WHERE DOCTORS DIFFER.

Or Shepherd.
Or Shepherd.
Or Shepherd.
Or Shepherd.
Or Justice Robertson has given judgment in Wilkinson v. Shepherd, tried at Toronto, without a jury, in October. Both parties to the action are doctors, and the plaintiff sued for damages for gross and fraudulent misrepresentation by defendant as to the value of his practice as a doctor of medicine in the village of Mono Mills, whereby he induced the plaintiff whereby he induced the plaintiff whereby he induced the plaintiff or three years at \$150 a year. The learned judge quotes freely from the letters which passed between the parties, and finding in favor of the plaintiff, he scorches the defendant for his conduct. He plaintiff, who, he says, was grossly deceived. He repudiates the doctrine of estoppel as applied to this case. The mere fact that the plaintiff had an opportunity of investigating the truth or falsity of the defendant's statements is not surficient to deprive him of his right to rely upon defendant's representations. "If," the learned Judge continues, "It hought it necessary to have to rely upon defendant's representations in the letters." Judgment for plaintiff, who first in the plaintiff had an opportunity of investigating the truth or falsity of the defendant's statements (plaintiff's or defendant's representations in the letters." Judgment for plaintiff's or defendant's is not surficient to deprive him of his right to rely upon defendant's representations in the letters." Judgment for plaintiff's or defendant's to the representations in the letters." Judgment for plaintiff for \$1550 and all costs. R. S. Neville for plaintiff. Myers, Q.C., for defendant.

Mr. Justice Falconbridge has given the letters are applied to the book (produced by defendant.) but it is not necessary. The defendant is the plaintiff in the plaintiff of the plaintiff in t

Mr. Justice Falconbridge has given

Money was stringent at New York yesterday, and this accounts partly for the decline in stocks. Rates on call ranged from 6 to 25 per cent. and the clearing house issued certificates. A bid of 2 1-2 per cent. was made for the privilege to call gold for 30 days and 5-8 per cent. bid for assay office gold checks.

London sold stocks yesterday after-noon. The fortnightly settlement there was attended by the failure of an oper-ator in American stocks. The Kaffir market was weak and nervous.

The Chicago wheat market was active and higher yesterday. The bullish factor was the large decrease of 2,500,000 bushels in the English visible. There is a better feeling in speculative circles, and higher prices are anticipated. The local market is also better, with sales of round lots on p.t.

The amount of gold exported from New York last week was only \$2,235,000, which is much less than had been anticipated. Net exports this year are \$74,403,000, as against \$78,605,000 in 1894, \$10,688,000 in 1893 and \$62,741,000 in 1892.

depleted freasury, and a limmediate repletion is necessary. Just when the bonds will be issued is not yet Rnown. There is \$150,000,000 in gold in the banks of the country, but the only hitch at present is the difficulty in getting the bankers to say positively what share of the bonds they will take. Undoubtedly some of the issue will go abroad. In fact, it is understood that J. P. Morgan & Co. have engaged to take something like \$50,000,000 of the issue of \$100,000,000 proposed, a large part of which is for foreign investment. These bonds will bear 4 per cent. intere t.

The current number of Bradstreet's says that business failures in the United States for the year number 13,013, an increase of more than 2 per cent., with an increase of 6 per cent. In liabilities. The commercial "death rate." which averaged 1.20 in every 100 engaged in business during five years from 1890 to 1894, inclusive, and fell to 1.21 in 1894, has risen to 1.23 of every 100 in business this year. The percentage of assets to liabilities has risen from 53 one year ago to nearly 56, but it is contrasted with 65 in 1893. The price movement is more favorable than for a number of weeks, but principally because there is a fewer number of the same of the sam 100 in business this year. The percentage of assets to liabilities has risen from 53 one year ago to nearly 56, but it is contrasted with 65 in 1893. The price movement is more favorable than for a number of weeks, but principally because there is a fewer number of declines than has been the case recently.

Trade was quiet at St. Lawrence market to-day, with prices generally steady.

GRAIN.

Wheat is dull, with red quoted at 67c, white at 71c and goose at 53½c. Barley steady, 200 bushels selling at 37½c to 44½c.

Oats steady at 27½c to 28c. Peas nominal at 53½c, and buckwheat at 37½c.

"The financial situation," says Henry Clews, "now needs Congressional action for its repair, If a bill were speedily passed of the following character I think it would meet the case, as the Government wants gold now and not currency: The Act should provide for an issue of certificates having three years to run, payable in gold, bearing 3 per cent. interest, to be sold at 100 only for gold. On such an obligation the Government could get all the gold from time to time that it needed without any difficulty. I suggest a certificate in place of a bond to be issued, because it is argued in Congress that to pass an Act to issue gold bonds at the present time would be an invidious distinction against the other bonds now out, as they all specify payable in "The financial situation," says Henry ADVENTISHMENT ON Such an obligation only for gold. On such an obligation the Government could get all the gold from time to time that it needed without any difficulty. I suggest a certificate in place of a bond to be issued, because it is argued in Congress that to pass ar Act to issue gold bonds at the present time would be an invidious distinction against the other bonds now out, as they all specify payable in coin."

Don't delay getting a bottle of Dr. Laviolette's Syrup of Turpentine as scon as you contract a cold, for it acts all the quicker when taken from the first. One bottle often completely cures.
