Dixon & Son are doing all they claim. We heartily wish them success in the good work in which they are engaged: Sr. Thosas, Nov. 27, 1892. GENTR-When I ordered your remedy for caterrh two months ago I had no faith in its being a cure, as I had already tried specialists in Toronto, as well as in other cities in Canada and the States, for the past twenty years. I am a firm believer nose in your remedy, for, wonderful to relate, the one appli-cation sent me har effected a cure-thanks, many thanks. I shall consider myself your debtor for life. GENTR,-Accept my thanks for your treatment; complete cure; shall recommend your remedy to vevry one whom I find suffering from catarrh. WINNERS, Nov. 21, 1882 Gaves, --I promised to write to you on my arrival here if I required a third bottle of your remedy. I and appy to say that the second bottle cured me, and as it is now over four months since I have been troubled with catarrh, I feel certain that yours is a permanent cure. I was under Dr (name of special-ist), of Toronto, for over a year, but he could do nothing for me; in fact he said I was far gone in con-sumption and was incurable. I am now as hearty and strong as I could wish, thanks to your remedy. I have a friend here who has had catarrh for over Montreal for a long time, without any benefit there-tand I suppose he has come to this conclusion be-cause he has been humbugged so much. I enclose my own money for the remedy for his case (see de-scription); he will return me the money if he is cured, and I am not afraid of the risk. The Central Christian temperance society The Central Christian temperance society held its first of a series of monthly con-certs, in the Chestnut street mission church, last night. The program was varied, consisting of choruses, solos, duets, vocal dialogues, etc., all exceedingly well rendered. In spite of the disagreeable weather the audience was fairly large.

Los ANGLIOS, Cal., Nov. 21, 1882. GENTS,—When I wrote you nearly a year ago re-garding my daughter, and received your treatise on catarrh, I sat you down as quacks. However, as your theory of the disease scened reasonable, I in-stituted enquiries regarding you through friends in Canada, and I learned from them that your new have lege. I also learned that you did not quack around the country. I made this a special question, as I have found, from experience, that those who travel around the country quacking, and professing to cure many diseases, are generally those who can-not (from ignorance of their profession, non-success or some other cause) make a living at home where how other anse make a living at home who can-tod and the country quacking at home who set home only, gave me some faith in you, and I ordered your remedy last May, with the result that my daughter was completely cured in about a month. From the Weekly (Toronto) Mail, Aug. 24.

From the Weekly (Toronto) Mail, Aug. 24. Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of swo thousand patients treated during the past six months fully ninety per cent have been oursed of this stubborn malady. This is none the leas start-ing when it is remembered that not five per cent of patients presenting themselves to the regular pra-titioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermina-tion-this accomplished, he claims the catarrh is invacted. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured eatarrh.
