Local News

Ask for Amure, solid leather foot-
wear.

Cut Off in Youth.—James Bolden,
aged 21 years, eldest son of W. J. Bol-
den, the well known contractor, died
Thursday at the Royal Jubilee hos-
pital of pneumonia following an at-
tack of typhoid fever.

Grant, to Congress.—Premier Mc-
Bride has announced that a grant of
\$300 would be given towards the Do-
minion Trades Congress, in response to
the request of the combined committee
that waited on the members of the gov-
ernment.

Farmers' Institute Meetings.—Ac-
cording to advices received, Prof. Shutt
and J. R. Anderson are encountering
very bad weather during their lecture
tour in the interior. Large attendances,
however, are apparent at each meeting
and Prof. Shutt's speeches on the qual-
ity of soils are attracting much atten-
tion.

A Yukon Clean-Up.—One hundred
and one ounces of gold, worth \$1,616,
taken out in three days by seven men is
the handsome result of a clean-up made
in the Yukon on the hillside claim on the
right limit of Hunker, opposite No. 26
below. The claim is owned by Messrs.
McLeod and McLaughlin. This is among
the richest pay ever struck in the
Klondike.

Leaving For England.—After an ab-
sence of about 40 years from the Home
Land Mr. Henry Coghlan, one of the
most popular of Victoria's business men,
road district left for England Friday.
He was accompanied by Mrs. Coghlan
and they will spend some time visit-
ing relatives and friends in the Old
Country. Their many friends here wish
they will have a most enjoyable trip.

Sawmill Project.—Messrs. McLean
Brothers, contractors, have completed
the purchase of an island in the Fraser
river, near the bridge connecting
Lulu Island and Sea Island, and it is
their intention shortly to erect a large
sawmill upon it. The island contains sev-
eral acres and has a 3,500 foot
water-frontage. In addition to this
advantage, it also lies within about 500
feet of the electric railway.

Mecca for Sportsmen.—Says the Na-
namo Free Press: "The fame of the
vicinity of Vancouver Island as a
location of outing grounds grows. Last
night a party of gentlemen, members
of the N. Y. C. Club of Montreal, left
for Great Central Lake on a several
week's fishing and big game hunting
trip. They were accompanied by Mr.
Vizier, F. G. Adams, H. V. Knisp and
G. B. Glanzer."

Shooting Season.—The shooting sea-
son commences on the 1st Sept. a little
over a fortnight hence, and conse-
quently being removed from
racks and carefully dusted and oiled
in preparation for the first day. The
blue and willow grouse, ducks and deer
come in next month, with the pheas-
ants doubtless will be brought in by
order-in-council about the 1st of Octo-
ber, the usual time.

Extend Gill Net Fishing.—Trap, and
gill net fishing for salmon is to be ex-
tended from August 25th, the regular
date on which the season closes, to Sep-
tember 15, according to news received
last night, says the Nanaimo Herald,
and many canners who are not in favor
of the extension of the gill net fishing
claim that the only chance the sockeye salmon
have on reaching the spawning grounds
on the Fraser river will be lost, with
the result that blue ruin is predicted for
the season of 1910.

Visited Great Central Lake.—Alexan-
der Robinson, superintendent of educa-
tion, and his son, David Wilson, pro-
vincial school inspector, and F. T. Rat-
ton, city superintendent of schools, with
his nephew have returned from a visit
to Great Central Lake. They left by
the Tees on August 1st, and together
with a boat and camp impediments land-
ed on the wharf at New Alberici. The
thirteen miles between that point and
the lake was driven over, and the party
boarded their small boat for the other
end. The Great Central lake is about
25 miles in length, bounded on all sides
by high mountains and of an irregu-
lar shape, with a depth of from 100 to
measurable depth. At the northern end
it is fed by two rivers, one of them,
that to the left, flowing from a small
lake caused by an ancient rock slide.
The latter only flows about a quarter
mile of surface, but is reported to
abound with fish.

Left for England.—John Spencer left
Wednesday night for his home in
Bradford, England, after spending the
summer with his family here. He is
the well known merchant. He is
charmed with the climate and beau-
tiful scenery of Victoria, and will prob-
ably visit the city again in the near
future. After spending most of his
life as a business man of his home
city, John Spencer has relieved himself
of practically all outside interests and
will devote much of his time to travel.
His visit here was one of many trips
he intends to take. Several
journeys were made by Mr. Spencer
while making Victoria his headquar-
ters, among them being one to the
Alaskan summit in company with his
brother.

