"ST. AUGUSTINE"

Sacramental Wine.

The REV. DR. COCHRANE writes:—

BRANTFORD, May 23rd, 1895

Messrs. J. S. Hamilton & Co.

GENTLEMEN.—The St. Augustine Wine used in my own church on sacramental occasions, as well as in many other churches, I have always heard spoken of in the highest terms and is admirably suited for the purpose. Its deservedly high reputation for purity can be relied upon. The unfettered grape juice also commends itself to those who prefer that the wine should not be fermented and should have a large and increasing sale in our Presbyterian and other Churches.

A VAST DIFFERENCE.

How to distinguish the Genuine from the Imitations at a Glance.

PAINE'S CELERY COMPOUND
"MAKES PEOPLE WELL."

Other Preparations Mislead and Deceive.

There is truly a wonderful difference when the pure, solid, heavy and legal gold coin is compared with the miserable imitation.

The genuine coin is passed with confidence from one person to another; all people believe in it. How is it with the imitation—that spurious coin made and issued by dark and criminal hands? It is made in dark places; it is issued stealthily to deceive and defraud; and all who are connected with the work of deception are ever fearful of the hands of justice.

The genuine gold coin has music and crispness in its ring; the base coin sounds dead and harsh to the ear.

As the genuine gold coin and the imitation differ so vastly, so also is there a world of difference between Paine's Celery Compound and the imitations of Celery that people are frequently deceived by.

Paine's Celery Compound is universally popular owing to its great efficacy; it is hailed everywhere as the great healer of disease; it is recommended by professional men all over this continent; it is genuine, reliable and honest, and "makes people well."

The imitations, and all the crude preparations, are made to sell without regard to results. Deceived buyers are naturally indignant at loss of money and the aggravation of their troubles. When such imitations are used, life is positively endangered.

The genuine Paine's Celery Compound—the kind that cures—is easily distinguished by the words "Paine's Celery Compound," and the "stalk" of celery found on the bottle and outer carton. Look for these special features and you always get just what will meet your case.

HEALTH AND HOUSEHOLD HINTS.

Poorly ventilated kitchens make poor cooks, by destroying the sense of taste and smell.

Use a wire frame for boiling potatoes, and see how much of vexation it saves and how satisfactory the result.

By rubbing with a flannel dipped in whiting the brown discoloration may be taken off cups which have been used for baking.

In making steamed custards, constant stirring is necessary after putting in the thickening ingredients to get a smooth, creamy result.

Glass vessels may be purified from bad smells with charcoal. Scour off the grossest impurities with sand, and then rinse out with the charcoal.

There is often a weary struggle to loosen the top of a glass can of fruit. There need be no trouble if the can is quickly inverted and the head plunged into a kettle of very hot water. The same treatment will suffice to start the obdurate glass stopper of a perfumery bottle. The principle is to swell the neck of the article, so that the cover will move readily in it. This is best done by the method described.

Glycerine is one of the most useful and misunderstood of everyday assistants. It must not be applied to the skin undiluted or it will cause it to become red and hard, but if rubbed well into the skin while wet it has a softening and whitening effect. It will prevent and cure chapped hands, two or three drops will often stop the baby's stomach ache. It will allay the thirst of a fever patient and soothe an irritable cough by moistening the dryness of the throat. Equal parts of bay rum and glycerine applied to the face after shaving makes a man rise up and call the woman who provided it blessed. Applied to shoes, glycerine is a great preservative of the leather and effectually keeps out the water and prevents wet feet.

Cream Pie.—Make with a light flaky under-crust. Take one coffee cup of thick, sweet cream, one-half cup of pulverized sugar, one tablespoon of flour, one egg, flavor with lemon extract, bake until you are sure the crust is brown and hard, so that it will not absorb the custard.

Raised Graham Muffins.—Mix two cups of graham, one of cornmeal and one of white flour with one tablespoonful of sugar, one-half a tablespoonful of molasses and enough warm water to make a soft batter. Dissolve one-half a yeast cake in water; add it with one quarter of a teaspoonful of soda to the batter, and let it rise over night. In the morning mould with a very little flour into biscuits and bake in a rather quick oven.

Bread Pudding.—A new recipe for bread pudding is one worth adding to the housekeeper's notebook. Soak one pint of fine crumbs in a pint of milk until soft, add three table-spoons of cocoa dissolved in a little water, three well beaten eggs, a half cup of granulated sugar, and another pint of milk. Set the pudding dish in a pan of hot water and bake one hour. Whipped cream flavored with vanilla is very good with this pudding, or a sauce made from a scant cup of sugar, a table-spoon of cornstarch, and a cup of water may be used. Cook the ingredients in a double boiler ten minutes, and just before serving add an ounce of butter and a half teaspoonful of vanilla.

On Board a yacht, sail-boat, or any kind of vessel, there's a great deal of work that can best be done with Pearl-line. It washes all the paint, wood-work, glass, etc., better than anything else. Most captains have found this out and Pearl-line is kept in foreign ports, now, on purpose for them. You can't use soap with salt water, you know; but it doesn't make much difference—salt or fresh, hard or soft, hot or cold—with Pearl-line. 431 JAMES PYLE, N. Y.
