay, May 8, and the date of sailing over the Pacific.

Secretary Metcalf said that the battleships would remain in San Francisco Bay until about May 22, during which time they would fill their bunkers with coal. According to the present plan, the entire fleet will go up to Puget Sound and some of the ships may be sent over to Vancouver, all returning to San Francisco, however, before departing for home.

Secretary Metcalf said that no decision had yet been arrived at as to who will succeed in command of the fleet on its voyage homeward.

Secretary Metcalf today made public a copy of a letter addressed to Secretary Root, March 2, by Ambassador Bryce, supplementing the invitation extended by Sir Alfred Deakin in behalf of the Commonwealth of Australia, for the battleships to visit the country on their return to the United States.

Orders were issued at the naval department today assigning officers to duty in connection with fitting out of the torpedo-boats Davis, Farragut and Fox. These vessels are now at the Mare Island navy yard out of commission.

The export of Chinese crickets from Canton was 45,197 hundredweight last year, as compared with 45,194 hundredweight in 1905 and 22,063 hundredweight, the average for the previous five years.

## A WIN FOR THE BANKERS

Court's Judgment in the "Soo" Case in Their Favor.

Toronto, March 13.—Word was received in the city today of a judgment given by the chancery court of New Jersey in the dispute between the Canadian Improvement Company and the Philadelphia bankers, who had loaned something less than \$2,000,000 to the Canadian Improvement Company, taking as collateral stocks and bonds of the Canadian Lake Superior Company for some \$5,000,000. The bankers claimed that under an agreement with Mr. F. H. Clergue, they were entitled to vote on the stocks held as collateral. This right was denied by the improvement company. By the judgment given today the claim of the bankers is upheld. It is understood the Philadelphia bankers are favorable to the administration of President Warren.

## WHITNEY HELPED

PUT ACT THROUGH

(Continued From Page One.)

companies was a most specious one. "Under the Mowat and Hardy administrations," said Hon. Mr. Ross, "the agreements made by the Province with the Ontario Power Company and with the Niagara and Toronto Power Company contained clauses to the effect that the Government would not enter into competition by developing power. These agreements were ratified by the Legislature, with the approval of Mr. Whitney and all the members of the opposition. The Ross Government's agreement with the Electric Development Company contained a similar clause, but the administration went out of office before the agreement was submitted to the Legislature for ratification. In the following year, 1905, Mr. Whitney introduced a bill in the Legislature to ratify the agreement, which the Ross Government had made, and he himself urged the House to approve it.

Did Not Object.

"The Legislature did so without objection or amendment. How, then, can Mr. Whitney say that the Government is bound hand and foot by the Ross Government's actions, when he himself stood sponsor for the bill indorsing that action? He says the Ross Government made the agreement 'with malice aforethought.' From what motive, then, did he ratify it? It is not for Mr. Whitney to say that he was sure the public would soon demand such a measure. He then withdrew the bill.

Mr. Hislop said the Premier had tried to belittle the bill, but he believed the day would come when a candidate would be ashamed to go around personally soliciting votes, and he was sure the public would soon demand such a measure. He then withdrew the bill.

Mr. Neely's bills respecting the Southwestern Traction Company and the Ontario Railway received their second readings.

The remainder of the House's session of an hour was spent in routine business.

Speaking after adjournment, Premier Whitney said he knew of no reason why the meeting of the special committee on redistribution should not be open to the press. He stated also that he would be greatly surprised if the Legislature was not prorogued before Easter.

## CHANGES IN WAGES

Ottawa, March 13.—Changes in rates of wages and hours of labor throughout Canada during the fall and early winter months, are dealt with in a report of the labor department.

On the other hand, the upward tendency of wages among railroad employees, which was marked during 1907, was continued, yardmen and switchmen throughout the Grand Trunk system and carmen and telegraphers employed by the C. P. R. being among those who received advances.

A clause was inserted in the bill making Foresters subject to amendment which might be made in the general insurance law.

Mr. H. S. Clements made a request for the Government to clear the Thames River mouth of ice.

Mr. L. Borden was informed by Hon. Frank Oliver that Dr. Dickey, of the detention hospital, at Halifax, who had been found to be acting in collusion with certain parties in Liverpool to secure for a consideration the admission of undesirable to Canada, had been dismissed.

## WANTS MEETINGS MADE COMPULSORY

Radical Amendments to Elections Act Killed Off by Premier Whitney.

[Special to The Advertiser.]

Toronto, March 14.—In the Legislature yesterday afternoon the Premier administered the fatal stroke, to Mr. Hislop's bill amending the election act, it provided for compulsory holding of meetings by candidates during a campaign, the prohibition of personal canvassing, and compulsory attendance of voters at the polls, those not desiring to vote being registered accordingly.

Mr. Hislop, in moving the bill's second reading, said that the first provision would bring out a better class of candidates, while compulsory appearance at the polls would help to put a stop to bribery and personation, and lead to a stronger and better expression of public opinion. Mr. Hislop had been surprised at the large number of votes unpolled, and he gave the following instances from the last provincial election: Middlesex 17 per cent, Hastings 32, Lambton 23, Dundas 26, Grey 22, Hamilton 21, Lanark 45, York 28. At least 30 per cent of the Ontario vote remained unpolled, and it would be better to make all voters go to the polls.

Mr. Studholme (East Hamilton), thought the bill a step in the right direction. The labor forces had been working for the same object for years.

The Premier said the want of interest manifested in the bill was little need for it. He complimented Mr. Hislop on the judgment and sound sense, he usually displayed, and admitted there might be something good concealed in the bill, but it was not visible to the naked eye. No good object was gained by making an elector vote for one of two bad candidates. Mr. Whitney thought that 51 per cent of the vote was polled, it was a high average, owing to the number of duplications and dead and absent persons on the lists. The Premier did not think Mr. Hislop had introduced the bill as a joke, but he could not see any reason why the meeting of the special committee on redistribution should not be open to the press. He stated also that he would be greatly surprised if the Legislature was not prorogued before Easter.

Mr. Neely's bills respecting the Southwestern Traction Company and the Ontario Railway received their second readings.

## CLAIMS \$10,000 FOR HUSBAND'S DEATH

Toronto, March 13.—A writ was issued today by Judge William Carrington Gray, of Toronto, against Jeremiah E. Morrison, a hotelkeeper of Orangeville, claiming \$10,000 for the death of her husband "through the unlawful act of the defendant." "The unlawful act" it appears was the striking by Morrison of Gray over the head with a bill as the result of which, it is alleged, that the latter died. Gray, who was a farmer near Orangeville, had some trouble with Morrison, and on Aug. 14 last went into the latter's bar. He was ordered out, and not going fast enough, was struck by Morrison. He died in December.

Toronto, March 13.—That Tom Longboat will represent Canada in the great 25-mile Marathon race in non-connection with the British Olympic games this summer, is almost beyond doubt. In response to a request of the Canadian Olympic committee the registration committee of the C. A. A. U. has just completed a report upon the Indian's whole athletic career. In this report the committee state that after a rigid investigation they are unable to discover that Longboat has profited in the slightest degree from athletics. The Irish Canadian Athletic Club produced statements and vouchers of every trip made by Longboat since he became connected with that organization, and the committee was unable to find a single item that was not in strict accordance with the amateur rules.

Mr. H. S. Clements made a request for the Government to clear the Thames River mouth of ice.

Mr. L. Borden was informed by Hon. Frank Oliver that Dr. Dickey, of the detention hospital, at Halifax, who had been found to be acting in collusion with certain parties in Liverpool to secure for a consideration the admission of undesirable to Canada, had been dismissed.