Progress of Creameries.—Creameries
throughout the province are this year
enjoying one of the best seasons they
ever had. Though cattle are still pastur-
ing, butter has risen to 40 cents a
pound, and for long time remained at
the 35 cent figure. The price rose on
Monday last 5 cents a pound. In sym-
pathy with this commodity cheese has
advanced 24 cents a pound, and it is re-
ported to be limited in supply. Mer-
chants state that so great is the de-
mand for cheese and butter in the North-
west that there is little surplus from
the country. The creameries are com-
ing to Edmonton and vicinity, where
railway construction is under way, and
the indirect effect of this drain has been
to stiffen prices locally. It is predicted,
however, that this condition cannot last
long, and that before the snow flies there
will be a drop in quotations again.

Hedley's New Hospital.—Hedley will
shortly have a general hospital. Notice
of the formation of a society under the
"Benevolent Societies act," with this ob-
ject in view, is given in the Gazette, the
first directors being G. P. Jones, L. G.
MacHaffie, L. H. French and H. Ting-
ley.

A New Highway.—Horace Davie,
reeve of North Cowichan municipality,
gazes at a by-law creating a new high-
way called "Beaumont" road, starting
from near the Maple Bay schoolhouse,
following the present road north to the
section line between sections 8 and 9,
and thence north to the boundary line between Semone
and Comikan wards; thence north one
section width.

Applying For Licenses.—W. G. Man-
ley applies for a license to prospect for
minerals on Graham Island, Queen Charlotte
group. The activity in timber licenses is
well continued, no less than 500 ap-
plications being noted in the current
Gazette. Of these a great many are on
Vancouver and adjacent islands.

Mining In Atlin.—The Skagway Alas-
kan in a recent issue says: "We have
now control of the situation over there in
the Atlin district, have reached the end
of the line, which we have been working
for more than five years and have at last
time on it is a case of taking out
rather than putting in. The North
Columbia Gold Mining company will
pay its first dividend this year and will
continue to do so hereafter."

Goes to Telegraph Creek.—R. H. Mc-
Innes, who for some time past has
been on the teaching staff of the Vic-
toria College, received word yesterday
of his appointment as teacher at the
school at Telegraph Creek, in the Cana-
dian district. Being an ardent ad-
mirer of all athletic games and an
enthusiastic member of the Y. M. C. A.,
Mr. McInnes will be missed by his
numerous friends in this city. He
left for his new home last evening.

Canadian Trust Co.—The Canadian
Trust Company, Ltd., has been incor-
porated with a capital of \$50,000, it
proposes to act and conduct business as
financial, insurance, collection, real
estate, house, special and general agents
and brokers, and generally to exercise
the functions its name indicates. Other
companies of which notice is given in
the Gazette are the B. C. Information
Company, Limited, capital \$10,000; Bel-
well Bay & Belcarra Co., Ltd., capital
\$20,000; Reconded Mining Co., Ltd.,
non-personal liability, capital \$10,000.

Not Coming Here.—Edwin W. Sims,
the United States solicitor of the depart-
ment of labor and commerce in which
department matters connected with
immigration are handled, where he
has been to secure information for
use in the negotiations to be shortly
regarding sealing, will not come to
Victoria, as was reported, at least for
the present. It was stated in eastern
United States newspapers that he would
visit Victoria to seek information with
regard to the sealing of the Victoria sea-
lion. Sims and other matters connected
with pelagic sealing for this city. Mr.
Sims left Seattle for San Francisco to
meet with Secretary Metcalf, of the
United States labor and commerce de-
partment.

Tokens of Progress.—Hon. J. W.
Longley, of the supreme court of Nova
Scotia, who visited Victoria some two
weeks ago, addressed the Canadian
Club in Winnipeg on his way home.
Mr. Longley, in opening, briefly de-
scribed in eloquent terms his recent
trip across the prairie and north-
west of the West. He found everywhere,
from Winnipeg to the shores of the
Pacific, tokens of progress. The political
strength, the commercial back-
bone of the country, he felt, was
being located in Winnipeg or even
farther west. Everyone east and west
is beginning to feel the pulsation of
national life. It is from the develop-
ment of the West he expected to see
the earliest dream of other
They would not rest until Canada had
taken its place among the foremost
nations of the world.

