

THE SPORTING WORLD

The World will all have been pleased to receive the report that the Stratons race track has been sold to the Lorrains for \$400,000.

The conclusion of the Canadian international football match between the United States and Canada on Saturday was abandoned on Saturday owing to the rain.

One of the Providence baseball series claims that all the boys, girls, men and women in Providence understand the game.

The third race for the silver cup of the Toronto yacht club took place on Saturday and was won by the Mischief. The Iris and Midge were the only other starters.

The first annual exhibition of the National horse show association of America will be held at New York on Oct. 22 to 25.

The prize offered amount to \$1,000. When asked what time ago the latest time in which he had swum a mile, Hanson replied bravely: "Nobody knows my speed but the French, the water, and myself."

Rigal, the French wrestler, at present in San Francisco, will shortly leave for his native land to hunt up a wrestler big, strong and scientific enough to down Mr. Madison.

At Buffalo thirty-nine heats were trotted at an average speed of 2.31, 32-39, and eight heats were paced at an average of 2.54. The average for the entire meeting was 2.20-46-47.

Another the jockey has this season won in England 96 races out of 170, which is more than any other rider has secured. Wood has won 80 out of 294 and Fordham 63 out of 155.

Fred Oshkoff it is said is about to send Eolo to England to race for the Cesarewitch. The horse is to have a regular ship car arrangement on the deck of the ship at an expense of \$1000.

The single scull race between Ed. Clayton of Wheeling and Nick Laybarger of Pittsburgh afternoon was won by Clayton by five lengths; time 22.10.

A cricket match was played Saturday on the exhibition grounds between St. Stephen's cricket club and Wm. Mackenzie and Darling cricket club which resulted in a draw apparently in favor of St. Stephen's, the score standing 174 and 149 respectively.

Japan has the cheapest postal service in the world. Their "3 cent stamp" is only 15 cents. We suppose the government has to offer some great inducement to persuade a man to write a Japanese letter.

We know that penny postage couldn't get us to do anything, unless we marked the boxes for a living.

Worm swarms. "Worm swarms," or infestations, terrifies the cat, catfish, for feverishness, restlessness, worms, constipation, etc.

"How shall we stop the great evil of lying?" asks a religious weekly. It can't be stopped, but the evil might be lessened materially by changing the custom of putting inscriptions on tombstones.

Age should always command respect. In the case of Dr. Fowler's Extract of Wild Strawberry it certainly does. For 25 years that has been the standard remedy with the people for cholera morbus, dysentery, diarrhea, colic and all bowel complaints.

A Tennessee girl who has gray eyes makes them appear blue and bright by wearing a hat lined with dark blue velvet and setting lumps of sugar on which has been dropped a little cologne.

A Tennessee man who has gray eyes can make them appear black and blue by simply wearing a Sullivan Aerial and a horse thief.—Norristown Herald.

It is said that Kelly and Oridge, the bookmakers, have been to baseball during the Monmouth meetings that they are seriously thinking of discontinuing business for a few weeks to get rest at Saratoga. All the bookmakers at Monmouth park are losers. There are forty of them in the ring, and the fierce competition between them almost precludes the possibility of any of them winning.

The St. Catharines junior cricket club starts on their tour on Aug. 27. They will play against the Ontario team at Toronto, then at Hamilton on Wednesday; Longwood at Guelph on Thursday; Guelph, at Guelph on Friday; and Hamilton, at Hamilton on Saturday, Sept. 1. The names of the players are: H. J. Spiller, A. W. Marquis, W. S. Higgins (captain), E. G. Ryker, E. Sankler, A. C. Camp, H. Holland, R. G. Macdonald, H. Jones, V. Hines and Mitchell, the pugilists, who are striving to come together in a prize fight, as finding it difficult to secure a place for the meeting which will be attended by the police authorities.

The laws about prize-fighting are severe both in Kansas and Missouri, and there are not much less discouraging to prize-fighters in any of the neighboring states. It is difficult to understand why these gentlemen, if they really intend to fight take place in New York city, where, under the encouragement of state and police officials, who admit knock-outs, prize-fighting is fostered as a noble and legitimate industry.

A scolding reprimand among the employees of the H. J. Ferry company came off yesterday morning. Seven competitors entered, out of an expected seven. The course proved over extended from the York street wharf to a buoy placed about three-quarters of the distance across to Haines' and back, making the whole course about a mile and a quarter.

Following are the names of the contestants in the order in which they reached the home buoy: Tom Martin, Jim Carroll, Michael Sheehy, J. Small, J. McNab, W. B. Scott, Joe Ryan. Sheehy held first place, with Carroll following, until they reached the buoy, when a lock occurred in which Martin, who had been pulling leisurely behind, drew ahead and steadily held first place until the finish. The race was timed for a pool got up by the men, which was augmented by a liberal contribution from Captain Turner.

