AVANA ELECTRIC IS STILL SOARING

esumes Upward March On Wall Street-Silk Stocks

Strong.

Associated Press Despatch.
New York, June 15.—Operators on the ng side found fresh encouragement in the fact that the renewal rate for call oney remained unchanged at 3% per int, despite tax-day demands, which as widely construed as further proof it the lack of any strain in the credit ituation. New leaders were brought brward when the old favorites showed igns of halting on profit-taking, the lik shares being run up briskly on eports of heavy spring sales of silk brics. Special points of strength also opped out in the public utilities, Havna Electric resuming its upward movement by climbing 4½ points before noon and Electric Power moving up two joints. Associated Oil assumed the rily leadership of the petroleum group, founting two points to a new high ecord for the year. Famous Players momon was offered freely on rumors an early offering of stock, but the sty preferred attained a new peak price ir the year, as did Kelly-Springfield, as and eight per cent; Remington ypewriter, Freeport-Texas and United Drugont.

SCARCE ON MARKET
No oats were offered on the market
this morning though there is a brisk demand. Hay also seemed very scarce.
Only three loads were brought to the
square. The demand is strong, as the
new crop looks poor, owing to the recent
dry spell. The price took a jump of a
dollar a ton. Wheat was slow and sell- ing at \$1.45 a bushel.
Beef took a slight drop. Hogs, how-
ever rose in price.

CHICAGO

Associated Press Despatch.

Chicago, June 15.—Reports of more favorable weather over the domestic wheat belt tended to give a downward swing to wheat values here today and the market broke sharply during the early dealings. There was some scattered selling on the initial declines, which found support lacking. The drop was easily attained. Opening quotations, which ranged from %c to 2%c lower, were followed by an additional drop. July touching 156 and September. \$1.51%.

Corn and oats followed wheat, there being some scattered selling of corn by commission houses, while the buying was not impressive. Starting at 1c to 2%c off, the corn market continued down grade.

Oats started %c to 1%c down and later declined a little more.