Hon. T. C. Casgrain. Here.—Hon.
Thomas Chase Casgrain and wife, of
Montreal, are staying at the Oak Bay
hotel. Hon. Mr. Casgrain was very
popular in his public life, so we recall
He has practised law in Quebec and
now the senior partner in the firm of
Casgrain, Angers & Lavery. He was
appointed a Q. C. by the Marquis of
Lansdowne in 1884. He became a crown
prosecutor for the district of Quebec
in 1882, and at the time of the famous
Louis Riel trial for high treason, in 1885
he was retained by the crown as coun-
sel. He was appointed professor of
criminal law in Laval University in
1883, and received the degree of LL.D.
in that institution. After sitting for Que-
bec, he came to the bar in Montreal in
1886 to 1890 and for Montreal from
1890 to 1896, he became attorney-
general in the De Boucherville govern-
ment, and afterwards the Talbot ad-
ministration, and in 1894 was appointed
a member of a committee to revise and
amend the code of civil procedure. In
1896 he was appointed vice-president
of the Canadian Bar association.

Saanich Council.—The municipal
council of Saanich held its regular
meeting on Saturday, the 11th inst.
Complaint was made by a resident of
Ladysmith of the reckless manner in
which automobiles were being run over
the country roads. It was decided to
take measures to regulate the speed at
which motors may be run within the
limits of the town. Several communi-
cations from owners of real estate, offer-
ing sites for the proposed municipal
buildings, were read and laid over for
consideration later. Some bridges and
culverts were reported in bad condi-
tion and ordered repaired. A memo-
rial to the Dominion government in
reference to the bridging of Seymour
Narrows was considered and signed by
the council and others who were pres-
ent. The sum of \$100,000 was con-
nated to the funds of the provincial
exhibition. The clerk was directed to
prepare a plan for dividing the muni-
cipality into either three or six wards
for the coming year. This will pro-
vide for the election of six councillors
and a reeve, instead of three councillors
and a reeve, as at present.

Cowichan Fall Show.—The catalogue
of the Cowichan annual show, to be held
at Duncan, has just been issued. There
are many valuable prizes.

Horsemens' Grievance.—Victoria
horsemens protest against the lack of in-
terest taken in the chances of their suc-
cess in the forthcoming exhibition races
by those having control of the track.
The latter, they contend, is in a deplora-
ble condition, and has been so for many
weeks. As a result it has been impossi-
ble to give locally owned horses the
thorough course of training which is so
necessary to put them in shape to par-
ticipate in the fast competitions which
are expected to be run in connection
with the annual show under the aus-
pices of the B. C. Agricultural associa-
tion.

A. W. Reynolds Dead.—The death
occurred on Thursday of Albert William
Reynolds at the Jubilee hospital. He
was a native of Redruth, Cornwall,
England, and was 41 years of age. A
widow is left to mourn his loss, be-
sides his father, a resident of London,
England, and a sister, living in Mis-
soul, Montana. Mr. Reynolds was the
superintendent of the James Bay Meth-
odist church Sunday school and Mer-
chandise agent for the firm of J. H. Sal-
mon, of Victoria. His death was sud-
den. The funeral has been arranged to take
place today at 1:45 o'clock from the parlors
of the B. C. Funeral and Furnishing
company and at 2 o'clock at the James
Bay Methodist church.

A Montreal Visitor.—J. Simpson,
a member of one of the oldest Canadian
families, and the foremost authority on
real estate in Montreal, is in Victoria
on a pleasure trip. Although 68 years of
age he is as active as much younger
men and will spend a few days taking
in various points of interest in the vicin-
ity. Mr. Simpson has always enjoyed
wide popularity among the business
community as himself as evidenced
by the many positions of trust to which
he has been elected. He has been presi-
dent of the Real Estate Association of
Montreal, and vice-president of the Na-
tional Real Estate Association of America.
In 1891-2 he was a member of council
of the Montreal board of trade and of
the Montreal Sanitary association in
1892-3.

Pulp Company Incorporates.—The
current issue of the British Columbia
Gazette contains notices of incorpora-
tion of several important companies.
Probably the most important is the
Pacific Pulp & Paper company, limited,
with a capital of \$250,000. Its powers
of extension are unlimited, and it is
a thing that may arise in regard to the
exploitation of the company on a large
scale. Notice is also given, on behalf
of the same company, that compliance
has been made with the provisions of
the "Power Companies Relief act, 1902,"
which places it in the same position as
a company incorporated under part IV
of the Companies Act, and that the com-
pany is now ready to receive applications
for shares. Another power company has also
been incorporated, the Northwest Power Co.,
Ltd., with a capital of \$10,000.