Chambers—A New Treatment. From the Weekly (Toronto) West, Aug. 21. Perhaps the most extraordinary cure has been achieved in the history of medicine by the Dixon treatment for cancer. Out of two thousand patients treated during the past months fully ninety per cent have been cured of this stubborn malady.

It is remembered that not five per cent of all cancer patients survive, and the patient subjected to the Dixon treatment generally believed to be the most scientific method of curing cancer. The Dixon treatment is a simple and safe cure for the extermination of cancer. It is a simple and safe cure for the extermination of cancer. It is a simple and safe cure for the extermination of cancer.

Our Old Corner. A little too much—the last straw. Not quite enough—the miser's beard. Never behind—a man's beard. Never before—the back of the head. Seldom seen—a generous miser.

Booze House. The Rosin is the largest hotel in Canada, only two blocks from Union station, corner King and York streets, finest situation in Toronto. Its thoroughly first-class appointments, large corridors, lofty ceilings, spacious, clean and well ventilated rooms (the whole house having been painted, frescoed and decorated this spring), detached and en suite, polite and attentive employees in every apartment, together with unexcelled cuisine, make it specially attractive to the travelling public. Elevator running day and night. Hot and cold baths on each floor. Electric bells in rooms. Fire escape in each bedroom. Prices graduated.

THE BILIOUSNESS AND BILIOUS PATIENTS

Belonging to the Bilious, Bilious Symptoms, Bilious Temperament—The Remedy. The bilious is a disorder of the human system. A technical definition of the term is this: "pertaining to the bile; disordered in respect to the bile, as a bilious patient; dependant on an excess of bile; as, bilious temperament; bilious symptoms."

The word bile, when employed in the sense in which it is to be understood in this article, signifies, according to the dictionary, "a yellow, greenish, bitter, viscid, aqueous fluid secreted by the liver." "Any derangement of the bile at once manifests itself in great bodily discomfort, in loss of appetite, and in dependence is remarkably an author of a valuable treatise upon this subject."

The same writer further adds: "Some of the following symptoms are usually prominent: Pain in the right side, which is very sensitive to pressure. The pain will sometimes appear to be located under the shoulder blade. There is irregular appetite, flatulence, a sense of fullness in the region of the stomach, and, sooner or later, the skin and eyes become jaundiced, the stools clay colored and the urine yellow, depositing a copious sediment."

The balance of the second half of the liver needs no further mention here. The bilious, as will be seen, is an affliction of great magnitude, and of varied forms of direct and indirect appearance. The disease is no respecter of persons or localities. It is deadly and impalpable enemy is found in:

It acts on the liver and kidney at the same time, and by its mild but efficient cathartic effects moves the bowels freely, and is a most valuable remedy in all cases of this disease and suffering will be thrown off; new life will be infused into every organ and nature, thus aided, will soon restore the patient to health.

Physicians of repute and standing, men who are honored for their probity, and respected and trusted, under the name of cathartics, are using Kidney-Wort in their practice regularly. No stronger evidence of the worth of the remedy would seem to be necessary. Such endorsements are few and far between. We had almost said that they were without precedent in the history of a proprietary remedy. Be this as it may, however, the fact remains established that Kidney-Wort is a most reliable remedy, and one that needs only to be tested to demonstrate its rare merit as a healer of most of the common maladies of the human family.

DR. PHILIP C. BALLOU lives in Montreal, Vt. Under date of April 20, 1882, the doctor wrote to the proprietors of Kidney-Wort, in reply to a letter of the 11th of August: "Nearly a year ago I wrote you about the success I had had in the use of Kidney-Wort in my practice. The year I have used it more than ever, and with the best results. It cured Mr. Eban Lawrence of his chronic catarrh of the bladder of bilious kidney disorder. It has also cured many other diseases successfully with it. Constipation, in all its forms, yields to it, and in the most obstinate cases has known it to give almost immediate relief. In female disorders it is equally successful. Take it in all cases of the most wonderful medicine I have ever used."

DR. BALLON does not stand alone in his experience with this remedy. R. C. McMillan, M.D. of South Hero, Vt., writes: "Kidney-Wort does all that is claimed for it." "Whit Dr. C. M. Sumner of Sun Hill, Wash., writes: "I have used Kidney-Wort in my own and other physicians' prescriptions only palliated her troubles."

A Visitor Who Comes Multitudinously and is Cured Even When He Comes Singly. From the Rochester Sunday Truth.

The excursion season has set in in full force. The felt-hatted Canucka comes from our streets. The boats bring in their quota from up the lakes and the gentle breeze wafts from the sandy shores of Ontario the ubiquitous "sojourner." This brilliant gentleman is more than usually abundant and possesses the power to make somewhat citizens arise in their wrath and spew coarse words with a vigor which, if it is not checked, will be followed by a volley of abuse which would cause him to slumber and sink into the abyss to which human nature so frequently desires him to be consigned.

