Hogs are lower in price on heavier receipts, Hogs are lower in price on neavier receipts, wheat has reacted 3c from the high prices touched early in the week, and corn and oats have, as is natural, sympathized with the decline. This is due to foreign markets refusing to follow farther at this time the advance in domestic markets together with some slight improvement in crop reports.

The Outlook Bright, NEW YORK, Aug. 29.-Dun, Wiman & Oo.'s Weekly Review of Trade says: The great relief in the money market here, caused by treasury purchases of 4½ per cent bends, by treasury purchases of 4½ per cent bonds, the refusal of the labor federation to take up and extend the strike on the Central Railroad and the prospect that the Senate will soon reach final action on the tariff bill have all tended to improve the state of business. At the same time better crop prospects have brought a distinct reaction in the speculations which most retarded business. Thus, while the volume of domestic trade continues greater than in any previous year at this season, bank clearings for August outside this city exceeding last year's by 21 per cent., the outlook for the future is clearer and brighter. clearer and brighter.