Island Copper Mines.—That post-
haste trip that Mr. Bellings was ex-
pected to make to the island of Vancouver
Island, made to Great Central Lake
this week, in company with other gen-
tlemen, has created considerable specu-
lation among those who are inter-
ested in the copper mines of the island.
Mr. Bellings, it is said, is a man of
experience and his opinion is of great
value. He is expected to return to the
island in a few days.

Struck It Rich.—Late arrivals from
the Tanager bring word of the good luck
that has recently come to two well-
known Dawsonites, Charles Frey and
Hans Stark. The latter is an old Domi-
nion miner with years of experience in
the north, while Frey is a musician and
known as a musician and electrical en-
gineer in Vancouver. Last winter Stark
secured an option on one above on
Cleary at a price of \$10,000, and Frey
cheap, and Frey put up the money to
buy it. The ground was worked during
the winter for all it was worth, and
their claim was in the spring run a rife
of \$150,000. Frey and Stark are now
on a vacation, leaving Ben Davis to car-
ry for his business interests in Fairbanks.
Stark is handling the claim and proposes
to turn it upside down this winter.

The Butter Market.—A letter has
been addressed by Mr. J. M. Logan, the
manager of the British Columbia cream-
eries, to the members of the creameries,
inviting them to meet at New West-
minster on Thursday, October 4th to con-
sider matters affecting the selling price
of butter in the province. It frequently
occurs that owing to a surplus of butter
at some individual creamery the price is
dropped, thus forcing other creameries
to follow suit, in a manner affecting the
whole output. It is suggested that by a
system of cold storage of such surplus
as may at any time occur at some par-
ticular point, the reduction of price will
only be necessary when the amount so
stored and in this manner the loss mini-
mized and the creameries enabled to give
their patrons an equitable and uniform
price for their produce.

Civil Service Examinations.—Examina-
tions for the civil service of India are the
subject of the provincial secre-
tary in the Gazette. They will be held
in London on August 1st, 1907, so am-
ple notice is given intending candidates
to prepare. If open competitive exam-
inations for below the grade of "First
Eastern cadetships in the colonial ser-
vice; (class I) in the home civil service;
should be held in 1907 concurrently with
the open competitive examination for the
civil service of India, candidates
daily eligible in respect of age will be
admitted to compete for any two or all
three of these services, subject to cer-
tain conditions which are set out at
this office. Candidates who may de-
sire to enter the competitions for the
home and colonial services should apply
about the beginning of February next
to the "secretary, civil service commis-
sion, London, W." for the prescribed
forms of application.

Another Real Estate Deal.—It was
reported Saturday that the fine residence
property on Rockland Avenue, owned by
Dr. Davie had changed hands, the finan-
cial sum involved being in the neigh-
borhood of \$17,000.

Mrs. Ford Ill.—Mrs. David Ford, wife
of the postmaster at Duncan, was taken
suddenly ill at Shawinigan lake a few
days ago. She was taken home as soon
as removal was safe, and is now pro-
nounced to be on a fair way to recovery.

Real Estate Deal.—Heisterman &
company report, in addition to a num-
ber of small sales, the transfer of the
Jackson residence, and five acres to a
newcomer named Wilson, and another
house and lot at the head of Yates
street to a local man. The amount in-
cluded in these transactions was practi-
cally \$10,000.

A Great Cucumber.—A great cucum-
ber is now on view at the Tourist
Association's rooms on Fort street. It
measures 36 inches in length by 7
inches in diameter, and weighs 12
pounds. It was grown by T. Leigh of
Lampson street from Sutton's seeds,
supplied by the Brackman-Ker Milling
Company.

Report Contradicted.—Price Bros.,
proprietors of the Cowichan Lake hotel,
writing to the Colonist under date of
August 18, says: "There is a report
spread in Victoria that the new camp
at our hotel at Cowichan lake. We shall
feel greatly obliged to you if you will be
good enough to contradict such a false
report, having been, from time to time,
been told of the sort at our hotel or
anywhere else on Cowichan lake."

Ralph Smith Here.—Ralph Smith, M.
P., arrived Friday evening on the In-
stigator from Nanaimo. The immediate
cause of Mr. Smith's presence in the
city is in connection with the applica-
tion of a keeper for the new light on
Tri Island, which is now being con-
sidered. It is necessary that the keeper be
appointed at once so that he may be-
come acquainted with the machinery
which the engineers are installing, and
which is expected to be in operation in
a couple of weeks. An appointment will
likely be announced in a few days.