The "sojourner" is a peculiar bird—that he is the "queen's own" will not admit of argument. Although he bears no relation to the Ridgeway man, he is a subject of her majesty. Unlike his prototype the Toronto regiment of "Queen's Own," he has never been solicited to join the army. He is a native of our country, but nevertheless he is with us, and his presence in considerable numbers is as much a source of annoyance to our peaceable people as the real "queen's own" would be to the feline residents of the city of chibouchee. Beecher's guests would be merely on a pleasure trip and should hardly disturb our dreams. They come and go for ever and the amiable relations existing between her majesty's government and the government of the United States would not be disturbed, but the residents of Canada desire no enjoyment here of a different mould; their presence is a constant menace to the peaceful relations of two great nations. We are not down to the level of the amiable contentment and hatred for the species—they are about the means, the most contemptible animals we know of. We would like to slaughter several millions of them, but in no case, two millions would occupy their place. They are thicker than flies, and more contemptible than the Western Union. We will dismiss them here and can only express our regret: we can't fire them out of creation for all time to come.

Beautiful Women are made paler and unattractive by functional irregularities, disorders and weaknesses that are perfectly cured by following the suggestions given in an illustrated treatise (with colored plates) sent for three cents by mail. Address World's Dispensary Medical Association, Buffalo, N.Y.

Arrows for Beaux. If you intend to call on a young lady the following hints may prove useful:

First make friends with the fresh dog in the front yard. Then look out for the freshly painted stoop.

Be sure and ring the door bell as if you were trying to arouse the doctor.

Always kiss the pretty servant girl who answers the bell and pretend you thought she was the young lady of the house.

When you are ushered into the parlor take along your hat and keep it under a chair.

Don't express any surprise when the young lady begins to yawn, but keep right on talking.

If she asks you what time it is tell her you've pawned your watch.

When you find you are getting frozen out of the parlor, say you have a headache.

This will make things so lively that you will be asked to call again—when Noah's ark takes its place in our navy.

FINANCIAL AND TRADE

TOLEDO, Aug. 20.—Business was quiet at the street this morning. Following are the retail prices for the principal commodities: Best—No. 1, 14 1/2; No. 2, 14; No. 3, 13 1/2; No. 4, 13; No. 5, 12 1/2; No. 6, 12; No. 7, 11 1/2; No. 8, 11; No. 9, 10 1/2; No. 10, 10; No. 11, 9 1/2; No. 12, 9; No. 13, 8 1/2; No. 14, 8; No. 15, 7 1/2; No. 16, 7; No. 17, 6 1/2; No. 18, 6; No. 19, 5 1/2; No. 20, 5; No. 21, 4 1/2; No. 22, 4; No. 23, 3 1/2; No. 24, 3; No. 25, 2 1/2; No. 26, 2; No. 27, 1 1/2; No. 28, 1; No. 29, 1/2; No. 30, 1/4.

TOLEDO, Aug. 20.—Wheat—No. 1, 104; No. 2, 103; No. 3, 102; No. 4, 101; No. 5, 100; No. 6, 99; No. 7, 98; No. 8, 97; No. 9, 96; No. 10, 95; No. 11, 94; No. 12, 93; No. 13, 92; No. 14, 91; No. 15, 90; No. 16, 89; No. 17, 88; No. 18, 87; No. 19, 86; No. 20, 85; No. 21, 84; No. 22, 83; No. 23, 82; No. 24, 81; No. 25, 80; No. 26, 79; No. 27, 78; No. 28, 77; No. 29, 76; No. 30, 75.

TOLEDO, Aug. 20.—Wheat—No. 1, 104; No. 2, 103; No. 3, 102; No. 4, 101; No. 5, 100; No. 6, 99; No. 7, 98; No. 8, 97; No. 9, 96; No. 10, 95; No. 11, 94; No. 12, 93; No. 13, 92; No. 14, 91; No. 15, 90; No. 16, 89; No. 17, 88; No. 18, 87; No. 19, 86; No. 20, 85; No. 21, 84; No. 22, 83; No. 23, 82; No. 24, 81; No. 25, 80; No. 26, 79; No. 27, 78; No. 28, 77; No. 29, 76; No. 30, 75.

TOLEDO, Aug. 20.—Wheat—No. 1, 104; No. 2, 103; No. 3, 102; No. 4, 101; No. 5, 100; No. 6, 99; No. 7, 98; No. 8, 97; No. 9, 96; No. 10, 95; No. 11, 94; No. 12, 93; No. 13, 92; No. 14, 91; No. 15, 90; No. 16, 89; No. 17, 88; No. 18, 87; No. 19, 86; No. 20, 85; No. 21, 84; No. 22, 83; No. 23, 82; No. 24, 81; No. 25, 80; No. 26, 79; No. 27, 78; No. 28, 77; No. 29, 76; No. 30, 75.