St. Leger Sweep.—The St. Leger of
1906 promises to be the most interesting
race of the year. Keystone II, the win-
ner of the Oaks, is the favorite for the
Leger while Troutbeck Sancy and
Gorgos have been heard of.
The Victoria hotel. They are taking ad-
vantage of the opportunity their visit
affords to inspect properties suitable for
investment and with this end in view
are about to make an extensive tour of
the island.

From Botanical Station.—Professor
McMillan of the Minnesota University
with a party of twenty-nine students
arrived Saturday from their seaside
station at Port Henry, where he an-
nually spends the summer holidays in
the study of the marine flora and fauna
of the coast. The visitors are annually
drawn from the biological students of
the University of Minnesota and other
schools and colleges of the United
States and they are now returning and
about to disperse to their various homes.
The Professor himself has recently re-
turned the chair of botany at the uni-
versity and is entering business in the
East. No successor has yet been ap-
pointed but the seaside station will be
maintained as heretofore and utilized for
the purpose of research and recreation in
succeeding years.

The Royal Institution.—A meeting of
the Royal Institution for the Advance-
ment of Learning in British Columbia was
held Friday morning in Vancouver. Plans
for securing funds to advance the in-
terest of higher education in the prov-
ince were discussed, and in a short
time a general meeting of the board
will be called and the most feasible
plan laid before it. Those present
were: Mr. J. W. Longley, M. P., A. C.
Thurmer, Dr. Tunstall, Hon. F. Car-
ter-Cotton, R. P. McLennan, David
Robertson, Lemuel Robertson and W.
P. Arce, secretary of the board.

St. John's Picnic.—The St. John's
Sunday school teachers are busy pre-
paring for the picnic to Sidney on
Wednesday the 22nd inst, and the usual
games, races, etc. are under discussion
in order to make the picnic as enjoy-
able as possible for the young people.
The trains will leave Victoria at 7:45
a. m. and 2:30 p. m. The picnic will be
in the form of a "basket" picnic, but
the St. John's teachers, of this city, is
obtained at the picnic grounds. The
teachers hope to see not only a large
attendance of the children and their
friends, but of many who enjoy a day
by the sea.

From Natural Causes.—An inquest
was held Friday, conducted by
Coroner Hart, on the body of G. A. Sims,
an employee of the Victoria Gas Com-
pany, who died on Thursday. It ap-
pears that previous to the inhalation
of gas the man was ill. It also trans-
pired that a fellow workman at the
same moment was not affected, and
On account of the man being in
such condition and with a weak
heart, the jury had no other evidence
but to declare "Death from natural
causes." The funeral of the late
George Albert Sims will take place
Sunday afternoon at 2:30 o'clock from
the parlors of the B. C. Funeral Fur-
nishing Company.

Tenders For Coal.—G. A. Keefer, resi-
dent engineer at New Westminster of the
department of public works is call-
ing for tenders which will be received
up to noon of Friday, the 31st inst.,
for the supply of coal required for the
Esquimalt Graving Dock and in con-
nection with Victoria Harbor works up to
the end of the present fiscal year on
31st March, 1907. The coal must be a
British Columbia product of approved
quality, Lump or Washed Nut, and de-
livered in such quantities as may be re-
quired—that for the Esquimalt Graving
dock to be delivered and stored in bunk-
ers on Saturna Island, and the other for
the dredge "Mud Lark" to be delivered in
lots of 150 to 200 tons at the Govern-
ment wharf, Victoria harbor, on scows
furnished by the department of public
works, the towing to be done by the
contractor.

Indians In London.—Among the
crowd of passengers who arrived the
other day in London, from Liverpool
to Boston, four cinnamon-colored indi-
viduals, attired in bright red, green and
yellow shawls, deer skins and feathers,
arrested everybody's attention, says the
Globe. They were the Red Indians
chiefs, Joe Capilano, of the Squamish
tribe from Vancouver; Charley Tail-
paym, of the Cowichan tribe; Chief
Baal of the Bonaparte tribe, and Si-
mon Pierre, another leading member of
the Indian colony in British Columbia.
The party had traveled thousands of
miles in the "big canoe with a chimney,"
to lay personally before King Edward,
the "Great White Father," a protest
against the encroachments of the white
men on their fishing and hunting ter-
ritories.

Boils and Pimples

Red Rash, Eczema, in fact any
skin disease, disfigures the com-
plexion because the bowels are
constipated—or because the
kidneys do not rid the system of
waste—or because the skin itself
is unhealthy.

Outments, salves and soaps are
useless. Because the trouble is
with the blood.

Owing to defective action of bowels,
kidneys or skin, the blood becomes
laden with impurities. It is these impuri-
ties—deposited by the blood—that
make boils, pimples, and painful, dis-
figuring skin diseases. It is because
the trouble is with the bowels, kidneys
or skin, that FRUIT-A-TIVES cure
these diseases.

Fruit-A-Tives

ON "FRUIT LIVES TABLETS"
act directly on the eliminating organs—
correct their irregularities—strengthen
them—and thus clear the skin and make
the complexion clear and soft.
If you have any skin trouble—or any
fault with constipation, liver trouble,
biliousness, headache, indigestion,
rheumatism—cure yourself with Fruit-
a-tives. They are made of fruit juices
and tonics—and never fail to cure.
A box or 6 boxes for \$2.50.
Sent on receipt of price if your
druggist does not handle them.

FRUIT-A-TIVES
LIMITED,
OTTAWA.

St. John's Picnic.—It has been ar-
ranged to hold the annual picnic under
the auspices of the St. John's Sunday
school at Sidney this year, on Wednes-
day, August 22nd. Further particulars
will be announced later.

Visitors From Edmonton.—Messrs.
John Wren, Frank Wright, Doc Morgan
and H. MacLennan are four prominent
hotel men of Edmonton, registered at
the Victoria hotel. They are taking ad-
vantage of the opportunity their visit
affords to inspect properties suitable for
investment and with this end in view
are about to make an extensive tour of
the island.

From Botanical Station.—Professor
McMillan of the Minnesota University
with a party of twenty-nine students
arrived Saturday from their seaside
station at Port Henry, where he an-
nually spends the summer holidays in
the study of the marine flora and fauna
of the coast. The visitors are annually
drawn from the biological students of
the University of Minnesota and other
schools and colleges of the United
States and they are now returning and
about to disperse to their various homes.
The Professor himself has recently re-
turned the chair of botany at the uni-
versity and is entering business in the
East. No successor has yet been ap-
pointed but the seaside station will be
maintained as heretofore and utilized for
the purpose of research and recreation in
succeeding years.

Exploit Island Resources.—The forma-
tion of an exceptionally strong syndicate
was completed Saturday morning. It
will have for its purpose the exploita-
tion of the resources of Vancouver and
adjacent islands in marble, sandstone
and other building materials. The di-
rectors consisting of the following: Jas.
Mitchell, head of the Northern Elevator
company, who is president, Andrew
Wright, the wealthy Manitoba capital-
ist now resident in Victoria; Wm. Fer-
rie of the Crow's Nest Coal company;
S. G. Marling, a retired lumberman of
Vancouver; J. C. Armstrong, New-
Westminster's most wealthy citizen; G.
H. Webster, president of the B. C. Gen-
eral Contracting company and James
Wilson, superintendent of C. P. R. tel-
egraphs. R. W. Clarke, of this city, is
secretary temporarily. The properties
under the syndicate's control will com-
prise the newly discovered deposits of
marble on Nootka Sound; the big quar-
ries on Saturna Island, and the Alkin
lime plant and valuable clay deposits at
Esquimalt. An option has also been ob-
tained on the Haddington Island quar-
ries, which will probably be taken up
before expiration.

Diarrhoea, Dysentery, Colic, Stomach
Cramps, Cholera, Morbus, Cholera
Infantum, Seasickness, Summer Com-
plaint, and all Looseness of the Bowels

may be rapidly and effectually cured by the use of

DR. FOWLER'S
Extract of
Wild Strawberry,

The medicine with a record of
cures extending over 60 years.

You don't experiment when you buy it.

MISS MARY STRONG, Strongville, Ont., writes: "I feel it a
pleasure to tell of what Dr. Fowler's Extract of Wild Strawberry
has done for me. I have had Summer Complaint several times and
have never had to take more than 3 or 4 doses before being cured."

Mrs. ELIAS A. MORINE, Hortonville, Ont., writes: "I could
fill a whole column citing the virtues of Dr. Fowler's Extract of
Wild Strawberry. It has been my firm friend for years, and once
it saved the life of one of my little ones. I would not be without it."

REFUSE SUBSTITUTES.—Price 35c.—THEY'RE DANGEROUS.

To Buy Timber.—Ivan D. Smith, rep-
resentative of the well known Mont-
real lumber and timber firm of Mason,
Gordon & Co., is paying a visit to this
city and is staying at the Victoria
Hotel.
